

Section 1

General Description and Purpose of the State Child Health Insurance Plan

Section 1. General Description and Purpose of the State Child Health Plans and State Child Health Plan Requirements (Section 2101)

1.1 The state will use funds provided under Title XXI primarily for (Check appropriate box) (42 CFR 457.70):

1.1.1 X Obtaining coverage that meets the requirements for a separate child health program (Section 2103); OR

1.1.2. Providing expanded benefits under the States Medicaid plan (Title XIX); OR

1.1.3. A combination of both of the above.

In May 1998, the Arizona legislature approved Senate Bill 1008 (Laws of 1998, Chapter 11) authorizing the implementation of a Title XXI Child Health Insurance Program. This program is referred to as KidsCare (see Attachment A). The passage of the legislation was the culmination of many meetings convened by Governor Jane Dee Hull and legislative hearings which provided a venue for the public to testify about the proposal. Additionally, staff from AHCCCS, Arizona's Medicaid program, have met continually with interested parties to discuss the implementation of the program.

Arizona submitted a Title XXI State Plan to extend health care coverage statewide for children up to the age of 19. The effective date for the State Plan was October 1, 1997 which enabled the state to prepare for the implementation of the program. Actual services were rendered beginning November 1, 1998. Income thresholds were set at 150% of federal poverty level (FPL) at the beginning of the program. Beginning October 1, 1999 income levels were raised to 200% of the FPL. Arizona does not impose a resource test for this population. AHCCCS performs all KidsCare eligibility determinations for new applicants and redeterminations of eligibility based on a simplified eligibility process. A process has been implemented to determine whether a child is eligible for Medicaid prior to a determination of eligibility for KidsCare.

Arizona provides KidsCare services through established AHCCCS health plans which are referred to as contractors throughout this document.

All children have a choice of available contractors and primary care providers in a geographic service area. Additionally, Native Americans can elect to receive services through the Indian Health Service (IHS), 638 tribal facilities or one of the contractors. The KidsCare service package is the same service package offered to Medicaid recipients. AHCCCS coordinates educational activities with the assistance of safety net providers, other state agencies, tribal entities and organizations, advocacy groups and other appropriate entities.

Copayments are assessed for all members, except Native Americans. In addition, families with income above 100% of FPL are assessed premiums. The total cost for premiums and copayments will not exceed 5 percent of the family income.

The number of children who are eligible for the program may be capped based on the available state and federal funding.

AHCCCS coordinates with other private and public programs which provide health care services to children. Arizona does not want to encourage employers or parents to discontinue current insurance coverage for children. Therefore, as a protection against “crowd out”, children must be without group health insurance for three months before eligibility will be granted for KidsCare.

The three month bare provision will be waived under the following circumstances:

1. Reached their lifetime insurance limit;
2. Are newborns;
3. Are transitioning Title XIX members;
4. Are applicants who are seriously or chronically ill;
5. Are Title XXI members who lose insurance coverage;
6. Are enrolled with Children's Rehabilitative Services; or
7. Are Native American members receiving services from IHS or a 638 Tribal Facility.

1.2 X Please provide an assurance that expenditures for child health assistance will not be claimed prior to the time that the State has legislative authority to operate the State plan or plan amendment as approved by CMS. (42 CFR 457.40(d))

AHCCCS assures that the expenditures for child health assistance are not claimed prior to the time that the state has legislative authority to operate the State plan or plan amendment as approved by CMS.

1.3 X Please provide an assurance that the state complies with all applicable civil rights requirements, including title VI of the Civil Rights Act of 1964, title II of the Americans with Disabilities Act of 1990, section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, 45 CFR part 80, part 84, and part 91, and 28 CFR part 35. (42CFR 457.130)

AHCCCS ensures that the state complies with all applicable civil rights requirements, including title VI of the Civil Rights Act of 1964, title II of the Americans with Disabilities Act of 1990, section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, 45 CFR part 80, part 84, and part 91, and 28 CFR part 35.

