

Provider Type: Hospital Providers
Area of Concentration: Adults with Behavioral Health Needs

Project: Hospitals

Area of Concentration: Adults with Behavioral Health Needs

Provider Type: Hospital Providers

Objective: To more effectively coordinate the care for adults with a primary discharge diagnosis of behavioral health and persons with serious mental illness designation, who are being discharged from an inpatient stay.

1.	Participate in the Targeted Investments Program Quality Improvement Collaborative (QIC) offered by the Arizona State University College of Health Solutions. The QIC will support TI Program participants by providing interim updates on their Year 5 Milestone Performance Measures, assist with quality improvement, offer HEDIS™ technical assistance, and facilitate peer learning.
	Milestone #1 (October 1, 2020–September 30, 2021) 5%
	By September 30, 2021, attest that: <ul style="list-style-type: none"> A. The participating organization has registered both an administrative representative and licensed clinical representative to participate in the TI Program Quality Improvement Collaborative (QIC). Organizations with only one site participating in the TI Program may elect to have one representative if that person has both clinical and administrative Program responsibilities. B. The organization’s administrative <u>and</u> clinical QIC representatives (excepting one site participants as noted above) or their designees have attended 80% of the Year 5 Quality Improvement Collaborative virtual group meetings offered for the Area of Concentration.

Provider Type: Hospital Providers
Area of Concentration: Adults with Behavioral Health Needs

Performance Measure Targets: Established per organization based on baseline performance

Performance Measure	Measure Description	Measure Weighting	Measure Sets
Follow up after hospitalization for mental illness: 18 and older (30 - Day)	Percentage of discharges for beneficiaries age 18 and older who were hospitalized for treatment of selected mental illness diagnoses or intentional self-harm and who had a follow-up visit with a mental health practitioner within 30 days after discharge.	30%	
Follow up after hospitalization for mental illness: 18 and older (7 - Day)	Percentage of discharges for beneficiaries age 18 and older who were hospitalized for treatment of selected mental illness diagnoses or intentional self-harm and who had a follow-up visit with a mental health practitioner within 7 days after discharge.	65%
