1. **AHCCCS OVERVIEW**

AHCCCS is the single state Medicaid agency for the State of Arizona. In that capacity it is responsible for operating the Title XIX and Title XXI programs through the State’s 1115 Research and Demonstration Waiver, which was granted by the Centers for Medicare and Medicaid Services (CMS), U.S. Department of Health and Human Services. As of March 1, 2017 AHCCCS provides coverage to approximately 1.9 million members in Arizona.

AHCCCS’s mission “reaching across Arizona to provide comprehensive, quality health care to those in need” is implemented through the vision of “shaping tomorrow’s managed care...from today’s experience, quality and innovation.”

The program has a total fund budget for SFY 2017 of approximately $13 billion. AHCCCS has over 70,000 active providers in Arizona such as individual medical and behavioral health practitioners, therapy disciplines, institutions, durable medical equipment companies and transportation entities. Additional information may be found on the AHCCCS website reporting page: [https://www.azahcccs.gov/Resources/Reports/federal.html](https://www.azahcccs.gov/Resources/Reports/federal.html).

2. **PURPOSE**

The purpose of this RFP is to procure HIE onboarding services from a Health Information Exchange Organization (HIO) who has a significant number of health care participants, including hospitals, laboratories, payers, community physicians and Federally Qualified Health Centers (FQHCs).

The current HIO in Arizona is Health Current, formerly: Arizona Health-e-Connection (“AzHeC”). Health Current is a non-profit organization providing a secure health information exchange service.

The procured services will include recruitment and technical support to Medicaid Providers in order to assist them with securely exchanging clinical information with the HIE.

The Contractor will be expected to recruit Eligible and Non-Eligible Medicaid providers, provide IT education and training, perform technology assessments, and develop technology plans for onboarding. The Contractor is expected to build interfaces with Medicaid participants in order to allow providers the ability to send and receive clinical information from other unaffiliated health care providers. The Contractor is also expected to be capable of convening Medicaid stakeholders to assist with developing and implementing a statewide health IT strategic plan.

In order to accelerate the number and type of Medicaid providers that can benefit from real time health information exchange, AHCCCS, through its HITECH grant, offers incentives to Medicaid Eligible and Non-Eligible providers, as a way to offset the investment providers need to make when they participate in clinical data sharing.

AHCCCS intends to award to a single Contractor to service this service. Award is contingent upon CMS approval and availability of federal funding. Services shall start on January 1, 2018 and are not expected to be funded past September 30, 2021.

HITECH funds cannot be used to support ongoing operations of an information exchange.
