## **Transplant Contract Outlier Timeliness Clarification**

AHCCCS has recently received questions regarding the submission deadline for the Transplant Outlier Packet. We conferred with the Legal Department and a determination was made that as long as all of the claims have been submitted within the Timely Filing limits, the timeframe for submitting the Outlier Packet would be that it would need to be a clean submission within 12 months of the end date of service of the final component for the Facility and 15 months from the end date of service of the component for the Health Plan to AHCCCS.

If the Health Plan receives re-submissions of packets that were previously denied due to this change, please notify the AHCCCS reinsurance department and we will work with you to determine whether the Outlier can be paid.
