

The State Medicaid Advisory Committee (SMAC) is responsible for providing guidance on the strategic direction of Arizona's Medicaid program as well as input on agency planning efforts and operational protocols that may impact the services and supports offered to Medicaid beneficiaries. The SMAC acts in an advisory capacity to AHCCCS' Director, providing insight on a variety of topics such as the 1115 waiver, system transformation efforts and the prioritization of initiatives aimed at enhancing and/or maintaining the ongoing stability of Arizona's health care delivery system. As a nationally recognized Medicaid program, AHCCCS has been a leader in advancing integrated care, value based purchasing efforts aimed at driving down cost while enhancing health outcomes and in promoting the importance of social determinants of health in gaining a comprehensive understanding of the range of factors influencing individuals' health outcomes.
