Immunizations Part 2

6/13/18

VFC and ASIIS

Provider Responsibility

Urgent Reminder

- Health plans need to remind their VFC providers that re-enrollment **must be completed no later than June 30**
- Any questions should be addressed to ADHS and the VFC Office

ADHS Re-Enrollment Assistance

Do you know that the 2018 VFC re-enrollment period ends on June 30, 2018?

ACT NOW to avoid inactivation, vaccine delivery delays and possible re-assignment of your sites AHCCCS panel.

For assistance re-enrolling please contact our office at:

Arizona Immunization Program Office

150 N. 18th Avenue, Suite 120
Phoenix, AZ 85007
Phone: 602-364-3642
Fax: 602-364-3276

Reaching across Arizona to provide comprehensive quality health care for those in need

VFC Re-Enrollment

- Currently:
 - There are 28 pending applications
 - 40 applications have been returned for additional documentation
 - Health plans should remind providers to re-enroll or lose their panel of members
 - Health plan representatives doing site visits are strongly encouraged to attend one of the AIPO sessions

AIPO Training Schedule

AIPO Train

Arizona Immunization Program Office

Keeping on track with ASIIS and Vaccine Storage and Handling

Dates and Locations:

June 20, 2018 (closed)	Phoenix	(Maricopa)
August 1, 2018 (added)	Phoenix	(Maricopa)
August 22, 2018	Show Low	(Navajo)
September 19, 2018	Kingman	(Mohave)
October 24, 2018	Sierra Vista	(Cochise)
November 14, 2018	Yuma	(Yuma)
December 5, 2018	Tucson	(Pima)

*Future dates and location to come in 2019

Session Times:
8:30am to 12:30pm

Register:
<https://asiishelpdesk.wixsite.com/aipotrain>

Details:
FREE EVENT
Lunch will not be provided.
Space is limited. First come, first served!
Registration will open six weeks before scheduled date. Registered guests will receive a reminder email a week before the event.

Guide for Birth to 15 Months

Arizona Immunization Program Office- (602) 364-3630

June 2017

Child Care and Preschool

ADHS

Arizona State Immunization Requirements: Birth to 5 Years of Age - Child Care and Preschool

Because children who attend child care are at greater risk of exposure to illness, Arizona state law requires that some immunizations be completed at the beginning of the age range listed on the recommended immunization schedule found at <http://www.cdc.gov/vaccines/schedules/index.html>. Exceptions, minimum intervals and a "catch up" schedule are on the back of this handout. Updates to these requirements will be posted at <http://www.azdhs.gov/phs/immun/back2school.htm>.

Required at: Birth	Hep B #1 Note: Hep B #1 is the only shot babies under 2 months must have for child care.			
Required at: 2 months	DTaP #1	Polio #1	Hib #1	Hep B #1 (if not obtained at birth)
Required at: 4 months	DTaP #2	Polio #2	Hib #2	Hep B #2
Required at: 6 months	DTaP #3	Hib #3 If Pedvax Hib is used, the 3rd dose of Hib is not due until 12-15 months of age.		
Required at: 12 months	Polio #3	Hep B #3 If Hep B #3 was given before 24 weeks of age, a 4th dose is needed.	MMR #1 Note: MMR and Varicella must be given on the same day or at least 28 days apart.	Varicella #1 (Chickenpox Vaccine) Note: MMR and Varicella must be given on the same day or at least 28 days apart.
Required at: 15 months	DTaP #4	Hib #4 (Booster) Hib #4 is not needed if Hib #3 is given at/after 12 months of age. A Hib dose at/after 12 months is required for all children under 5 years. One Hib dose given at/after 15 months of age meets the Hib requirement regardless of the total number of Hib doses received.		
Summary of vaccines required for all children: 15 months – Pre-kindergarten	All of these doses are required as of 15 months of age and older: 4 DTaP, 3 Polio, 1 MMR, 1 Varicella, 3 Hep B and 3-4 Hib (with 3 rd or 4 th dose on/after 1st birthday) or 1 Hib dose given at/after 15 months. (2 doses of Hepatitis A are required for children 1-5 years old in Maricopa County only)			
Kindergarten Entry	At kindergarten entry must have: 5 DTaP*, 4 Polio*, 2 MMR, 1 Varicella & 3 Hep B *Children who received DTaP #4 and/or Polio #3 on/after the 4th birthday do not need additional doses to enter kindergarten. (Hepatitis A and Hib are not required for kindergarten)			

Arizona Department of Health Services, Immunization Program Office
602-364-3630 or 866-222-2329

Revised July 2017

Child Care and Preschool

Exceptions and Conditions to the Rules

Parents whose religious beliefs do not allow immunization must sign a religious exemption form. A medical exemption form must be signed by the child's physician or nurse practitioner if there is lab evidence of immunity or a medical reason why the child cannot receive a particular vaccine(s). A copy of the lab results should be attached to the medical exemption form and kept on file with the immunization record to prove the child's immunity.

