The DHCM Rates team recently identified and made corrections to the OPFS related PGM rates effective for dates of service 10/1/2017-9/30/2018 for seven DAP eligible Providers as outlined below (corrections were made on 2/13/2019).

Due to the potential volume of claims impacted, MCO's are being afforded options for payment of the additional amounts due to the impacted providers. Options are as follows:

1. Identify and reprocess all impacted claims for these providers and replace all related encounters with the corrected versions reflecting the increase in payment.
2. Identify impacted claims, calculate additional payments owed, issue a lump sum additional payment to the provider, and utilize a special post adjudicated Encounter process (in development, details will be shared shortly with those MCO's electing this option) to update the related encounters to reflect the increase in payment.
3. If you already caught these errors and processed or reprocessed claims and associated encounters correctly, no further action should be necessary and we ask that you just notify us to this fact.

Please let me know ASAP which option is selected (one response for each MCO).

Our apologies for this error, and if you have any questions please let us know. Thanks.
