

December 28, 2018

The Honorable Douglas A. Ducey
Governor of Arizona
1700 W. Washington
Phoenix, AZ 85007

The Honorable Steve Yarbrough
Arizona State Senate
1700 West Washington
Phoenix, Arizona 85007

The Honorable J.D. Mesnard
Speaker of the House
Arizona House of Representatives
1700 West Washington
Phoenix, Arizona 85007

Dear Governor Ducey, President Yarbrough, and Speaker Mesnard:

Pursuant to A.R.S. §36-2023, please find enclosed AHCCCS Annual Report on Drug Abuse Treatment Programs. Please do not hesitate to contact me if I can answer any questions or provide additional information.

Sincerely,

Thomas J. Betlach,
Director

cc: Christina Corieri, Governor's Office Senior Policy Advisor

**Annual Report:
Substance Use Treatment Programs
State Fiscal Year 2018**

July 1, 2017 to June 30, 2018

**January 2019
Tom Betlach, Director**

Background

The Arizona Health Care Cost Containment System, Division of Healthcare Management (AHCCCS/DHCM) has conducted an assessment of its Substance Use Disorder (SUD) treatment programs in accordance with the requirements outlined in Arizona Revised Statutes (A.R.S) §36-2023(C)(6):

Prepare an annual report on drug abuse treatment programs in this state that receive monies from the administration to be submitted by January 1 of each year to the governor, the president of the senate and the speaker of the house of representatives and to be made available to the general public through the Arizona drug and gang prevention resource center. The report shall include:

- (a) The name and location of each program.*
- (b) The amount and sources of funding for each program.*
- (c) The number of clients who received services during the preceding fiscal year.*
- (d) A description of the demographic characteristics of the client population served by each program, including age groups, gender and ethnicity.*
- (e) A description of client problems addressed by the programs, including the types of substances abused.*
- (f) A summary of the numbers and types of services available and provided during the preceding fiscal year.*
- (g) An evaluation of the results achieved by the programs.*

As a result of administrative simplification, the merger of AHCCCS and the Arizona Department of Health Services/Division of Behavioral Health Services (ADHS/DBHS) effective July 1, 2016, AHCCCS acquired responsibility for the Annual Report. AHCCCS reviewed the Reports previously prepared by DBHS and the legislative requirements for this Report, and have updated the methodologies and data sources utilized to better align with the legislative requirements. This 2018 Report reflects those changes. Utilization data used in this Report are for dates of service in State Fiscal Year (SFY) 2018 from July 1, 2017 through June 30, 2018, and were extracted in November 2018. Due to the short four month lag from the last date of service, data may be slightly understated.

In a Special Session of the Legislature, members of the Arizona House and Senate unanimously passed the Arizona Opioid Epidemic Act, which Governor Ducey signed into law on January 26, 2018. The introduction of the Arizona Opioid Epidemic Act followed a thorough effort to engage community stakeholders through approximately 50 meetings held throughout Arizona. Through the input received and conducting a review of national best practices of opioid-related policies, the Arizona Department of Health Services (ADHS) issued an Opioid Action Plan in September 2017, which included recommendations to reduce opioid misuse, promote safe prescribing and dispensing, and improve access to treatment.

The Arizona Opioid Epidemic Act included several key initiatives to combat the opioid epidemic in Arizona. Opioid Use Disorder (OUD) Treatment was enhanced by identifying gaps in and improving access to treatment, including for uninsured or underinsured Arizonans, with a \$10 million appropriation to AHCCCS through the legislation. Additionally, access was expanded to the overdose reversal drug Naloxone for law enforcement or corrections officers previously not

authorized to administer it. Pharmacists are now required to check the Controlled Substances Prescription Monitoring Program (CSPMP) prior to dispensing an opioid or benzodiazepine. The Opioid Epidemic Act limited the first-fill of an Opioid prescription to five days for all opioid naïve patients and limiting dosage levels to align with federal prescribing guidelines. These proposals contain important exemptions to protect chronic pain sufferers, cancer, trauma or burn patients, hospice or end-of-life patients, and those receiving Medication Assisted Treatment (MAT) for SUD.

