

### Individuals with a Serious Mental Illness (SMI) designation have access to additional support and resources.

When an AHCCCS member receives an SMI designation, the following benefits are made available:

- An assigned provider case manager - A designated individual at your provider to coordinate your care to meet your recovery goals.
- Assertive Community Treatment (ACT) - A team of providers to help you when it is determined your care needs exceed those of standard case management.
- Access to SMI Housing when available - Supportive housing services for people with an SMI determination.
- May request to receive physical health services from an AHCCCS Complete Care (ACC) health plan, if specific requirements are met per AHCCCS policy (ACOM 442).
- SMI Grievance and SMI Appeals processes - If you have an SMI designation you have access to the SMI Grievance and SMI Appeal processes under the Arizona Administrative Code (A.A.C R9-21-400).
- Technical Support from the AHCCCS Office of Human Rights (OHR) - Experts to help you advocate for your SMI rights, navigate behavioral health services, and guidance through the grievance and appeals process.
- Special Assistance (only available to individuals who meet specific criteria) - A designated representative to speak up on your behalf when you can't speak for yourself, in certain situations. Visit the AHCCCS Office of Human Rights web page for more information [www.azahcccs.gov/AHCCCS/HealthcareAdvocacy/ohr.html](http://www.azahcccs.gov/AHCCCS/HealthcareAdvocacy/ohr.html).

To connect to these additional supports, individuals may contact their treatment team/providers and/or case manager. Individuals who do not have a treatment team may contact their health plan.
