Arizona Health Care Cost Containment System  
801 East Jefferson Street  
Phoenix, AZ 85034

Dear Mr. Betlach:

Enclosed is an approved copy of Arizona's State Plan Amendment (SPA) Number 10-001, which was submitted to my office on January 11, 2010 to implement nominal cost sharing under Section 1916 for all State Plan Medicaid populations not otherwise exempt and to implement Section 1916(a) alternative cost sharing for Transitional Medical Assistance (TMA) parents/caretaker relatives with family income exceeding 100% FPL.

The effective date of this SPA is October 1, 2010 as requested. Enclosed are the following approved State Plan pages to be incorporated within your approved State Plan:

- Section 4.18, pages 54-56
- Attachment 4.18-A, pages 1-3
- Attachment 4.18-F, pages 1, 1(a), 2, 3, 3(a), and 4-8

If you have any questions, please contact Cheryl Young at (415) 744-3598 or by email at [cheryl.young@cms.hhs.gov](mailto:cheryl.young@cms.hhs.gov).

Sincerely,

Gloria Nagle, Ph.D., MPA

Associate Regional Administrator

**State:**

**B. The method used to collect cost sharing charges for categorically needy individuals:**

**Providers are responsible for collecting the cost sharing charges from individuals.**

**The agency reimburses providers the full Medicaid rate for services and collects the cost sharing charges from individuals.**

**C. The basis for determining whether an individual is unable to pay the charge, and the means by which such an individual is identified to providers, is described below:**

By state administrative rule, all providers are required to accept the individual's self-declaration of the inability to pay the charge.

**D. The procedures for implementing and enforcing the exclusions from cost sharing contained in 42 CFR 447.53(b) are described below:**

Providers are able to access and track copayment information from the verification systems used by AHCCCS providers (excluding IVR) such as EVS, the web, and HIPAA transactions 270 and 271. The verification system will identify the member's eligibility category where a specific copay level is assigned by population. It will also identify whether the member is subject to a mandatory or nominal copayment and specify the copayment amount by service level. This system also identifies services which are exempt from copayments. Prior to implementation, AHCCCS provided information all providers and contractors which described the copayment requirements by eligibility category, including descriptions of exempt services and populations. This communication is posted on the website along with the rule, which sets forth the copayment requirements and prohibitions. Contracted health plans receive daily and monthly rosters from AHCCCS that identify each member's cost sharing designation (nominal, mandatory or exempt). In addition, AHCCCS sends the health plans a reference extract table which is used to identify the copay amounts for specific services by the member's cost sharing category.

Interim Plan: October 1, 2010-April 30, 2011: To ensure that American Indians are exempted from cost sharing, fee for service users, who represent the vast majority of American Indian (AI) AHCCCS recipients, will be exempted from cost sharing. Because some AI's choose to receive services through MCO's, the AHCCCS Client Advocate Office will work with managed care enrollees to exempt AI's served under managed care.

Final Plan: Effective no later than May 1, 2011: As a result of an analysis of FFS claims and encounters, AHCCCS will identify all active and previous users of Indian Health Service Facilities, Tribally-Operated 638 Health Programs and Urban Indian Health Programs (I/T/Us) for which AHCCCS has provided reimbursement. All users identified through this analysis will be flagged and exempted from all cost sharing, and this information will be communicated to MCOs' and providers. The AHCCCS Client Advocate office will also work closely with the identified population to ensure that cost sharing is not applied to any American Indian who has ever utilized an I/T/U or received a service through referral by Contract Health Services.

**E. Cumulative maximums on charges:**

**State policy does not provide for cumulative maximums.**

**E. Method for tracking beneficiaries' liability for premiums and cost-sharing:**

1. Describe the methodology used by the State to identify beneficiaries who are subject to premiums or to cost sharing for specific items or services.  
Alternative cost sharing is only applied to persons determined eligible for Transitional Medical Assistance under section 1925 through the State's normal eligibility redetermination process, which includes reviews initiated by eligible persons who report an increase in income.

Interim Plan: October 1, 2010- April 30, 2011: To ensure that American Indians are exempted from cost sharing, fee for service users, who represent the vast majority of American Indian (AI) AHCCCS recipients, will be exempted from cost sharing. Because some AI's choose to receive services through MCO's, the AHCCCS Client Advocate Office will work with managed care enrollees to exempt AI's served under managed care.

