

Meeting Information	
Date, Time & Location:	Wednesday, August 10, 2022, 9 AM PST
Meeting Facilitator(s):	Bill Liu and Dr. Salek

Attendee	Attendee
<input type="checkbox"/> Bill Liu	<input type="checkbox"/> Dr. Sara Salek
<input type="checkbox"/> Grace Clark	<input type="checkbox"/> Jennifer Nye
<input type="checkbox"/> Nailah Harrell	<input type="checkbox"/> Dan Porter
<input type="checkbox"/> Dr. Gastfriend	<input type="checkbox"/> Lydia Langston
<input type="checkbox"/> Dr. Orras	<input type="checkbox"/> Sarah Swonder

Agenda:

1. Continue review of CONTINUUM data dictionary. Review access details to FTP site
 - a. Access to FTP site has been working
2. Discuss details around current clinical requirements:
 - a. What requirements can be accomplished by using CONTINUUM
 - i. If an individual calls in for an intake assessment, how can clinicians determine whether they should be scheduled for CONTINUUM assessment or regular comprehensive assessment?
 - b. Where are there gaps not covered by the assessment?
 - i. Would it be helpful to implement Co-triage or a screening assessment?
 1. Who can administer Co-triage?
 - a. Training is provided to use Co-triage tool
 - ii. Overview of Co-triage demo
 1. Co-triage pulls some questions from CONTINUUM
 2. If patient uses any of listed substances in screening, DSM-5 questions will be pulled up
 3. Meant to be used as a screening tool before a comprehensive assessment is completed
 4. Is a BHT the most appropriate to administer the screening?
 - a. Is it more effective to have a centralized group of people taking intake calls to then transfer to a BHT?
 - c. What are downstream requirements of the provider?
 - d. Is there consistency in requirements for all state providers?
 - e. What questions does scheduling department typically ask?
 - f. What does the current pre-screening process look like the agency before starting a comp assessment?

3. Continue CONTINUUM EHR integration minimum requirements:

Action Items:

- Next step: Sarah Swonder to share the current screening questions used by the program
- Complete 4-hour Co-triage training before next meeting (8/18)