1.4 X Please provide the effective (date costs begin to be incurred) and implementation (date services begin to be provided) dates for this plan or plan amendment (42 CFR 457.65):

Original Implementation Date: November 1, 1998

Amendment Effective Date: February 1, 2004 (premiums >150% FPL)
July 1, 2004 (premiums 100%-150% FPL)
May 1, 2009 (premiums >150% FPL) January 1, 2010 (enrollment cap)
October 10, 2013 (remove wait list)
July 26, 2016 (remove enrollment cap)
August 6, 2016 (premium lock out period)
October 1, 2017 (mental health parity)
July 1, 2018 (Managed Care Regulations)
July 1, 2019 (COVID-19 Disaster Response)
March 11, 2021 (ARP Coverage of COVID-19 Vaccines, Testing and Treatment)
October 1, 2023 (CHIP Vaccine Coverage)
January 1, 2024 (CHIP Continuous Eligibility)

The CHIP Vaccine Coverage SPA attests to the State's coverage of age-appropriate vaccines and their administration without cost sharing.

Discontinuation of coverage of children aging out of CHIP during the COVID public health emergency became effective on June 26, 2020.

In the event of a disaster, the State will notify CMS of its intent to provide temporary adjustments to; flexibilities around delays in processing applications and renewals, the ability to waive the three month waiting period for applicants, the ability to waive existing premiums, and the ability to waive the premium lock-out period. In addition, the state is requesting to temporarily provide continuous eligibility to its CHIP population.

1.4-TC Tribal Consultation.

Describe the consultation process that occurred specifically for the development and submission of this State Plan Amendment, when it occurred, and who was involved.

The State of Arizona seeks advice on a regular, ongoing basis from all of the federally-recognized tribes, Indian Health Service (IHS) Area Offices, tribal health programs operated under P.L. 93- 638, and urban Indian health programs in Arizona regarding Medicaid and CHIP matters. These matters include but are not limited to State Plan Amendments, waiver proposals, waiver extensions, waiver amendments, waiver renewals, and proposals for demonstration projects. The AHCCCS Tribal Consultation Policy serves as a guidance document that includes the process by which reasonable notice and opportunity for consultation should occur and scenarios in which AHCCCS shall engage in the consultative process.

The frequency of consultation is dependent on the frequency in which policy changes are proposed. When a proposed policy change requires consultation, the State will to its best ability provide notice of the tribal consultation meeting date as well as a description of the proposed policy change to be discussed. Ideally, a consultation meeting, which provides an opportunity for discussion and verbal comments to be made regarding a proposed change, will occur either in-person or by conference call 45 days prior to the submission of the policy change to CMS. The State will also provide an opportunity for written comments. Ideally, during the 45-day period, tribes and I/T/U will be provided at least 30 days to submit written comments regarding the policy change for consideration. Verbal comments presented at the meeting as well as written comments will be included in an attachment to accompany the submission of a State Plan Amendment, waiver proposal, waiver renewal, or proposal for a demonstration project.

In situations that require Immediate submission of a policy change to CMS, an expedited process may be implemented that will have the effect of lessening the time between the consultation meeting and submission of the policy change to CMS. This process may require for consultation to occur one day prior to the submission of the policy change to CMS. In order to expedite the process, written comments may be solicited in the meeting notification with a description of the policy change and the date when the change will be submitted to CMS. At least 14 days will be provided for the submission of written comments to be considered. This process would be completed prior to submission to CMS.

A series of meetings with tribes as well as the IHS, tribal health programs operated under P.L. 93-638, and urban Indian Health programs (collectively referred to as "I/T/U") have occurred and will continue to occur in order to make appropriate revisions to the AHCCCS Tribal Consultation Policy, which serves as a document that guides how the state will conduct with tribes and I/T/U.