- A child who is missing vaccines required for his age can start child care but must get a dose of each vaccine due within 15 days of enrollment and bring a copy of the immunization record completed by the clinic to the child care setting. After 15 days, the child may not attend child care without documentation that the child has received the required vaccinations or has a valid medical or religious exemption.

- CATCH UP SCHEDULE for children missing immunizations:

DtaP: The 2nd dose is due 1 month after the 1st dose; the 3rd dose is due 1 month after the 2nd dose; the 4th dose is due 6 months after the 3rd dose.

Polio: The 2nd dose is due 1 month after the 1st dose; the 3rd dose is due 1 month after the 2nd dose. If the child is 4+ years of age, the 3rd Polio may qualify as the child's final dose and a 6 month space is needed between the last two Polio doses.

Hep B: The 2nd dose is due 1 month after the 1st dose; the 3rd dose is due 2 months after the 2nd dose; however, there must be at least 16 weeks (4 months) between dose 1 and dose 3. If Hep B #3 was given before 24 weeks of age, a 4th dose is needed.

Hib: If child is less than 1 year, doses are given 2 months apart. If child is at least 15 months old and less than 5 years, a single dose is needed to catch up.

MMR: The 1st dose is required at 12 months of age. A 2nd dose is required for kindergarten entry.

Varicella: The 1st dose is required at 12 months of age. Children must have proof of immunization, or a valid exemption for medical reasons, lab evidence of immunity or religious beliefs. As most children now enrolling/attending child care, preschool or Head Start were born 9/1/11 or after, parental recall of chickenpox disease is no longer acceptable as proof of immunity.

Hep A: Maricopa County Only Children 1 through 5 years of age are required to obtain dose #1 within 15 days of enrollment in child care, preschool or Head Start. Dose #2 is due 6 months after dose #1.

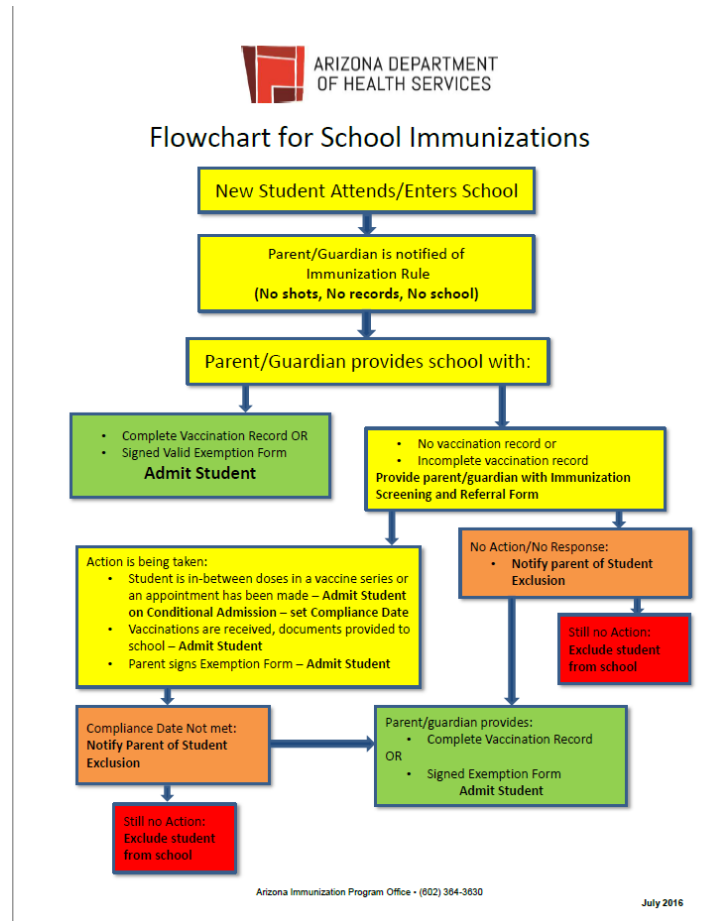

Important note: MMR and Varicella may be given on the same day. If they are not given on the same day, they must be separated by at least 28 days.