The enactment of the Arizona Opioid Epidemic Act in 2018 followed several concentrated steps aimed at addressing the opioid epidemic in Arizona which occurred during 2016 and 2017. These included the Governor's Goal Council 3 Breakthrough Project: Reducing Opioid Deaths, and the Governor's emergency declaration to address the growing number of deaths in Arizona in June, 2017. This was followed by a publication from the ADHS of the Opioid Action Report, which can be accessed on the ADHS website: <http://www.azdhs.gov/prevention/womens-childrens-health/injury-prevention/opioid-prevention/index.php>.

On May 1, 2017, AHCCCS received an Opioid State Targeted Response (STR) grant from the Substance Abuse and Mental Health Services Administration (SAMHSA) for prevention and treatment activities in the amount of \$24.3 million over the course of two years. The objectives of the grant are to reduce the number of individuals with OUD and the number of opioid-related deaths. State partners include the Governor's Office of Youth, Faith and Family (GOYFF), ADHS, and the Department of Child Safety (DCS). Prevention activities include conducting Screening, Brief Intervention and Referral to Treatment (SBIRT) models; increased access to Naloxone for law enforcement; education and outreach to older adults; and implementation of community-based awareness and education activities. Treatment activities are centered around increasing access, participation and retention in MAT and recovery support services. Activities include 24/7 access to care sites for OUD treatment; increasing peer support networks; incarceration alternative projects; care coordination for individuals re-entering the community from correctional settings; and expanded options for residential services. More information on the grant can be found on the AHCCCS website: <https://www.azahcccs.gov/Resources/Grants/STR/>

Through the use of STR funding, Arizona has stood up five Centers of Excellence (CoE) in areas of high opioid use throughout the state; two of which include MAT CoE and three crisis centers. These facilities have expanded services and hours of operation in an effort to help individuals access treatment 24 hours a day, 7 days a week. The two MAT centers are the first in the country that can provide MAT induction using Methadone, Suboxone, and Vivitrol, in conjunction with psycho-social counseling and medical support 24/7.

The STR grant has made significant steps at improving the prevention and early intervention efforts throughout the state. The state's public universities, including Northern Arizona University, University of Arizona and Arizona State University, have implemented SBIRT trainings for staff campus wide. Campus staff have been trained to screen students for substance use, utilize Motivational Interviewing skills to increase students' motivation to receive treatment services, and have the ability to provide referrals for treatment services. Efforts also include the expansion of community based engagement and collaboration with substance use coalitions and local harm reduction organizations for community Naloxone distribution.

The Medication Assisted Treatment – Prescription Drug and Opioid Addiction (MAT-PDOA)_ grant has assisted in expanding education and training in rural locations throughout Arizona in an effort to display clinically effective prevention and treatment strategies to best serve those

impacted by the opioid epidemic. Seminars were held that covered topics including current state initiatives implemented to combat the rapidly emerging crisis. The seminars provided training for MAT providers, SUD treatment providers, physical health providers, harm reduction organizations, justice system partners and interested community members.

On September 19, 2018, Arizona received the State Opioid Response (SOR) grant in the amount of \$20.3 million per year for two years to assist in combatting this nationwide epidemic. The project approach includes developing and supporting state, regional, and local level collaborations and service enhancements to develop and implement best practices to comprehensively address the full continuum of care related to opioid misuse, abuse and dependency. The funding is geared towards implementing, expanding and sustaining services that support for the full continuum of care for an individual throughout their course of recovery. Additionally, SOR funding will be utilized to sustain the impactful programs that were developed through the STR grant. AHCCCS, as the Single State Agency for SUD Treatment, will administer the grant and work with other state agencies and sub-recipients to implement the following activities:

- Sustaining and enhancing community Naloxone distribution;
- Increasing localized community opioid prevention efforts;
- Stigma reduction and public awareness on the medical model of opioid dependency;
- Expansion of Trauma-Informed prevention, treatment and recovery efforts;
- Expanding navigation and access to MAT through 24/7 access points;
- Expanding access to recovery support services (supportive housing, peer supports, job assistance and supportive recovery programming);
- Increasing public access to real-time prevention, treatment and recovery resources through the “no-wrong door” model;
- Equipping law enforcement and first responders with Naloxone;
- Promoting prescriber education and a statewide chronic pain self-management campaign;
- Collaboration with law enforcement, corrections, first responders and Emergency Departments for diversion and targeted care coordination efforts in high impact sectors;
- Collaborating with justice partners to integrate pre and post booking programs for those involved with the criminal justice system; and
- Targeted focus on treatment and recovery services for pregnant women and parents with OUD.