More specifically, the consultation process for the development and submission of this State Plan Amendment occurred on December 18, 2023 . The attachment submitted to CMS describes in more detail which parties were notified of the consultation meeting and opportunity for comment, the meeting agenda, individuals that participated in the meeting, relevant materials that were discussed, and verbal comments received. It is important to note that this process was intended to be as inclusive as possible. The following entities in Arizona were notified of the consultation process regarding this State Plan Amendment.

- Tribal Leaders
- Tribal Health Directors
- Directors of Indian Health Service Area Offices
- Directors of Tribal Health Programs Operated under PL. 93-638
- Directors of Urban Indian Health Programs
- Director of InterTribal Council of Arizona, Inc.
- Director of the Advisory Council on Indian Health Care

Section 2

General Background and Description of State Approach to Child Health

Section 2. General Background and Description of State Approach to Child Health Coverage and Coordination (Section 2102 (a)(1)-(3)) and (Section 2105)(c)(7)(A)-(B))

2.1. Describe the extent to which, and manner in which, children in the state including targeted low-income children and other classes of children, by income level and other relevant factors, such as race and ethnicity and geographic location, currently have creditable health coverage (as defined in 42 CFR 457.10). To the extent feasible, make a distinction between creditable coverage under public health insurance programs and public-private partnerships (See Section 10 for annual report requirements). (42 CFR 457.80(a))

When the KidsCare program was implemented, AHCCCS used the CPS methodology described in Attachment B. Since March 2000, AHCCCS has opted to use the CPS methodology to describe the manner and extent to which the children in the state targeted the low-income children and other classes of children, by income level and other relevant factors to make a distinction between creditable coverage under public health insurance programs and public private partnerships.

2.2. Describe the current state efforts to provide or obtain creditable health coverage for uncovered children by addressing: (Section 2102)(a)(2) (42CFR 457.80(b))

2.2.1. The steps the state is currently taking to identify and enroll all uncovered children who are eligible to participate in public health insurance programs (i.e. Medicaid and state-only child health insurance):

The state is taking a number of steps to identify and enroll children who are eligible for public health insurance programs. The following describes these programs.

MEDICAID HEALTH INSURANCE

Arizona has several on-going major public efforts aimed at identifying, referring, and enrolling children in public insurance programs. Arizona currently has an amendment to our 1115 Waiver enabling the state to cover persons up to 100% of the FPL, a HIFA Waiver for parents, and numerous public health programs that provide health care services to children.

Formal referral processes are in place between governmental and community agencies which aid in the identification, referral and enrollment of uninsured children in the appropriate program. For example, by state law, children and pregnant women must be screened for Medicaid eligibility before applying for state-funded public programs or private programs. Coordination efforts have become even more critical since the implementation of KidsCare in November 1998.

As of May 1, 2002, AHCCCS health plans provided Medicaid services to 680,716 acute care Medicaid members and 34,334 long term care members enrolled in the Arizona Long Term Care System. Acute care members are individuals who enrolled with the AHCCCS health plans but not eligible for the Arizona Long Term Care System. Included in the acute care population are 73,713 Native Americans who elected to receive Medicaid services from the IHS. Arizona currently serves 371,267 children under the age of 19 through Medicaid. As of May 1, 2002, 48,212 children were enrolled in KidsCare.

The state has several agencies who perform eligibility functions. The Arizona Department of Economic Security (DES) processes applications and determines eligibility for Medicaid groups, except the SSI Cash, SSI-Medical Assistance Only (MAO) groups, the Medicare cost sharing programs, and ALTCS. For SSI-Cash, the Social Security Administration performs the eligibility determinations. AHCCCS performs eligibility for SSI-MAO, the Medicare cost sharing programs, and ALTCS. As mentioned in Section 1.1.3, AHCCCS determines KidsCare eligibility.

