Please note the following. Any questions please let us know. Thanks!

The following SSR's (updates to AHCCCS Systems) will be promoted on 7/18/19:

- ACMS Add Upload Feature - This allows the upload of supporting documentation to the Access to Medicaid Services (ACMS) website.
- Add CRS to EPD and Tribal Program Contractors - This allows a member that is CRS and enrolled in a EPD or Tribal Program Contractor to have their CRS designation reflected in PMMIS, AHCCCS Online and on 834's.
- SMI Indicator on State Only Input Processor - This incorporates the member's SMI behavioral health category to the State Only input process instead of being a stand alone process.
- STO BH FYI on FES and MCS - This automates putting a State Only behavioral health segment on FES or MCS members.
- Display Adj SOC on AHCCCS Online - This changes internal processing of Share of Cost records to ensure that the appropriate Share of Cost records are displayed on AHCCCS Online.