Lastly, the activities in the SOR program will place a strong emphasis on comprehensive strategies to ensure a full continuum of care for this population. The objectives will be geared towards addressing prevention, treatment and recovery supports for individuals suffering from an opioid use disorder, focusing greater attention to integration efforts and working to deliver services that are clinically indicated as best practices. In addition, to better bolster these efforts,

the providers working within SOR were selected due to their person-centered approach and experience at addressing substance use, underlying and core issues, behavioral health disorders, trauma, family dynamics, lack of motivation and purpose, education or employment, life skills development, aftercare support and housing. Whether this occurs through a continuum of services from a single treatment provider or several providers, the cohesiveness within the SOR model will ensure the provision of appropriate clinical services and have greater impact to retain those in services.

Location of Substance Use Disorder Treatment Programs

The locations of the state’s SUD treatment programs are divided in three distinct geographic service areas (GSAs) throughout the state with oversight provided by three Integrated Managed Care Organizations (MCO)/Regional Behavioral Health Authorities (RBHA) and Tribal Regional Behavioral Health Authorities (TRBHA, which may serve more than one GSA).

RBHA and TRBHA	GSA
Health Choice Integrated Care	North
Mercy Maricopa Integrated Care	Central
Cenpatico Integrated Care	South
Navajo Nation	North
Pascua Yaqui Tribe	South
White Mountain Apache Tribe	North & South
Gila River Indian Community	Central & South

The RBHAs and TRBHAs are required to maintain a comprehensive network of behavioral health providers to deliver prevention, intervention, treatment and rehabilitative services to members enrolled in the AHCCCS system. This structure allows communities to provide services in a manner appropriate to meet the unique needs of members and families residing within their local areas. Appendix A lists the names and locations of providers throughout the state who had a Substance Use Treatment Program during SFY 2018. There were approximately 510 SUD programs in the State of Arizona, as summarized below.

RBHA and TRBHA	Number of Programs ¹
Health Choice Integrated Care	84
Mercy Maricopa Integrated Care	172
Cenpatico Integrated Care	126
Gila River Indian Community	25
Navajo Nation	99
Pascua Yaqui Tribe	51
White Mountain Apache Tribe	63

¹ More than 100 SUD programs serve more than one RBHA or TRBHA thus the data in the table will exceed 510 SUD programs.

Program Funding

During SFY 2018, AHCCCS expended over \$385 million in service funding for members and families with SUD. The single largest source of SUD treatment funding was Medicaid as reflected in Table I, followed by Federal Substance Abuse Block Grant (SABG) funds. Additional funding included State appropriated monies, other federal discretionary funds, funds from Maricopa County for local detoxification services, funds available through intergovernmental agreements (IGA) with the City of Phoenix, Substance Use Disorder Services funding (the appropriated monies included in the Arizona Opioid Epidemic Act), and liquor services fees.

**Table I: Substance Use Disorder Treatment Funding Summary
SFY 2018 - July 1, 2017 to June 30, 2018**

Fund Source ²	Dollar Amount	Percentage
Medicaid Funding (State Match and Title XIX)	\$341,674,687	88.67%
Federal: Substance Abuse Block Grant (SABG)	\$33,618,749	8.72%
Federal: Other (Discretionary Funds)	\$5,188,470	1.35%
State Appropriated	\$2,943,050	0.76%
Substance Use Disorder Services Fund	\$248,015	0.07%
Intergovernmental Agreements: Maricopa County; City of Phoenix Central City Addiction Recovery Center	\$1,589,871	0.41%
Liquor Fees	\$72,500	0.02%
Total Funding:	\$385,335,342	100.00%

Enrolled and Served Demographics

AHCCCS policy requires that members with behavioral health needs undergo a clinical assessment, administered by a clinician through a mental health or substance use treatment program. The information gathered during this assessment process includes several identifiable factors, such as race and ethnicity, gender, and reasons for seeking treatment. Members identified in this Report include those with a SUD who were enrolled in AHCCCS and received a service from a SUD program (Appendix A) during SFY 2018.