EFFORTS TO IDENTIFY AND ENROLL CHILDREN IN PUBLIC INSURANCE PROGRAMS

In addition to Medicaid, Arizona has five public initiatives which identify and help enroll children in programs that serve children. AHCCCS coordinates with these programs and initiatives to ensure that children who do not qualify for KidsCare are referred to other public and private programs.

Outstationed Eligibility Workers

Arizona has outstationed eligibility workers at some of the 14 Federally Qualified Health Centers (FQHCs), in hospitals which serve a disproportionate number of low income persons, and at five Arizona Department of Juvenile Corrections locations. At these outstationed sites, a person applying for Medicaid is assisted by an eligibility worker who submits a completed application to the appropriate eligibility office.

Community Health Centers

Arizona has 32 community health centers that offer a wide range of health care services based on a sliding fee scale. Community health centers provide primary care services, including care for acute and chronic illnesses, injuries, family planning and prenatal care, emergency care and diagnostic services.

Maternal and Child Health Block Grant

Maternal and Child Health Block Grant funds are administered by the Arizona Department of Health Services (ADHS). This department funds, monitors and

evaluates a variety of statewide community-based programs, which provide education and assistance for enrollment in public health insurance programs. These programs include: Healthy Start, High Risk Perinatal Programs, Pregnancy and Breast Feeding Hotline, Children's Information Center, Reproductive Health, County Block Grant and Children's Rehabilitative Services.

Children's Rehabilitative Services

Funded by a Title V block grant, the ADHS/Children's Rehabilitative Services (CRS) provides health care services to children with special health needs. Additionally, Medicaid eligible children receive services through CRS and AHCCCS reimburses ADHS with Medicaid funds for covered services provided by the program. A DES Family Assistance eligibility worker is located at each CRS site and field clinic to process applications for public assistance programs.

Indian Health Services (IHS) and Tribal Entities

There are three IHS Area Offices in Arizona: Phoenix, Tucson and Navajo. Each area office has a designated service delivery area in which IHS Service Units and health centers provide health care services to Native Americans, including those who are AHCCCS members.

There are three urban Indian Health Centers in Arizona. Each has a unique relationship with the IHS and receives an allotment from the IHS federal appropriation to provide health care services to Native Americans residing in Phoenix, Tucson and Flagstaff.

Tribal governments have established healthcare programs for tribal members. In general, the majority of these services are behavioral health services and/or alcohol and substance abuse programs.

The Gila River Indian Community has opted to contract for the delivery of health care from the Phoenix Area IHS through the P.L. 93-638 contracting process. The Gila River Health Care Corporation is the tribal governing body which oversees the operation of the HuHuKam Memorial Hospital which is located on the Gila River reservation. The hospital provides primary health care services to tribal members and also operates an outpatient clinic on weekdays with scheduled appointments.

In addition, the Gila River Indian Community Department of Health, operates a Medicaid Early Periodic Screening Diagnosis and Treatment (EPSDT) program through an intergovernmental agreement with AHCCCS. This tribal program ensures that children receive the services required under the EPSDT program.

AHCCCS continues to look at ways of increasing enrollment of Native American families in both reservations and urban communities. The *KidsCare News* is a newsletter that provides information of special interest to the tribal communities. The AHCCCS Native American Coordinator is a key link between AHCCCS and the tribal community promoting communication and education to the members.

2.2.2. The steps the state is currently taking to identify and enroll all uncovered children who are eligible to participate in health insurance programs that involve a public-private partnership:

STATE FUNDED PROGRAM

Unlike some states, Arizona does not have public-private partnerships with insurers which offer child health insurance products. In 2002, the legislature authorized 100%state-funding for the working poor, with income up to 200 percent of FPL. Persons who are chronically ill as defined in rule, may have household income up to 400 percent of the FPL.