- Children who are missing required shots must stay on the above "catch up" schedule to attend child care. A 15-day notice must be given to parents whose children fall behind. If they do not provide proof of shots after 15 days, the child must be excluded from care until proof is given.
- What proof of immunization is needed? Copies of an Arizona Lifetime Immunization Record, shot records signed or stamped by the healthcare provider, and/or records from the Arizona State Immunization Information System (ASIS) are acceptable forms of records and must be kept on file at the child care facility.

Arizona Department of Health Services, Immunization Program Office
602-364-3630 or 866-222-2329

Revised July 2017

Work Flow for School Immunizations

School Referral Form

Immunization Screening and Referral Form for School K-12th Grade

Our records show that your child has not received all immunizations required for school attendance by Arizona State Law (Arizona Revised Statutes §15-872). The immunization doses required now are circled or highlighted.

ADHS Student Name: _____ Date of Birth: _____

School Name: _____ Date of Notice: _____

Contact Person at School: _____ Phone Number of School: _____

In accordance with Arizona State Law, students must have proof of all required immunizations, or a valid exemption, in order to attend school. Lack of proper documentation may result in your child being excluded from school until such documentation is provided to your school health office. Your child's immunization record with the below missing immunization(s) or a valid exemption form must be submitted.

By this Date _____

- If your child has already received the necessary immunization(s), bring his or her immunization record to the school. The record must show the child's name, date of birth, the date that all doses were received, and the name of the physician or health agency who administered the vaccine.
- If your child has not received the necessary immunizations, take your child's immunization record and this form to your physician, local health department, or other vaccine provider to get required immunization(s) and/or records. Then bring this form and the updated record back to school.

School Staff: Please Circle or Highlight the Missing Required Dose(s) for the Corresponding Required Vaccine(s).

School Required Vaccine	Dose Missing					
DTaP/DTp/DT (Diphtheria, Tetanus, Pertussis)	1	2	3	4	5*	6*
Td (Tetanus, Diphtheria)	1	2	3*	4*		
Tdap (Tetanus, Diphtheria, Pertussis)	1					
IPV (Polio)	1	2	3	4*		
MMR (Measles, Mumps, Rubella)	1	2	3*			
Hepatitis B	1	2	3	4*		
Varicella (Chickenpox)***	1	2				
Meningococcal	1	2*				
CDC Recommended Vaccine**		Dose Missing				
Hepatitis A	1	2				
HPV (Human Papillomavirus)	1	2	3			
Seasonal Influenza (Flu)	1					

- * Indicates that a second dose is highly recommended by the CDC but not required.
- ** CDC: Center for Disease Control and Prevention → through the Advisory Committee on Immunization Practices (ACIP) recommends routine vaccinations to prevent vaccine-preventable diseases. While most vaccinations are required by the State of Arizona for school entry, there are other recommended immunizations your child may need.
- *** Students attending school in Arizona prior to 9/1/2011 with parental recall of chickenpox disease are allowed to continue attendance with recall. Students enrolling in school in Arizona for the first time after 9/1/2011 must present proof of varicella immunization or a valid exemption for medical reasons, laboratory evidence of immunity or personal belief. Parental recall of disease will not be accepted. A second dose is not required unless the first is given at 13 years or older.
- * Exemptions exist for these particular doses- see the Arizona school immunizations requirements for details and guidance: <http://www.azdhs.gov/phs/immun/bsck2school.htm>

K – 12 Requirements

Arizona School Immunization Requirements: Kindergarten - 12th Grade

- > Students must have proof of all required immunizations, or a valid exemption, in order to attend school. Arizona law allows exemptions for medical reasons, lab evidence of immunity, and personal beliefs. Exemption forms are available from schools and at <http://www.azdhs.gov/phs/immun/back2school.htm>.
- > Homeless students are allowed a 5-day grace period to submit proof of immunization records.
- > The immunization record for each vaccine dose must include the complete date and the doctor or clinic name.
- > The statutes and rules governing school immunization requirements are:
 - Arizona Revised Statutes §15-871-874, and Arizona Administrative Code, R9-6-701-708

Please check requirements for each child's age and grade level in the chart below.

