

Performance Measures: Moving Forward

May 15, 2019

Why now?

Performance measure landscape

- CMS Focus
 - Core Set
 - State Report Cards
 - Future of TMSIS
- Health Plan
 - MCO/HPA feedback re: methodological concerns with current process
 - Financial risk

CMS Scorecard Measures

The State Health System Performance measures show how states serve Medicaid and CHIP beneficiaries in six areas:

- Promoting communication & care coordination
- Reducing harm in care delivery
- Promoting prevention & treatment of chronic diseases
- Strengthening engagement in care
- Making care affordable
- Working with communities to promote healthy living

Quality Rating System

CMS, in consultation with States and other stakeholders and after providing public notice and opportunity to comment, will identify performance measures and a methodology for a Medicaid managed care quality rating system that aligns with the summary indicators of the qualified health plan quality rating system developed per 45 CFR 156.1120.

2020 Adult Core Set Summary (DRAFT)

2019: 32 Adult Measures + CAHPS

- Recommend remove 3 measures
- Recommend add:
 - 1 BH measure
 - 2 LTSS

2020 Adult Core Set (DRAFT)

Primary Care Access and Preventative Care

1. Cervical cancer screening (NCQA)
2. Chlamydia Screening women 21-24 (NCQA)
