Alternate Care Site (ACS) List

In the event of a disaster or public health emergency, Alternate Care Sites (ACS) may be created by Indian Health Service or Tribally owned/operated (IHS/ 638) facilities to enable healthcare providers to provide medical care for injured or sick patients, or to continue care for chronic conditions in non-traditional environments.

These ACS may include locations that need to be converted (e.g., schools and stadiums) or they may include facilities like mobile field hospitals. A list of currently operating Alternate Care Sites can be found below.

If you are an IHS or 638 facility that has established an ACS, please email the [ACS attestation form](#) to the DFSM Provider Training Team, at ProviderTrainingFFS@azahcccs.gov.

For additional information regarding Alternate Care Sites, please refer to the [Division of Fee-for-Service Management \(DFSM\) Alternate Care Site Memo](#).

Alternate Care Site List

San Carlos Apache Healthcare/San Carlos Apache Gold Casino Resort

<u>IHS-638 Facility:</u>	San Carlos Apache Healthcare 103 Medicine Way Rd
<u>Alternate Care Site Location:</u>	San Carlos Apache Gold Casino Resort 777 Geronimo Springs Blvd
