In the event of a disaster, the State will notify CMS of its intent to provide temporary adjustments to; flexibilities around delays in processing applications and renewals, , the ability to waive the three month waiting period for applicants, the ability to waive existing premiums, and the ability to waive the premium lock-out period. In addition, the state is requesting to temporarily provide continuous eligibility to its CHIP population.

1.4-TC Tribal Consultation (Section 2107 (e)(1)(C)) Describe the consultation process that occurred specifically for the development and submission of this State Plan Amendment, when it occurred, and who was involved.

The State of Arizona seeks advice on a regular, ongoing basis from all of the federally-recognized tribes, Indian Health Service (IHS) Area Offices, tribal health programs operated under P.L. 93- 638, and urban Indian health programs in Arizona regarding Medicaid and CHIP matters. These matters include but are not limited to State Plan Amendments, waiver proposals, waiver extensions, waiver amendments, waiver renewals, and proposals for demonstration projects. The AHCCCS Tribal Consultation Policy serves as a guidance document that includes the process by which reasonable notice and opportunity for consultation should occur and scenarios in which AHCCCS shall engage in the consultative process.

The frequency of consultation is dependent on the frequency in which policy changes are proposed. When a proposed policy change requires consultation, the State will to its best ability provide notice of the tribal consultation meeting date as well as a description of the proposed policy change to be discussed. Ideally, a consultation meeting, which provides an opportunity for discussion and verbal comments to be made regarding a proposed change, will occur either in-person or by conference call 45 days prior to the submission of the policy change to CMS. The State will also provide an opportunity for written comments. Ideally, during the 45-day period, tribes and I/T/U will be provided at least 30 days to submit written comments regarding the policy change for consideration. Verbal comments presented at the meeting as well as written comments will be included in an attachment to accompany the submission of a State Plan Amendment, waiver proposal, waiver renewal, or proposal for a demonstration project.

To address the COVID-19 public health emergency, the State seeks a waiver under section 1135 of the Act to modify the tribal consultation process by shortening the number of days before submission of the SPA and/or conducting consultation after submission of the SPA.
