All claims submitted to the AHCCCS Administration are extensively edited by the AHCCCS claims system. When a claim fails an edit or an audit, an error record is created for that claim. All failed edits related to the claim denial are displayed on the Remittance Advice with an edit number, decimal point, and a single digit that further defines the problem. A description of the edit code is listed on the Processing Notes page of the Remittance Advice.

**Status Checks Online**

AHCCCS has a web application that allows AHCCCS registered providers to check the status of claims using the Internet. To create an account and begin using the application, providers must go to [http://www.azahcccs.gov/commercial/AHCCCSonline.aspx](http://www.azahcccs.gov/commercial/AHCCCSonline.aspx)

Understanding Common Billing Errors

A relatively small number of errors account for the vast majority of pended and denied claims.
