Reinsurance Repricing all Hemophilia Factor Encounters CY37 – CY39

Due to a rounding error in the Hemophilia Factor rates in the RF321 Pharmacy Item Price Inquiry table, Reinsurance has had to correct the pricing on all Form C Hemophilia Factor Encounters 10/01/2018 forward. This correction affects cases in Contract Years 37 – 39. You should see payment and/or recoupment of the associated Reinsurance Encounters in the March 2021 Reinsurance Payment Cycle.