2.3. Describe the procedures the state uses to accomplish coordination of SCHIP with other public and private health insurance programs, sources of health benefits coverage for children, and relevant child health programs, such as title V, that provide health care services for low-income children to increase the number of children with creditable health coverage. (Previously 4.4.5.)
(Section 2102)(a)(3) and 2102(c)(2) and 2102(b)(3)(E)) (42CFR 457.80(c))

Additional efforts by AHCCCS include the partnership with the Department of Education (DOE) to provide information to families about KidsCare through the Child Nutrition Program (school lunch program). Due to the success of this partnership, AHCCCS plans to explore other methods to reach children through the schools.

AHCCCS has also partnered with small businesses and minority business companies in the community to disseminate information about the SCHIP Program.

AHCCCS has developed and implemented a universal application (*Application for AHCCCS Health Insurance*) to simplify the referral and eligibility processes for individuals and families when applying for SCHIP, Medicaid and state-funded programs. Users of this application include the general public, eligibility staff, hospitals, advocacy groups, community organizations and agencies. This application is also available on the Internet.

AHCCCS is partnering with a group of community health centers to demonstrate a web based eligibility application. Health-e-Arizona is a partnership between the Community Health Centers Collaborative Ventures, Inc. (CHCCV), AHCCCS and the Department of Economic Security (DES). Effective June 17, 2002, Health-e-Arizona is being

piloted at El Rio Health Center. After a test period, Health-e-Arizona will be piloted at 7 CHCCV member organizations in 35 sites statewide. Deloitte Consulting, (who developed Health-e-App for the California HealthCare Foundation), worked with CHCCV, AHCCCS and DES to modify the application to meet Arizona's requirements. Health-e-Arizona enables clinic workers to screen for Title XIX and Title XXI eligibility. Clinic workers will send completed applications, documentation and signatures electronically to AHCCCS and DES. This project was funded by CHCCV without Title XIX, Title XXI or state funds.

Section 3

Methods of Delivery and Utilization Controls

Section 3. Methods of Delivery and Utilization Controls (Section 2102)(a)(4))

Check here if the state elects to use funds provided under Title XXI only to provide expanded eligibility under the state's Medicaid plan, and continue on to Section 4.

- 3.1. Describe the methods of delivery of the child health assistance using Title XXI funds to targeted low-income children. Include a description of the choice of financing and the methods for assuring delivery of the insurance products and delivery of health care services covered by such products to the enrollees, including any variations. (Section 2102)(a)(4) (42CFR 457.490(a))**

AHCCCS administers the Title XXI KidsCare Program. The program uses Title XXI funding to provide targeted, low income children with a choice of one of the 10 prepaid, capitated AHCCCS health plans, the Indian Health Service and P.L. 638 tribal facilities.

AHCCCS HEALTH PLANS

In partnership with AHCCCS, the health plans have been delivering quality, managed care services for almost 20 years. Their commitment to quality management is evidenced by the fact that at least half of the contractors voluntarily have sought and received accreditation from the National Committee for Quality Assurance (NCQA). Please see Attachment E for a profile of the current health plans who participate in the KidsCare Program.

AHCCCS health plans have been very successful in assuring access to care. Over 89 percent of practicing physicians in the state participate in the program. Care is available in a wide range of settings, including FQHCs and many of the Rural Health Centers, who have elected to subcontract with the health plans.

AHCCCS health plans are held to the same standards for KidsCare that are required for the Medicaid program. In order to secure a contract to deliver Medicaid services, bidders must respond to a Request for Proposal (RFP) and submit a proposal with specific capitation rates for one or more of the nine geographic service areas in the state. A critical element in the bid evaluation performed by AHCCCS is an assessment of how each prospective contractor will meet all financial and operational requirements, ensure quality of care and provide a sufficient network to meet specified accessibility requirements. Following is a more detailed description of the elements which are scored during the RFP process:

Program

Member Services

Quality and Utilization Management

Early Periodic Screening Diagnosis and Treatment

Maternal Health/Women's Health

Behavioral Health Services

Provider Network

Development of Capacity
Management and Oversight

Organization

Organization and Staffing

Capitation Rates

All offerors submit detailed capitation bids which are evaluated against actuarially sound rate ranges. For the KidsCare Program, AHCCCS sets the rates based on an actuarial analysis.