Tables II and III below detail the demographics of these members by GSA and provide statewide totals. In SFY 2018, there were 63,200 members enrolled in AHCCCS who received

² Funding in Table I represents payments to TRBHAs/RBHAs, with the exception of the Medicaid Funding data which includes substance use funding for all AHCCCS programs including RBHA, ALTCS/EPD, ACUTE, CRS and the American Indian Health Program. Funding includes administrative components and other amounts that will not be reflected in the provider level substance abuse utilization data in this report (Table VI). The State Appropriated line represents Crisis Services for individuals with a Substance Use Disorder which includes behavioral health services. Federal Discretionary funds include, but are not limited to, the STR grant and the MAT-PDOA grant.

at least one service from a SUD program. The Central GSA has the largest AHCCCS population in the state and, consistent with its overall AHCCCS membership, represents 50% of those receiving SUD treatment services.

**Table II: Members Served with a Substance Use Disorder by GSA
SFY 2018 - July 1, 2017 to June 30, 2018**

GSAs	Count	Percentage
North	9,017	14.3%
South	22,599	35.7%
Central	31,584	50.0%
Statewide	63,200	100.0%

**Table III: Demographics of Members Served with a Substance Use Disorder by GSA
SFY 2018 - July 1, 2017 to June 30, 2018**

Gender

The percentage of males versus females served is consistent between GSAs and statewide, with the SUD treatment population comprised of more men than women—59.1% versus 40.9%, respectively. This statistic remains consistent with the data reported for the prior year.

Gender ³	North		South		Central		Statewide	
	Count	Percentage	Count	Percentage	Count	Percentage	Count	Percentage
Male	5,169	57.3%	13,247	58.6%	18,926	59.9%	37,342	59.1%
Female	3,848	42.7%	9,352	41.4%	12,658	40.1%	25,858	40.9%
Totals	9,017	100.0%	22,599	100.0%	31,584	100.0%	63,200	100.0%

Race and Ethnicity

The majority (65%) of members who were enrolled and received a SUD treatment service in SFY 2018 were White. As the table illustrates, 4.8% of members enrolled and served were African American, 4.9% were American Indian, 1.4% were of multi-race backgrounds, 0.3% were Asian and 0.2% were Native Hawaiian/Pacific Islander. Statewide, 20.2% of members enrolled and served identified as Hispanic/Latino.

³ Data Source: AHCCCS enrollment data set.

Race/Ethnicity ⁴	North		South		Central		Statewide	
	Count	Percentage	Count	Percentage	Count	Percentage	Count	Percentage
American Indian	1,272	14.1%	956	4.2%	854	2.7%	3,082	4.9%
Asian	20	0.2%	74	0.3%	85	0.3%	179	0.3%
African American	92	1.0%	1,104	4.9%	1,838	5.8%	3,034	4.8%
Native Hawaiian/Pacific Islander	6	0.1%	47	0.2%	90	0.3%	143	0.2%
White	6,647	73.7%	17,818	78.8%	16,633	52.7%	41,098	65.0%
Multi-Racial	170	1.9%	481	2.1%	256	0.8%	907	1.4%
Data Unavailable	810	9.0%	2,119	9.4%	11,828	37.4%	14,757	23.3%
Totals	9,017	100.0%	22,599	100.0%	31,584	100.0%	63,200	100.0%
Hispanic	951	10.5%	7,263	32.1%	4,572	14.5%	12,786	20.2%

Age

An aggregate review of the data detailing members' age indicates the vast majority of members with a SUD and served in SFY 2018 were adults, with those between the ages of 25 and 44 accounting for more than half of all members (57.1%). Additionally, 26.7% of members enrolled and served were between the ages of 45 – 64. Approximately three percent of members were under the age of 18. This data is similar to the age distribution reported for SFY 2017.

