RE: Arizona Section 1115 Medicaid Demonstration Technical Corrections - Approval Letter and STCs

Dear Ms. Smyth,

This letter serves as the State of Arizona's formal acceptance of technical corrections to the Arizona section 1115 Medicaid Demonstration, entitled, "Arizona Health Care Cost Containment System" (AHCCCS) (Project No. 11-W-00275/9), as set forth in CMS' approval letter dated September 13, 2019.

The issued approval letter accepts the following technical corrections, in accordance with Arizona's request:

- Simplified language in Waiver Authority #1, Section II Program Overview, and Historical Context and Special Terms and Conditions (STCs) 26, 29(g), 46, and, 72(c).
- Updated STCs 18 and 41 to detail Arizona Acute Care Program (AACP) beneficiaries receive behavioral and physical health care through a single AHCCCS Complete Care (ACC) Plan.
- Updated STCs 27 and 43 to reflect that Children Rehabilitative Services (CSR) beneficiaries receive behavioral and physical health care through a single ACC Plan.
- Updated STC 42 to reflect how beneficiaries under the Arizona Long Term Care System (ALTCS) receive physical, behavioral, and long term care services.
- Updated STC 61, 68, and 69 Table 8 to reflect accurate measures and targets language for the Targeted Investments Program.

We sincerely appreciate the continued support we have received from the CMS staff during the course of this demonstration. If you have any questions, please contact Shreya Prakash (Shreya.prakash@azahcccs.gov) and Mohamed Arif (Mohamed.Arif@azahcccs.gov).

Sincerely,

Jami Snyder
Director
