

AHCCCS FFS INPATIENT HOSPITAL RATE UPDATE OCTOBER 1, 2010 - SEPTEMBER 30, 2011

In accordance with Arizona Revised Statute (ARS) 36-2903.01, AHCCCS reimburses hospitals for inpatient hospital services based on a prospective tiered per diem methodology in which payment for each day of care is based on the level of care (tier) provided.

Pursuant to the Budget Reconciliation Bill, HB 2010 of the 49th Legislature, Seventh Special Session, hospital tiered per diem rates were frozen at 10/1/2009 values. Accordingly, outlier cost thresholds were frozen.

Outlier cost-to-charge ratios (CCRs) align with CMS Urban and Rural percentages for Arizona. These CCRs will be used to determine qualification and payment of outlier claims.

Statewide Weighted Average Tier Rates, Effective 10/1/10-9/30/11

Maternity	\$1,478.49
NICU Level III	\$1,498.25
NICU Level II	\$1,268.12
ICU	\$2,955.49
Surgery	\$1,714.88
Psychiatric	\$ 936.02
Nursery	\$ 581.70
Routine	\$ 1,154.00
Routine Specialty	\$ 1,076.48

Hospital Claim Processing

The processing of an inpatient claim is hierarchical. Each day is classified into **one** tier based on diagnosis, procedure, and/or revenue codes. Once the criteria are met within a tier for a particular day, the day is classified into that tier even if it meets the condition of a lower tier in the hierarchy. Inpatient claims may split across no more than two tiers per continuous stay. The attached hierarchy for tier assignment chart lists the qualifications for each tier, and the allowed tier splits.

Outpatient Hospital Fee Schedule

Pursuant to the Budget Reconciliation Bill, HB 2010 of the 49th Legislature, Seventh Special Session, fee-for-service hospital outpatient services were frozen, in aggregate, at October 1, 2009 values.
