### New Provider Enrollment Tool Coming Soon!

**November 27, 2024**

AHCCCS is committed to improving service to providers. A new Provider Enrollment Policy Manual will be available beginning 12/01/2024 and will be available on the AHCCCS Provider Enrollment website (<https://www.azahcccs.gov/APEP>).

This new tool is a comprehensive manual that offers specific provider enrollment screening criteria such as screening activities by risk level, requirements for fingerprint based criminal background checks, site visits and more! The new manual will also give provider type-specific requirements for screening and enrollment.

Please note that this enrollment manual does not replace or implement any new requirements than what is set forth in the [AHCCCS Medical Provider Manual \(AMPM\) chapter 610](#). This tool is to assist providers in understanding enrollment requirements that are supported in AHCCCS Policies and Procedures.