Age→	Under age 7	7 – 10 years	11 years and older
Grade→	Kindergarten/1 st /2 nd	2 nd through 5 th grade	6 th through 12 th grade
Vaccine↓			
DTaP (Proof of DTP or DT counts toward DTaP requirement)	4-5* doses At least 1 dose at 4 years of age or older is required. *A 6th dose is required if 5 doses have been given before 4 years of age.	3 DTaP and/or Td doses are required if all doses were given <u>after</u> 12 months of age. Or 4 DTaP and/or Td doses are required if any of the doses were received <u>before</u> 12 months of age.	1 Tdap dose is required for students <u>11 years and older</u> . Students who completed the primary series of tetanus/diphtheria doses must receive a Tdap when 5 years have passed since the student's last tetanus/diphtheria dose.
Td		Tdap may be counted to meet the requirements above. Tdap is <u>not required</u> for 11 year olds until they enter 6 th grade.	Students who did not complete the primary series of tetanus/diphtheria doses before age 11 are required to receive a total of 3 doses, including 1 Tdap and 2 Td doses.
Tdap			Tdap doses given prior to age 11 meet the requirement. A Td booster is required 10 years after the Tdap dose.
Meningococcal		<u>Not required</u> but may be counted as valid when given at this age.	1 dose is required.
Polio	3-4 doses 4 doses meet the requirement. 3 doses meet requirements if dose #3 was given at 4+ years of age. (Not required for students 18+ years of age.)		
MMR	2 doses A 3 rd dose will be required if dose #1 was given before more than 4 days before the 1 st birthday.		
Hepatitis B	3 doses A 4 th dose will be required if the third dose was given before 24 weeks of age.		
Varicella	1 dose is required if the 1 st dose was given before 13 years of age. 2 doses are required if the 1 st dose was given at 13 years of age or later. Students attending school or preschool in Arizona prior to 9/1/2011 with parental recall of chickenpox disease are allowed to continue attendance with parental recall of disease. Students enrolling for the first time after 09/01/2011 are required to present proof of varicella immunization or a valid exemption for medical reasons, laboratory evidence of immunity or personal beliefs. Parental recall of disease will not be accepted.		

Note: ADHS observes a 4-day grace period for vaccine ages and intervals, except for the space between two live vaccines such as Varicella and MMR, which must be given at least 28 days apart if they are not administered on the same day.

VFC Eligibility

- Children birth through 18 years of age who meet at least one of the following criteria on the day the vaccine is administered are eligible to receive VFC vaccine:
- Medicaid eligible: In Arizona, children whose health insurance is covered by the Arizona Health Care Cost Containment System (AHCCCS)
- Un-insured: A child who has no health insurance coverage
- American Indian or Alaska Native: As defined by the Indian Health Services Act
- Underinsured*:
 - A child who has commercial (private) health insurance but the coverage does not include vaccines,
 - A child whose insurance covers only selected vaccines (VFC-eligible for non-covered vaccines only),
 - A child whose insurance caps vaccine coverage at a certain amount. Once that coverage amount is reached, the child is categorized as underinsured and is eligible to receive VFC vaccines.

VFC Eligibility

- As of July 1, 2013, Federally Qualified Health Centers (FQHC), Rural Health Centers (RHC), County Health Departments and approved deputized providers are allowed to serve the VFC eligibility category of underinsured. All other providers will only be allowed to serve the VFC eligibility categories of Medicaid, un-insured, and American Indian/Alaskan Native. There are also no changes to providers ability to serve KidsCare children.

AHCCCS Requirements

- In the **Provider Agreement** it states, as a covenant to abide by the terms of;
- 2. All AHCCCS guidelines, policies and manuals, including but not limited to the following: AHCCCS Medical Policy Manual, AHCCCS Fee-For-Service Manual, AHCCCS Claims Clues, and Reporting Guides are hereby incorporated by reference into this agreement. Guidelines, policies and manuals are available on the AHCCCS website. For VFC claims incurred prior to 1/1/2013, providers must bill the appropriate CPT code for the immunization with the "SL" (State supplied vaccine) modifier that identifies the immunization as part of the VFC program. Providers must *not* use the immunization administration CPT codes 90471, 90472, 90473, and 90474 when billing under the VFC program. Because the vaccine is made available to providers free of charge, providers must not bill for the vaccine.