Age Distribution ⁵	North		South		Central		Statewide	
	Count	Percentage	Count	Percentage	Count	Percentage	Count	Percentage
Birth – 4	2	0.0%	0	0.0%	4	0.0%	6	0.0%
5 – 11	3	0.0%	10	0.0%	17	0.1%	30	0.0%
12 – 14	32	0.4%	109	0.5%	134	0.4%	275	0.4%
15 – 17	232	2.6%	674	3.0%	781	2.5%	1,687	2.7%
18 – 20	309	3.4%	792	3.5%	975	3.1%	2,076	3.3%

⁴ Data Source: AHCCCS Behavioral Health Demographics & Outcomes data set (DUG data set). Not all members selected for this Report had BH Demographics data: there were also some members with BH Demographic data, but had no race/ethnicity available. AHCCCS is working on streamlining the data and data collection process to improve data submissions.

⁵ Data Source: AHCCCS Behavioral Health Demographics & Outcomes data set (DUG data set). Not all members selected for this Report have BH Demographics data available, AHCCCS have been working on streamlining the data and data collection process to improve data submissions.

Substance Use Disorders Addressed by the Programs

Opiates remained the most common substance used statewide by those in treatment in 2018 at 21.1%. Methamphetamines were the second most common substance used statewide by those in treatment in SFY 2018 at 19.1%, followed by alcohol at 18.2%, and marijuana at 17.1%. The least common substance reported was other sedatives/tranquilizers (0.2%).

Similar to the data reported for SFY 2017, the most common substance reported by GSA varied although opiates were the most common in the South and Central GSAs. While alcohol was the most prevalent substance used in the North GSA (29.2%), opiates was the most common in the South GSA (24.1%) and in the Central GSA (20%).

**Table IV: Substance Use Type by GSA
SFY 2018 - July 1, 2017 to June 30, 2018**

Substance Type ⁶	North		South		Central		Statewide	
	Count	Percentage	Count	Percentage	Count	Percentage	Count	Percentage
Opiates	2,484	17.9%	7,385	24.1%	7,686	20.0%	17,555	21.1%
Alcohol	4,068	29.2%	5,934	19.4%	5,108	13.3%	15,110	18.2%

Null/Missing	788	5.7%	2,055	6.7%	11,425	29.7%	14,268	17.2%
Total	13,929	100.0%	30,550	100.0%	38,419	100.0%	82,898	100.0%

Summary of Services

AHCCCS maintains a comprehensive service delivery network providing primary prevention, treatment and rehabilitation programs to children and adolescents with Serious Emotional Disturbances (SED) and/or Substance Use Disorders (SUD), as well as adults with General Mental Health disorders (GMH) and/or SUD, and adults determined to have a Serious Mental Illness (SMI).

With respect to SUD treatment, AHCCCS works diligently with Contractors and TRBHAs to ensure the service delivery network presents individuals with a choice of multiple, highly-

⁶ Data Source: Data Source: AHCCCS Behavioral Health Demographics & Outcomes data set (DUG data set). Not all members selected for this report had BH Demographics data and there were also members with a BH Demographic, but had no substance use type available. AHCCCS is working on streamlining the data and data collection process to improve data submissions.

qualified providers, each offering varying levels of care spanning multiple treatment modalities.

Services can primarily be grouped into eight major categories: Inpatient, Support, Medical/Pharmacy, Residential Services, Treatment, Crisis, Behavioral Health Day Programs, and Rehabilitation. Table V (below) details the array of SUD services offered.

**Table V: Services Available to Members
SFY 2018 - July 1, 2017 to June 30, 2018**

Service Category ⁷	Description
Inpatient Services	Inpatient detoxification and treatment services delivered in hospitals and sub-acute facilities, including Level I residential treatment centers that provide 24-hour supervision, an intensive treatment program, and on-site medical services.
Support Services	Case management, self-help/peer support services and transportation.
Medical and Pharmacy	Medications and medical procedures which relieve symptoms of addiction and/or promote or enhance recovery from addiction.
Residential Services	Residential treatment with 24-hour supervision
Behavioral Health Day Programs	Skills training and ongoing support to improve the individual's ability to function within the community. Specialized outpatient substance abuse programs provided to a person, group of persons and/or families in a variety of settings.
Treatment Services	Individual and group counseling, therapy, assessment, evaluation, screening, and other professional services.
Crisis Intervention	Stabilization services provided in the community, hospitals and residential treatment facilities.
Rehabilitation Services	Living skills training, cognitive rehabilitation, health promotion, and ongoing support to maintain employment.

