

HUMAN RIGHTS COMMITTEE
Acknowledgment of Consumer and Family Members

The Arizona Health Care Cost Containment System (AHCCCS) appreciates your willingness to serve on a Human Rights Committee. As a member of the Human Rights Committee with an identified role or expertise as a consumer or family member/parent of an individual receiving behavioral health services, ADHS would like to ensure that you understand the implications of your decision to serve on your rights for privacy.

The Human Rights Committees are public bodies, subject to open meeting law requirements and public records requests. As such, requests for the identification of Committee Membership and each individual's role or area of expertise may be disclosed to members of the public requesting such information. This means that discussions of the Committee will be open to the public and documented in minutes that are available to the public. The public may request the list of the Committee members and their role, to which AHCCCS and the Committee would need to disclose your role as a consumer or family member. Disclosure would be limited to your name and role/expertise as a Committee member. Please be assured that no other protected health information is permitted to be disclosed by the Committee or AHCCCS, unless you share it during a Committee meeting.

By signing this document, you are indicating that you are aware of the potential of this disclosure, agreeing to continued service to the Committee and agreeing to the disclosure of such limited information.