Ongoing Monitoring

AHCCCS monitors the solvency of the health plans and their delivery of health care services with the following activities:

- Quarterly and annual financial reporting
- On-site annual operational and financial reviews
- Performance measures using administrative data and medical records
- Member surveys
- Network reporting
- Encounter validation studies to determine completeness, accuracy and timeliness
- Solvency standards
- Coordination of benefits
- Educational efforts
- Medical studies
- Frequent meetings with contractors' executive management

Other Intergovernmental Agreements

In addition to amending health plan contracts, AHCCCS has amended the the current Intergovernmental Agreements with the ADHS for behavioral health services and children's rehabilitative services, and the DES for KidsCare services provided to foster care children. Amendments with ADHS are necessary to provide behavioral health services through the Regional Behavioral Health Authorities for the KidsCare population and to reimburse ADHS for services provided to KidsCare eligible special needs children who are also enrolled in the CRS program. The amendment with DES is

Section 3. Methods of Delivery and Utilization Controls

3.1. Delivery Systems (Section 2102(a)(4)) (42 CFR 457.490; Part 457, Subpart L)

3.1.1 Choice of Delivery System

3.1.1.1 Does the State use a managed care delivery system for its CHIP populations? Managed care entities include MCOs, PIHPs, PAHPs, PCCM entities and PCCMs as defined in 42 CFR 457.10. Please check the box and answer the questions below that apply to your State.

- No, the State does not use a managed care delivery system for any CHIP populations.
- Yes, the State uses a managed care delivery system for all CHIP populations.
- Yes, the State uses a managed care delivery system; however, only some of the CHIP population is included in the managed care delivery system and some of the CHIP population is included in a fee-for-service system.

If the State uses a managed care delivery system for only some of its CHIP populations and a fee-for-service system for some of its CHIP populations, please describe which populations are, and which are not, included in the State’s managed care delivery system for CHIP. States will be asked to specify which managed care entities are used by the State in its managed care delivery system below in Section 3.1.2.

All CHIP eligible children – other than American Indians – are required to receive services through a managed care delivery system; American Indian children can elect to receive services through managed care or on a FFS basis which is referred to as the American Indian Health Plan (AIHP). Additionally, American Indian children can receive services from I.H.S. and 638 facilities regardless of managed care enrollment.

If the State does not use a managed care delivery system for any or some of its CHIP populations, describe the methods of delivery of the child health assistance using Title XXI funds to targeted low-income children. Include a description of:

- The methods for assuring delivery of the insurance products and delivery of health care services covered by such products to the enrollees, including any variations. (Section 2102(a)(4); 42 CFR 457.490(a))
- The utilization control systems designed to ensure that enrollees receiving health care services under the State plan receive only appropriate and medically necessary health care consistent with the benefit package described in the approved State plan. (Section 2102(a)(4); 42 CFR 457.490(b))

AHCCCS enables KidsCare eligible members to access services covered under one of the available Health Plans. Previously enrolled members who have been disenrolled for less than 90 days will be automatically enrolled with the same Contractor, if still available, pursuant to the terms of the Arizona Medicaid Section 1115 Demonstration Waiver Special Terms and Conditions [42 CFR 438.56(g)].

AHCCCS members eligible under a contracted Health Plan who become eligible for another AHCCCS Program will be enrolled as follows:

1. Members determined to have a Serious Mental Illness will be enrolled with a RBHA, including members with a CRS designation and KidsCare members; with the exception of members determined to have an SMI who opt to transfer from a RBHA to an AHCCCS Complete Care Contractor for the provision of physical health services only as outlined in AHCCCS ACOM Policy 442.
2. Children in State custody will be enrolled in DCS/CMDP to receive physical health services including CRS services and will be assigned to a RBHA for provision of behavioral health services.
3. Members eligible for Arizona Long Term Care System will be enrolled with DES/DDD or an ALTCS E/PD Contractor, as applicable.

