RE: Annual Data Validation Audit CYE 2023 – Final Findings

Dear Mr. Stover:

As previously communicated, per Centers for Medicare & Medicaid Services (CMS) requirements, AHCCCS has been conducting the Annual Data Validation Audit for CYE23. The purpose of this correspondence is to notify the Contractor that AHCCCS has completed the Annual Data Validation Audit and to provide AHCCCS' final findings. Attached are the final results for Data Validation Annual Audit CYE23 for Care1st Health Plan Arizona. The Annual Data Validation Audit was conducted in accordance with Contract YH19-0001-02 (Care1st Health Plan) Section D, Encounter Data Reporting, and the [AHCCCS Data Validation Technical Document](#). The Audit included two sections: Study A for all professional services and Study B for all facility services. Study A and Study B measured the following:

- Claims included in the Contractor's claim submission and encountered in AHCCCS' Prepaid Medical Management Information System (PMMIS) (Match) – reviewed for accuracy and timeliness.
- Claims included in the Contractor's claim submission but not encountered in PMMIS (InEnc NotClm) – reviewed for omission.
- Encounters reported in PMMIS but not included in the Contractor's claim submission (InEnc NotClm) – reviewed for omission from claim submission file.

A preliminary report was provided to allow the Contractor the opportunity to review and submit any additional information that may have affected the final error rate calculations. After considering the Contractor response, the results have been applied to the total population of "A" and "B" encounters.

Final Findings:

For Study A InEnc NotClm, there were 283,455 possible omissions identified from a sample size of 2,639,470 encounters; a subsample of 315 was randomly selected. AHCCCS manually compared the supporting information provided by the Contractor to the adjudicated encounters within PMMIS resulting in 49 omission errors, yielding an overall error rate of 1.67%.

For Study B InEnc NotClm, there were 9,440 possible omissions identified from a sample size of 117,552 encounters; a subsample of 250 was randomly selected. AHCCCS manually compared the

supporting information provided by the Contractor to the adjudicated encounters within PMMIS resulting in 60 omission errors, yielding an overall error rate of 1.93%.

For Study A Match, there were 2,356,015 encounter/claim matches identified from a sample size of 2,371,458 claims; a subsample of 150 was randomly selected. AHCCCS manually compared the supporting information provided by the Contractor to the adjudicated encounters within PMMIS resulting in 1 accuracy error and 2 timeliness errors, yielding an overall error rate of 0.67% for accuracy and 1.33% for timeliness.

For Study B Match, there were 108,112 encounter/claim matches identified from a sample size of 108,855 claims; a subsample of 150 was randomly selected. AHCCCS manually compared the supporting information provided by the Contractor to the adjudicated encounters within PMMIS resulting in 0 accuracy errors and 0 timeliness errors, yielding an overall error rate of 0.00% for accuracy and 0.00% for timeliness.

For Study A NotEnc InCIm, there were 15,443 possible omissions identified from a sample size of 2,371,458 claims; a subsample of 315 was randomly selected. AHCCCS manually compared the supporting information provided by the Contractor to the adjudicated encounters within PMMIS resulting in 101 omission errors, yielding an overall error rate of 0.21%.

For Study B NotEnc InCIm, there were 743 possible omissions identified from a sample size of 108,855 claims; a subsample of 315 was randomly selected. AHCCCS manually compared the supporting information provided by the Contractor to the adjudicated encounters within PMMIS resulting in 186 omission errors, yielding an overall error rate of 0.40%.

For each Study, if the error rate fell below the acceptable rate of 5%, no sanction was applied.

Monetary sanctions of \$5.00 were assessed per error (encounter omission, omission from the claim submission file, inaccurate record, or untimely record). The Contractor's error rates and sanction amounts for each Study are as follows.

STUDY	Error Rate	Sanction
A InEnc NotCIm	1.67%	\$0.00
A Match Accuracy	0.67%	\$0.00
A Match Timeliness	1.33%	\$0.00
A NotEnc InCIm	0.21%	\$0.00
B InEnc NotCIm	1.93%	\$0.00
B Match Accuracy	0.00%	\$0.00
B Match Timeliness	0.00%	\$0.00
B NotEnc InCIm	0.40%	\$0.00

Per the terms of the Contract, sanctions are not AHCCCS' exclusive remedy. Sanction amounts will be withheld from the Contractor's future capitation. In particular and without limiting possible future actions, if any legal action is brought against AHCCCS as the result of your non-compliance with the Contract, AHCCCS will seek compensation from you for any damages arising from such legal action including, but not limited to, AHCCCS' cost of representation, as well as the cost of any attorneys' fees and costs payable to the party bringing the action.

The Contractor may dispute the decision to impose a sanction in accordance with the process specified in AAC R9-34-401 et seq. The dispute must be filed in writing and must be received by the AHCCCS Administration, Office of General Counsel at 150 N. 18th Ave. MD 15013, Phoenix, Arizona 85007, no later than 60 days from the date of this letter. The dispute shall specify the legal and factual bases for the dispute as well as the relief requested.

Thank you for your ongoing cooperation.

If you have any questions, please contact Linda Oakley at (602) 417-4308 or by email at linda.oakley@azahcccs.gov.

Sincerely,

DocuSigned by:
