1. DRGs and parameters included in this worksheet are version 31.
2. Average length of stay and casemix relative values were calculated from the Nationwide Inpatient Sample by 3M Health Information Systems for APR-DRG V.31.
3. Average length of stay is the untrimmed arithmetic value.
4. This spreadsheet includes data obtained through the use of proprietary computer software created, owned and licensed by the 3M Company. All copyrights in and to the 3M™ Software are owned by 3M. All rights reserved.