Members who do not choose a Contractor prior to AHCCCS being notified of their eligibility are automatically assigned to a Contractor based on re-enrollment rules, family continuity, or the auto-assignment algorithm. If a member is auto-assigned, AHCCCS sends a Choice Notice to the member and allows the member 90 days to choose a different Contractor. See Section D, Paragraph 6, Auto-Assignment Algorithm, for further explanation.

American Indians:

The American Indian Health Program (AIHP) is responsible for integrated care for American Indian adult and child members who select AIHP and who have not determined to have Seriously Mentally Ill. Integrated care services include both physical and behavioral health services, including services related to a CRS condition. American Indians not determined to be SMI can choose to enroll as follows:

1. In an AHCCCS Complete Care Contractor to receive both physical health services and behavioral services (adults 18 and over only),
2. In AIHP for physical and behavioral health services, and
3. In AIHP for physical health services and receive behavioral health services from a TRBHA.

Indian Health Services/638 Tribal Facilities

AHCCCS also enables KidsCare eligible Native American children to use the Indian Health Service or 638 facilities operated by tribal governments who want to participate in the program. Of course, a Native American child who is eligible for KidsCare may also elect to enroll with one of the available AHCCCS health plans or a participating state employee HMO.

3.1.1.2 Do any of your CHIP populations that receive services through a managed care delivery system receive any services outside of a managed care delivery system?

- No
 Yes

If yes, please describe which services are carved out of your managed care delivery system and how the State provides these services to an enrollee, such as through fee-for-service. Examples of carved out services may include transportation and dental, among others.

CHIP (Kidscare) members who are American Indian and who are enrolled in managed care may also receive services at IHS/638 facilities at any time. The claim will be reimbursed by the member's enrolled health plan.

3.1.2 Use of a Managed Care Delivery System for All or Some of the State's CHIP Populations

3.1.2.1 Check each of the types of entities below that the State will contract with under its managed care delivery system, and select and/or explain the method(s) of payment that the State will use:

- Managed care organization (MCO) (42 CFR 457.10)
 - Capitation payment
 - Describe population served:

All Title XXI eligible children receive services through an MCO, with the exception of American Indians who elect to receive services on a Fee-For-Service basis through AIHP.
- Prepaid inpatient health plan (PIHP) (42 CFR 457.10)
 - Capitation payment
 - Other (please explain)
 - Describe population served:
- Prepaid ambulatory health plan (PAHP) (42 CFR 457.10)
 - Capitation payment
 - Other (please explain)
 - Describe population served:
- Primary care case manager (PCCM) (individual practitioners) (42 CFR 457.10)
 - Case management fee
 - Other (please explain)
- Primary care case management entity (PCCM Entity) (42 CFR 457.10)
 - Case management fee
 - Shared savings, incentive payments, and/or other financial rewards for improved quality outcomes (see 42 CFR 457.1240(f))
 - Other (please explain)

If PCCM entity is selected, please indicate which of the following function(s) the entity will provide (as described in 42 CFR 457.10), in addition to PCCM services:

- Provision of intensive telephonic case management
- Provision of face-to-face case management
- Operation of a nurse triage advice line
- Development of enrollee care plans
- Execution of contracts with fee-for-service (FFS) providers in the FFS program
- Oversight responsibilities for the activities of FFS providers in the FFS program
- Provision of payments to FFS providers on behalf of the State
- Provision of enrollee outreach and education activities
- Operation of a customer service call center

- Review of provider claims, utilization and/or practice patterns to conduct provider profiling and/or practice improvement
- Implementation of quality improvement activities including administering enrollee satisfaction surveys or collecting data necessary for performance measurement of providers
- Coordination with behavioral health systems/providers
- Other (please describe)

