Reminder that External Users PMMIS Recertification is due by March 30th

The 2018 AHCCCS PMMIS External Re-certification process is currently underway. See the following announcement from our security department:

FYI - This is just to remind everyone that the AHCCCS external recertification process has begun. This external recertification process impacts external users of the PMMIS application such as Health Plans, Providers, Tribes, etc.

All PMMIS users will see a CICS logon message during the month of March when logging into CICSACP and CICSACPR that states all external mainframe users must recertify by March 30th.
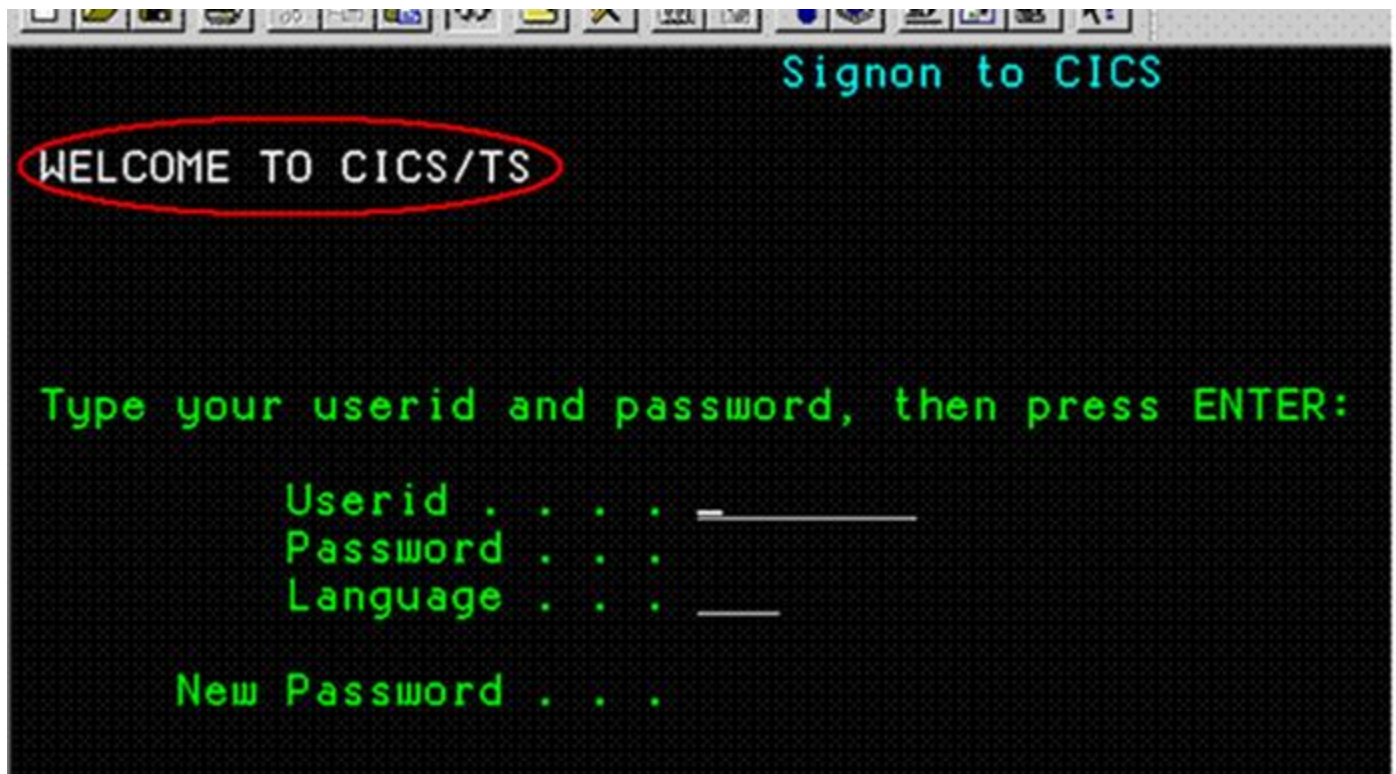

On Thursday March 1st, the CICS logon message changed as shown below.

Current standard message
"WELCOME TO CICS/TS"

New external recertification message for the month of March
"The 2018 AHCCCS PMMIS external recertification process begins March 1st at https://azahcccs.gov/UASExternal. All external mainframe users must recertify by March 30th to retain access. Check with your local office security liaison for more info."

Standard PMMIS login screen – (Userid and Password)

Please re-certify to continue to access PMMIS. Failure to do so will result in a lock-out of the system. We are strongly encouraging everyone to recertify by March 30th as emergency access will not be granted for those who do not recertify.

Thank you