Final Plan: Effective no later than May 1, 2011: As a result of an analysis of FFS claims and encounters, AHCCCS will identify all active and previous users of Indian Health Service Facilities, Tribally-Operated 638 Health Programs and Urban Indian Health Programs (I/T/Us) for which AHCCCS has provided reimbursement. All users identified through this analysis will be flagged and exempted from all cost sharing, and this information will be communicated to MCOs' and providers. The AHCCCS Client Advocate office will also work closely with the identified population to ensure that cost sharing is not applied to any American Indian who has ever utilized an I/T/U or received a service through referral by Contract Health Services.

2. Describe how the State identifies for providers, ideally through the use of automated systems, whether cost sharing for a specific item or service may be imposed on an individual beneficiary and whether the provider may require the beneficiary, as a condition for receiving the item or service, to pay the cost sharing charge.  
Contracted health plans will be informed of the services subject to copayments and their corresponding dollar amounts. Health plans will make this information available to their network of providers through the 834- the Benefit Enrollment Maintenance Transaction, a HIPAA required format used as the roster to contracted health plans. Additionally, all providers will be able to access information from the verification systems used by AHCCCS providers (except IVR) such as EVS, the web, and HIPAA transactions 270 and 271. Information regarding whether the member is subject to a mandatory or nominal copayment, when copayments can not be charged and what a member's specific copayment level is by service type.
3. Describe the State's processes (that do not rely on beneficiaries) used for tracking beneficiaries' incurred premiums and cost sharing under sections 1916 and 1916A of the Act if families are at risk of reaching their total aggregate limit for premiums and cost sharing, how the State informs beneficiaries and providers when a beneficiary's family has incurred premiums and cost sharing up to its 5 percent aggregate limit, and how the State assures that the family is no longer subject to further premiums and cost sharing for the remainder of the monthly or quarterly cap period.  
The State will use available Health Plan adjudicated encounters to identify beneficiaries reaching the 5% aggregate copayment amount in a quarter by using the lowest possible family income and calculating the applicable copayment amounts for reported services during the quarter. If it is determined that a beneficiary has reached the 5% cap, the State will identify this status in the verification systems described above to inform providers that the member is not be subject to further cost sharing.

4. Describe the process through which beneficiaries may request that the State reassess the family's aggregate limit for premiums and cost sharing when the family's income has changed or if a family member's Medicaid enrollment is being terminated due to nonpayment of a premium. Members are informed of applicable cost sharing requirements through the member handbook, the public website, and special copay notices provided to members prior to implementation. Members are advised they can request a reassessment of the family's aggregate limit if they believe the family's income has changed.

**F. Public Notice Requirements:**

Explain how the State meets the following public notice requirements at 42 CFR 447.76.

1. The requirement at 42 CFR 447.76(a) and (b) for making available certain information about the State's premiums and cost sharing policies and procedures to the general public, applicants, beneficiaries, and providers:  
AHCCCS posted the cost sharing State Plan Amendment on the public website. Additionally, AHCCCS filed the Notice of Proposed rule making and final rule making with the Secretary of State, made this information available on the public website, and conducted a public hearing at the Agency. A matrix of all public comments as well as the Administration's responses to each of the comments were posted to the website. Furthermore, the rulemaking process allowed for public participation at the Governor's Regulatory Review Council prior to the adoption of the rule. Member handbooks were updated to include updated information about cost sharing. Additionally, members subject to the mandatory copayments received advanced notice of the mandatory copayment requirements. AHCCCS updated the member application to describe cost sharing requirements as well as exemptions from cost sharing.
2. The requirement at 42 CFR 447.76(c) to provide the public with advance notice and the opportunity to comment prior to submitting a State plan amendment (SPA) to establish or substantially modify alternative premiums and/or cost sharing under section 1916A of the Act: Notice of the proposed rule and the opportunity to provide written or oral comments on the rule were published in the State Administrative Register. Following publication of the proposed rule, the agency allowed a 30 day period for submission of public comments and conducted a public hearing where oral public comments were solicited at the close of the comment period. In addition, a public hearing was conducted by a separate executive branch agency, the Governor's Regulatory Review Council, at which public comment was solicited prior to finalization of the administrative rule. All of this information was published on both the AHCCCS and Secretary of State's websites.
