

Talking points

WellCare has entered into an agreement with Care1st [ONECare if you are talking to a ONECare member] for WellCare to acquire Care1st [ONECare]. It will take some time for the transaction to close, likely the end of 2016, after we receive regulatory approval.

For our members, **nothing has changed**. Your current membership card and benefits remain the same, as does your access to your physicians. You will continue to receive the same high-quality service we have always provided.
