

AHCCCS 270/271 v5010 Testing Notice

AHCCCS is pleased to announce that we have implemented the 5010 version of the 270/271 in our Test environment. Effective with this version, we have changed our requirement to the ISA/GS segments for the 270 Request file.

Requirement for the ISA06 Sender ID:

- If you are an AHCCCS Registered provider performing the 270/271 transaction on behalf of yourself, please use your 6-digit AHCCCS Registration ID.

- If you are an existing AHCCCS 270/271 Trading Partner performing the 270/271 transaction on behalf of a provider, please use your assigned 6-character Sender ID. If you do not have an assigned 6-character Sender ID, you will be notified via email of your newly assigned Sender ID.

Requirement for the GS02 Application Sender's Code:

Please use the 6-digit AHCCCS Registration ID followed by the 2-digit location code for whom you are performing the 270/271 transaction for.

Ex. 99999901

A Reject status within the applicable Acknowledgment file will be returned if you are not an AHCCCS Registered Trading Partner/Provider for the 270/271 v5010 transaction.