The services listed in Table V are available to all AHCCCS members and are delivered based on need per each member's individualized treatment plan.

As indicated in Table VI (below), on a statewide basis Pharmacy Services were utilized at the highest percentage (27.8%), followed by Inpatient Services (21.4%), whereas Behavioral Health Day Program services were used the least (0.1%). Utilization by service category was consistent across GSAs. Table VI shows utilization of these service categories via the number of claims, and amounts paid to providers, for AHCCCS members served with a SUD. It should be noted that the data in Table VI represents all services included in Table V provided to members with a SUD diagnosis who received at least one paid service from any of the providers in Appendix A.

⁷ The Service Category Medical and Pharmacy is shown in two rows in Table VI to differentiate the expenditures for the Medical Services compared to the Pharmacy amounts. The Service Category Outpatient Services (UB92) is listed as an additional row in Table VI to represent the Outpatient Hospital Services expenditures.

**Table VI: Utilization by Service Category (Based on Number of Claims and Paid Amount)
SFY 2018 - July 1, 2017 to June 30, 2018 ⁸**

Service Category	North		South		Central		Statewide	
	Count	Paid Amount	Count	Paid Amount	Count	Paid Amount	Count	Paid Amount
Treatment Services	47,171	\$3,100,280	159,129	\$11,831,739	323,040	\$18,196,398	529,340	\$33,128,418

Totals	541,748	\$74,848,206	1,328,822	\$106,286,805	2,246,468	\$204,653,071	4,117,038	\$385,788,082

Summary of Medication Assisted Treatment Services

AHCCCS maintains a comprehensive network of MAT providers throughout the state. These treatment providers use a combination of counseling and ancillary support services with medications for the treatment of OUD. The medications used for OUD treatment are in the form of Methadone, Buprenorphine (Suboxone and/or Subutex) and Naltrexone. AHCCCS maintains a minimum list of medications to ensure the availability of necessary, safe and cost effective medications for persons with behavioral health disorders.

Through AHCCCS' response to the opioid epidemic, efforts have been focused toward enhancing the state's multi-sector strategic plan to address the gaps in prevention, treatment and recovery support. These specific initiatives include; increasing access to OUD treatment, expanding access to MAT, increase public awareness through stigma reduction and education, enlisting new MAT providers, ensuring 24/7 access to care points, increasing access to peer support services and increasing recovery support options.

⁸ Data Source: AHCCCS Encounter and Claims Data. The data methodology has been improved to more accurately reflect the utilization of SUD services and is not comparable to previous reports. The previous methodology reported all claims for individuals receiving SUD services including claims for physical health services not directly related to SUD diagnoses. The current methodology excludes claims for physical health services not directly related to SUD diagnoses and thus reflects fewer claims and lower payments than prior years.

A key component of the Arizona strategy for preventing overdose deaths from opioids is through increasing community-based access to Naloxone, the overdose reversal medication. AHCCCS continues to partner with contracted network providers and first responders to enhance statewide Naloxone distribution and accessibility. AHCCCS has developed policies and contract language for RBHAs and their network providers so they may implement a direct service, community Naloxone distribution network in order to meet the needs of the population. Providers are focusing specifically on the most vulnerable populations for opioid overdose, which include those living in poverty, transitioning out of the criminal justice system, and those with perceived barriers to obtaining a prescription for the medication. From January 1, 2017 through October 15, 2018, AHCCCS grant funding enabled local entities to distribute 184,747 doses of Naloxone throughout Arizona.⁹

Additionally, providers contracted within the network must develop Naloxone training modules for prescribers, pharmacists, and members in addition to disseminating statewide in-person community-based trainings. Priority is given to geographic areas identified through epidemiological data as high needs areas.

