Hospital Assessment & Litigation

Assessment
- AHCCCS worked with consultant and hospital stakeholders
- Assessed $75 m in FY 2014
- Model shows no systems negatively impacted
- Finalized new rate for 7-1-14 – $233 million

Litigation
- Lawsuit brought by 36 Republican Legislators
- Hearing held on Dec. 13th to determine standing
- Won at Superior Court – Standing
- Lost Standing at Court of Appeals
- Supreme Court Review to hear case August 26th
Legislative Session

- AHCCCS Budget had savings ($60 m)
- Assumes 3% cap rate growth
- No new funding for employee compensation
- NF – BH – DD provider rate increases
- Insulin Pumps only benefit added
DHS Procurements

North includes San Carlos Apache Tribe in Graham county with zip codes 85530 and 85550

Reaching across Arizona to provide comprehensive quality health care for those in need
1. Serious Mental Illness (SMI) Eligibility Determination will not be a Regional Behavioral Health Authority (RBHA) function.

2. GMH/SA Duals will have behavioral health services integrated into AHCCCS acute plans.

3. The Greater Arizona RFP will include integration of behavioral and physical health for the SMI population similar to the Geographical Service Area (GSA) 6 Contract.

4. The preferred GSA model will be a north/south split. The north/south split is contingent upon a waiver being granted by the Centers for Medicare and Medicaid Services (CMS) concerning choice of plans for acute care. If a waiver is not granted the GSA model will provide for member choice within the defined GSA(s).
5. It is the intent of the ADHS to make every attempt to align GSA’s so that tribal nations will be kept whole in the assignment to a RB.

6. Delivery of Crisis Services within Greater Arizona is dependent upon the CMS waiver determination. If a waiver is granted the crisis system will be the responsibility of each individual RBHA awarded a contract. If a waiver is not granted the RBHAs that are awarded contracts may be required to jointly create and manage a crisis system through a joint governance agreement as delineated within the RFP.

7. A RBHA will not be allowed to be awarded or hold a contract in more than one (1) GSA. For the purposes of this section a RBHA includes any entity holding a substantial financial, operational or organizational attachment to another entity operating as a RBHA within Arizona.

8. Decisions around Dual Eligible-Special Needs Plan D-SNP. See Attachment
SIM Overview

• CMS established State Innovation Model (SIM) Initiative for multi-payer efforts around payment reform and health system transformation.

• Goal is to achieve statewide transformation for the proponderance of care delivered within the state and:
  o Improve health
  o Transform delivery system
  o Lower costs
SIM Overview – Delivery System Reform

- CMS has identified goals for delivery system transformation – states must work toward engaging providers in:

<table>
<thead>
<tr>
<th>Delivery System Transformation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Providers participate in integrated or virtually integrated delivery models</td>
</tr>
<tr>
<td>&gt;80% of provider payments from all payers are value based, non-FFS structures</td>
</tr>
<tr>
<td>Every state resident has accountable (quality and cost) PCP</td>
</tr>
<tr>
<td>Care coordinated across providers and settings</td>
</tr>
<tr>
<td>High level of patient engagement (with quantifiable results)</td>
</tr>
</tbody>
</table>

Data used to drive health system processes
SIM Round 2

- Round 2 applications due July 21, 2014 – Model Test award period of 48 months
- Model Design: Up to $30 million for up to 15 states ($1-$3 million per state)
- Model Test: Up to $700 million for up to 12 states ($20-$100 million per state based on state population and scope of proposal)
Proposed Arizona Strategy

• Arizona well-positioned to focused on driving innovation by expanding successful public private partnership

• Proposal would build on numerous existing initiatives to:
  o Reduce fragmentation
  o Integrate the delivery system
  o Align incentives to reduce costs and improve quality

• Align with (without duplicating) other efforts such as Medicare initiatives, where possible