AHCCCS Requirements

- In both the **Acute and CRS Contract, page 72, #14**, it states:
- Through the Vaccines for Children (VFC) program, the Federal and State governments purchase, and make available to providers at no cost, vaccines for AHCCCS children under age 19. The Contractor shall not utilize AHCCCS funding to purchase vaccines for members under the age of 19. If vaccines are not available through the VFC program, the Contractor shall contact the AHCCCS Division of Health Care Management, Clinical Quality Management for guidance. Any provider licensed by the State to administer immunizations, may register with Arizona Department of Health Services (ADHS) as a VFC provider to receive these free vaccines. The Contractor shall not reimburse providers for the administration of the vaccines in excess of the maximum allowable as set by CMS. The Contractor shall comply with all VFC requirements and monitor contracted providers to ensure that providers are registered as VFC providers when acting as Primary Care Providers (PCP) for members under the age of 19 years.
- Due to low numbers of children in their panels providers in certain Geographic Service Areas may choose not to provide vaccinations. Whenever possible, members shall be assigned to VFC registered providers within the same or a nearby community. When that is not possible, the Contractor shall develop processes to ensure vaccinations are available through a VFC enrolled provider or through the appropriate County Health Department. In all instances, the vaccines are to be provided through the VFC program. The Contractor shall develop processes to pay the administration fee to whoever administers the vaccine regardless of their Contract status with the Contractor.

AHCCCS Requirements

- In the **Fee-For-Service Manual, page 11**, it states:
- Providers must be registered as Vaccines for Children (VFC) Program providers and VFC vaccines must be used. Under the federal VFC program, providers are paid a capped fee for administration of vaccines to members 18 years old and younger.

AHCCCS Requirements

- **In AMPM 430 B 6** (under Provider Requirements) it states:
- Appropriate immunizations according to age and health history (administration of the immunizations may be billed in addition to the EPSDT visit using the CPT-4 code appropriate for the immunization with an SL modifier). Combination vaccines are paid as one vaccine. Providers must be registered as Vaccines for Children (VFC) providers and VFC vaccines must be used.

AHCCCS Requirements

- **In AMPM 430 C 1** (under Contractor Requirements) it states:
- AHCCCS will cover the human papilloma virus (HPV) vaccine for female and male EPSDT members age 11 to 21 years of age. AHCCCS will cover members nine and ten years of age, if the member is deemed to be in a high-risk situation. For adult immunizations, refer to AMPM Policy 310-M, *Immunizations*. Providers must coordinate with the Arizona Department of Health Services (ADHS) Vaccines for Children (VFC) program in the delivery of immunization services. Immunizations must be provided according to the Advisory Committee on Immunization Practices Recommended Schedule. (Refer to the CDC website at
- <http://www.cdc.gov/vaccines/schedules/index.html> where this information is included). Contractors must ensure providers enroll and re-enroll annually with the VFC program, in accordance with AHCCCS Contract requirements. The Contractor shall not utilize AHCCCS funding to purchase vaccines covered through the VFC program for members younger than 19 years of age.

VFC Operations Guide and Resources

- <https://www.azdhs.gov/preparedness/epidemiology-disease-control/immunization/index.php#vaccines-children-guide>

ASIIS

- The [Arizona State Immunization Information System \(ASIIS\)](#) is an immunization registry designed to capture immunization data on individuals within the state. Providers are mandated under [Arizona Revised Statute \(ARS\) §36-135](#) to report all immunizations administered to children 18 years of age and younger to the state's health department. The registry serves as a receptacle for accommodating these reported data. In this capacity, the registry then provides a valuable tool for the management and reporting of immunization information to public health professionals, private and public healthcare providers, parents, guardians and other child care personnel.

ASIIS

- **Goals and Objectives**

- To capture 100% of the vaccinations provided to children within the State.
- To promote efforts to ensure that 95% of all children within the state who are under six years of age are participating in the registry and have at least one immunization event on record.
- To provide all registered ASIIS providers with access to data stored in the registry, thus allowing them to query the registry for current and historical patient immunization records.
- To maintain the confidentiality of all patient information received in the registry.
- To ensure that healthcare professionals administering immunizations are reporting to the ASIIS registry in a regular and timely manner.
- To maintain the security of patient information stored in the registry.
- To provide a means for improved monitoring of immunization levels.