**Table VII: MAT Medication Utilization
SFY 2018 - July 1, 2017 to June 30, 2018**

⁹ With State Targeted Response to the Opioid Crisis (Opioid STR) funding, Arizona Department of Health Services has distributed 29,717 Naloxone doses dispensed in Arizona; With Arizona's Substance Abuse Block Grant (SABG) funding, Sonoran Prevention Works has distributed 155,030 doses throughout Arizona.

¹⁰ Data Source: AHCCCS Claims & Encounter data.

Treatment Outcomes

AHCCCS employs a variety of mechanisms to measure the effectiveness of treatment, including assessing the change in numerous functional outcome indicators for members receiving behavioral health services. SAMHSA has established a set of National Outcome Measures (NOMs) to capture an individual’s improvement in the areas of employment, educational participation, abstinence from alcohol or other drugs, criminal activity and homelessness.

Table IX (below) delineates the percentages at admission and discharge, and corresponding change, in each of the outcome domains for those receiving treatment for a SUD. For example, the number of members reducing or abstaining from alcohol at discharge from treatment programs in State Fiscal Year 2018 was 28.0% greater in relation to those abstaining from alcohol at the time of admission to the program.

Participation in self-help programs at discharge was 56.5% greater than at admission. Although this was a significant increase, only a small number of members were participating in self-help programs at the time of admission, resulting in this relative change.

The Table illustrates a negative 7.8% change for individuals having recent involvement with the Criminal Justice System at discharge compared to the time of admission, indicating a reduction in recidivism throughout treatment. Through the TRBHAs and RBHAs, AHCCCS continues its efforts to provide behavioral health services, housing and employment supports to members to improve their stability in the community and positively impact recidivism. In addition, AHCCCS mandated “Reach-In” activities are conducted for individuals prior to release for the purpose of care coordination and timely access to services after release.

Table IX: Treatment Outcomes
SFY 2018 - July 1, 2017 to June 30, 2018

Outcomes ¹¹	How has participating in the behavioral health system impacted the lives of our members?		
	Percentage at Admission	Percentage at Discharge	Percentage Change
Members with Substance Use:			
No Alcohol Use	28.9%	37.0%	+28.0%
No (Other) Drug Use	25.7%	33.1%	+28.8%
Participate in Self-Help Programs During Treatment	2.3%	3.6%	+56.5%
Are Not Homeless	90.0%	90.6%	+0.1%
Are Competitively Employed Full or Part-Time	24.3%	27.1%	+11.5%
Recent Involvement with the Criminal Justice System	11.1%	10.3%	-7.8%

Summary

AHCCCS continues to implement strategies to maximize the benefit to Arizonans who need treatment for SUD. These efforts have been conducted in partnership with other state agencies, Contractors, providers and stakeholders committed to assisting those seeking assistance in improving their quality of life and success in the community. The comprehensive array of services provided through the funding described in this Report provide opportunity for each member in need of SUD services to be provided with treatment through the use of evidence based practices and individualized treatment planning. Services are available statewide tailored to be clinically and culturally appropriate for all age groups, genders, races, ethnic backgrounds and other areas of diversity.

Moving forward into 2019, AHCCCS is broadening the scope of available services through the integration of the GMH/SUD services through the AHCCCS Complete Care Plans (fully integrated Plans addressing members' physical and behavioral health needs) in addition to the RBHAs and TRBHAs. A holistic approach to treating individuals' SUD needs as well as addressing any co-occurring behavioral or physical health concerns will provide the best potential outcomes and cost savings to Arizonans. AHCCCS is enhancing its focus on Social Determinants of Health (SDoH), and is encouraging access to related resources that support recovery which have shown promise nationally and are foundational in addressing SUD.

The availability of Naloxone and expanded access to MAT has been successful in 2018 and will serve as the foundation in addressing the opioid epidemic going forward in 2019. AHCCCS is committed to serving as a leader in the state and country in reducing stigma associated with SUD, reversing the trend of overdose deaths and utilizing funding in the most cost-effective manner possible to support recovery.
