Open Discussion
Division of Community Advocacy and Intergovernmental Relations (DCAIR)
State Plan Amendments

Ruben Soliz, AHCCCS State Plan Manager
Overview of State Plan/State Plan Amendments (SPAs)

• Each state has a Medicaid state plan that describes how the state will administer its Medicaid program.

• States must follow broad federal rules in order to receive federal matching funds, but have flexibility to design their own version of Medicaid within the federal statute’s basic framework.

• In order to alter a State Plan, states must submit State Plan Amendments (SPAs), and receive approval from CMS.
Disaster SPAs Submitted in Response to COVID-19

• Disaster SPAs are effective for the duration of the PHE, or any renewal thereof.

• All disaster SPAs include a streamlined approval process, which allows AHCCCS to respond to the PHE in real-time.

• For a full list of COVID-19 disaster SPA flexibilities (CHIP & T-XIX):
  
COVID-19 Treatment Requirement

This SPA attests that treatment is provided for:

1. COVID-19, including “Long COVID”
   - All pharmacologicals approved/authorized by the FDA are covered
   - Non-pharmacologicals subject to medical necessity criteria

2. A condition that may seriously complicate the treatment of COVID-19 (if already provided under the State Plan/Waiver)
   - Treatment may be subject to limits in amount, duration and scope

These treatment requirements end:
- 1 year after the last day of the PHE for the mandatory population
Third Party Liability (TPL) SPA

Attest to compliance with federal TPL requirements:

• **Cost Avoidance** (not “pay and chase”) for prenatal services
  Pay without regard to TPL for pediatric preventive services

• **Make payments** for up to 100 days, without regard to TPL, for
  claims related to child support beneficiaries
Crisis Intervention Services SPA

- Clarifies crisis intervention services language in the State Plan.
- Does not add new services or change existing requirements.
- Key points:
  - Services are provided to an individual who is Medicaid eligible
  - Services are provided by a multidisciplinary team
  - Services are available 24 hours a day, 7 days a week, every day of the year
Proposition 206 Rate Increase SPA

Arizona Proposition 206 provides for the following update to Nursing Facility and HCBS Rates:

• Statewide Minimum Wage will increase to $12.80 and Flagstaff minimum wage will increase to $15.50 on January 1, 2022.
• To address the increased labor costs resulting from the Arizona minimum wage increases, AHCCCS has proposed the following fee schedule adjustments starting January 1, 2022:
  o Nursing Facility per diem rates will increase by 0.77% statewide and 0.48% for Flagstaff.
  o Select Home and Community Based Services (HCBS) rates will increase by 1.54% statewide and 0.96% for Flagstaff.
• Public Notices are located on our website and the public comment period ends November 15th.
Extension of Grace Period to the “Four Walls Requirement”

- CMS is further extending the grace period related to the Four Walls Requirement for states and Tribal facilities to **nine months after the COVID-19 PHE ends**.

- CMS is also further extending the grace period for IHS-operated facilities for the same time period, to give IHS and states additional time to work toward a solution addressing compliance with the “four walls” requirement for IHS-operated facilities.

Surviving Suicide - The Ones Left Behind

The grief experienced by a person who has lost a loved one to suicide is especially intense. Since September is National Suicide Awareness Prevention Month, please join us for this important discussion and message of hope.

Donna Fox has spent over 25 years working and volunteering in the areas of mental health, suicide prevention and postvention. She volunteered for seven years at Crisis Connection, Minnesota’s suicide hotline. There she served as a crisis counselor, public speaker and executive member of the Board of Directors. She was the Director of Training and Development for the Minnesota CIT Officer’s Association & she ended her career as the Program Director at NAMI Minnesota. Her father’s suicide when she was a child gave her a passion for helping others. Donna retired with her husband to Sedona in 2017 where she leads a monthly SOS support group for suicide loss survivors.

Dana Flannery serves the Arizona Health Care Cost Containment System (AHCCCS) in two senior level capacities: Senior Policy Advisor to the Director, and the Assistant Director of the Division of Community Advocacy and Intergovernmental Relations (DCAIR). Dana is a survivor of suicide who brings more than 17 years of experience in the behavioral health field, 10 of which have been with the State of Arizona. During that time, she has become a leader in public health policy for a wide variety of populations. With colleagues, she helped to develop the Arizona Peer Advancement Career Academy as well as several advocacy training courses, led stakeholder engagement for major agency initiatives, and assisted in health policy development that has a direct impact on members.

Debra Jorgensen is a peer and Manager of Individual and Family Affairs (aka Olfa) for Care1st Health Plan Arizona. Before coming to Care1st Deb I wore many hats as a member of the Executive Leadership Team at two Peer Runs and a Family Run organizations.