ASIIS

- Through the use of the ASIIS application or any of the registry's electronic tools and features, a provider can find a comprehensive way to manage immunization data: For example, it allows:
- Access to consolidated immunizations records for children.
- Forecasting of immunization doses needed by an individual, based on the CDC approved schedule as indicated by the [Arizona Recommended Childhood Immunization Schedule](#).
- Production of an official Immunization Record for patients to be used by schools or daycare centers.
- Inventory tracking and management of vaccine supplies.
- Generation of immunization reports such as the Vaccines For Children (VFC) report and a list of children who need to be reminded or recalled.
- Ability to interface with various patient management or billing systems.
- Introduction of new vaccines or changes in the vaccine schedule. Generation of coverage reports for managed care (e.g., HEDIS) and other organizations.

ASIIS

- Families benefit by:
 - Protection from childhood diseases.
 - Reduction in duplicate/unnecessary immunizations.
 - Increased chance of a Healthy lifestyle for children.
 - Access to one consolidated record of all immunizations a child has received.
 - Creation of an accurate, official copy of a child's immunization history for personal use, day care, school, or camp entry requirements.
 - Confirmation when a child's immunizations is up to date.
 - Creation of reminder notices when an immunization is due.
 - Creation of recall notices when immunizations have been missed.
 - Timely immunization for children whose families move or switch health-care providers.

ASIIS

- It benefits the community by:
- Helping to reduce the risk of vaccine-preventable diseases.
- Helping to identify high-risk and under-immunized populations.
- Helping to prevent disease outbreaks.
- Providing a link (where supported by legislation) with other health databases.
- Providing information on community and state coverage rates.
- Streamlining vaccine management.
- Facilitating schools' efforts to assess student compliance with immunization requirements.

**Parents whose religious beliefs do not allow immunizations
MUST sign a religious exemption which MUST be kept in the
child's immunization record.**

True

False

A medical exemption form MUST be signed by the child's PCP or NP if there is laboratory evidence of immunity or a medical reason why the child cannot receive a particular vaccine.

True

False

What proof of immunization is needed to align with state regulations?

Records from ASIIS

A copy of the Arizona Lifetime
Immunization Record

Shot records stamped or signed
by the healthcare provider

All of the above

A child who is missing vaccines required for her age may start child care but must receive a does of each vaccine within how many days of enrollment or cannot attend child care without the proper documentation?

10 days

15 days

30 days

One week

In Arizona, is the reporting of immunizations mandatory?

Yes

Only
sometimes

No

Which of the following are possible reasons for the increase in pertussis?

 When poll is active, respond at **PollEv.com/erictack956**

 Text **ERICTACK956** to **22333** once to join

Waning immunity of
DTaP

Increased recognition
of disease

Increased and
improved testing

Increased reporting

All of the above

Answer

- The correct answer is "A"
- Yes, as stated in the [ARS § 36-135](#) and [AAC R9-6-706 & 707](#), reporting of immunization administered to children within the state is mandatory. The reporting of all such data on children 18 years of age and under is the only way to assure that the state's central database has the complete record of every child. With complete reporting, providers will no longer have to reconstruct the record from previous providers.

What must be reported to ASIIS?

Only those immunizations
required by ADE

Only those immunizations
required by the ASIIS data base

All immunizations administered
to all children under the age of
21

All immunizations administered
to children under the age of 18

Answer

- The correct answer is “D”
- All immunizations administered to children 18 years of age and under must be reported to the State Health Department, Arizona State Immunization Information system (ASIIS).

How often do providers need to report data to ASIS?

Weekly

Monthly

Quarterly

On an ad
hoc basis

Answer

- The correct answer is “B”
- At a minimum, the statute/rule requires monthly reporting; however it is recommended that high volume immunization providers report more frequently.

How can a provider enter data into ASIIS?

Manually using the
web application

Electronically
using the Provider
EHR Interface

Both of the above

Answer

- The correct answer is “C”
- To submit a manual entry, use the [ASIIS Web Application](#). To report electronically, please visit the [ASIIS and Provider EHR Interface](#).

For which of the following reasons may a provider be disenrolled by ADHS from participating in the VFC program?

Failure to submit annual re-enrollment application

Provider found to have committed fraud, waste or abuse

Administering expired vaccine

Failure to meet requirements of participation

Request inactivation

All of the above

Answer

- The correct answer is F: all of the above
- The NOA which is forwarded to all health plans, must explain the reason(s) for the decision of dis-enrollment.

Questions?

Thank You.
