

AHCCCS Independent Contractor Workgroup

Insurance Requirements Committee

Meeting Minutes

Date: Tuesday September 8; 3pm-4pm

Attendees: Ginny Roundtree (AHCCCS), Dana Johnson (AHCCCS), Julie Ambur (AHCCCS), Ben Garland (Sunbelt Insurance), Jose Mercado (DES/DDD), Ray Wallace (Soreo)

Ben Garland presented and the attendees discussed a matrix of (1) identified risks that may impact the AHCCCS member, AHCCCS, the Managed Care Organization (e.g. DDD, United Health Care) and the Agency and (2) insurance products that may mitigate the risks to each party.

- Ben stated that the matrix was not meant to be a comparison of the risks between a traditional W2 employment model, the 1099 model or other models that may be considered.
- The risks between the different service models are consistent

The attendees asked several pertinent questions in which Ben Garland will research and provide response to attendees. In addition, it was suggested that Ben add to the matrix (1) “member at fault” liability and (2) the estimated cost of each insurance product.

Finally, it was suggested that any insurance product recommended to the Work Group meets the minimum Arizona Department of Administrative Services requirements. One of the AHCCCS committee members would contact the AzDAS to determine minimum requirements.
