Subject: AHCCCS EVV API Developer Instructions

1. The URL will need to be updated to be the URL in the API's section of the website

Figure 1: Navigation to the API Details

2. **Subscription Key:** The subscription key parameter can be passed in the URL or it can be passed via a header variable.

   a. URL Method: The "key" query parameter should be appended to the URL with the Subscription Key provided for the API in the "Profile" area of the API Manager portal.
   Example Below: (note the URL and subscription key are examples and will need to be filled in with the URL and your subscription key)

   https://si-api.azahcccs.gov/URLinfo/upload?key=yourSubscriptionKey

   b. Header Variable Method: Assign your Subscription Key provided for the API in the "Profile" area of the API Manager portal to the Ocp-Apim-Subscription-Key variable.
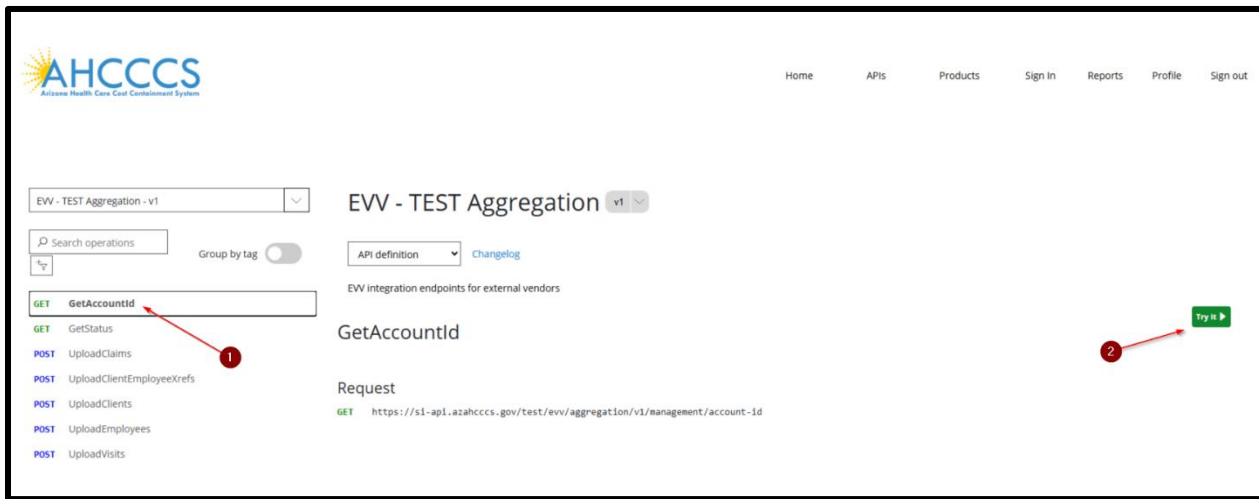

There is only one subscription key per submitting entity, which provides secure access to the APIs. There is not a separate subscription key for each provider being submitted for.

3. **Account:** Calls to the API need to pass a header property of "account" with the account number assigned. The account identifier is used to categorize interactions. To retrieve your account number please follow these steps:
   a. Navigate to "APIs"

   b. Click "GetAccountID" and then the "Try It" green button on the right.

    c. Click "Send"

    d. The Account number for your organization will be above the "Send" button as indicated in the red box below. Pass a header property of "account" with the account number assigned.
