Subject: Reminder - Third Party Liabilities - Retroactive Recoveries

Just a reminder that the below policy remains in effect and should be applied as appropriate. Any questions let us know. Thanks.

Subject: Third Party Liabilities - Retroactive Recoveries

In accordance with ACOM policy 434 section 2a.– Retroactive Recoveries Involving Commercial Insurance Payor Sources, for a period of two years from the date of service, the Contractor shall engage in retroactive recovery efforts for claims paid to determine if there are commercial insurance payor sources that were not known at the time of payment. In the event a commercial insurance payor source is identified.

As a component of this policy, the Contractor has two years from the date of service to recover payments for a particular claim, **or to identify (tag) claims having a reasonable expectation of recovery using a process to be developed by AHCCCS.** AHCCCS has completed definition and development of the process which will facilitate the “tagging” of impacted encounters, as outlined on the attached.

The implementation of this process is scheduled to be in place for April 1, 2017, and all Contractors are expected to utilize it within the scope of this policy on an ongoing basis. As outlined in the policy, if AHCCCS determines that a Contractor is tagging claims that do not meet these requirements, AHCCCS may impose sanctions.

Thank you in advance for you review and adherence to the policy. If you should have any questions please contact Julie Nieder at Julie.Nieder@azahcccs.gov
