

Adult* AHCCCS Eligibility

1931 are families with children who, before Prop 204, had income under the AFDC limit in effect on July 1, 1996, which is 36% of the 1992 FPL or approximately 23% of the current FPL. Potentially 11,000 children will lose coverage under this category if rolled back.

AHCCCS Care are individuals who do not qualify for any other coverage and have income at or below 100% of the FPL. These individuals were not covered under Medicaid prior to Prop 204.

MED are individuals who do not qualify for any other coverage and have income at or below 40% of the FPL, after deducting allowable medical expenses. These individuals were not covered under Medicaid prior to Prop 204. Potentially 700 children will lose coverage under this category if rolled back.

SSI are aged, blind, or disabled individuals who, prior to Prop 204, had income at or below 100% of the Federal Benefit Rate (FBR), which is approximately 75% of the FPL. Potentially 2 children will lose coverage under this category if rolled back.

TMA are adults that have lost 1931 coverage due to increased wages. For the first 6 months of TMA coverage there is no income limit. During the second & final 6 months of TMA coverage household income must be less than 185% FPL.

*Adults are individuals age 18 and older.