3.1.2.2 The State assures that if its contract with an MCO, PAHP, or PIHP allows the entity to use a physician incentive plan, the contract stipulates that the entity must comply with the requirements set forth in 42 CFR 422.208 and 422.210. (42 CFR 457.1201(h), cross-referencing to 42 CFR 438.3(i))

3.2. General Managed Care Contract Provisions

3.2.1 The State assures that it provides for free and open competition, to the maximum extent practical, in the bidding of all procurement contracts for coverage or other services, including external quality review organizations, in accordance with the procurement requirements of 45 CFR part 75, as applicable. (42 CFR 457.940(b); 42 CFR 457.1250(a), cross referencing to 42 CFR 438.356(e))

3.2.2 The State assures that it will include provisions in all managed care contracts that define a sound and complete procurement contract, as required by 45 CFR part 75, as applicable. (42 CFR 457.940(c))

3.2.3 The State assures that each MCO, PIHP, PAHP, PCCM, and PCCM entity complies with any applicable Federal and State laws that pertain to enrollee rights, and ensures that its employees and contract providers observe and protect those rights (42 CFR 457.1220, cross-referencing to 42 CFR 438.100). These Federal and State laws include: Title VI of the Civil Rights Act of 1964 (45 CFR part 80), Age Discrimination Act of 1975 (45 CFR part 91), Rehabilitation Act of 1973, Title IX of the Education Amendments of 1972, Titles II and III of the Americans with Disabilities Act, and section 1557 of the Patient Protection and Affordable Care Act.

3.2.4 The State assures that it operates a Web site that provides the MCO, PIHP, PAHP, and PCCM entity contracts. (42 CFR 457.1207, cross-referencing to 42 CFR 438.10(c)(3))

3.3 Rate Development Standards and Medical Loss Ratio

Section 4. Eligibility Standards and Methodology. (Section 2102(b))

Check here if the state elects to use funds provided under Title XXI only to provide expanded eligibility under the state's Medicaid plan, and continue on to Section 5.

4.1. The following standards may be used to determine eligibility of targeted low-income children for child health assistance under the plan. Please note whether any of the following standards are used and check all that apply. If applicable, describe the criteria that will be used to apply the standard. (Section 2102(b)(1)(A)) (42CFR 457.305(a) and 457.320(a))

4.1.1. X Geographic area served by the Plan: Statewide

4.1.2. X Age:

KidsCare is available to children under 19 years of age. A child is considered to be under age 19 through the day before the child's 19th birthday. Coverage will continue through the month in which the child turns age 19.

4.1.3. X Income:

The combined gross income of the family household members may not exceed 200% of the FPL. As required by CMS, certain payments and grants as specified in 20 CFR Part 416, the Appendix to Subpart K, are excluded when determining gross income. All wages paid by the Census Bureau for temporary employment related to census activities are excluded.

See Attachment G for a description of family household income and the methodology for evaluating family income.

4.1.4. Resources (including any standards relating to spend downs and disposition of resources):

No resource test.

4.1.5. X Residency:

Arizona residency is required. An Arizona resident is a person who currently lives in Arizona and intends to remain in the state indefinitely. AHCCCS requires a signature on the application declaring that the child is an Arizona resident.

4.1.6. Disability Status (so long as any standard relating to disability status does not restrict eligibility):

4.1.7. X Access to or coverage under other health coverage:

A child is not eligible for KidsCare if the child is:

- Eligible for Medicaid.
- Covered under an employer's group health insurance plan.
- Covered through family or individual health care coverage.
- Eligible for health benefits coverage under a state health benefits plan on the basis of a family member's employment with a public agency (see Attachment H).
- Covered under an employer's group health insurance plan or by private insurance within the last three months and the health insurance coverage was terminated for a reason other than involuntary loss of employment. This exclusion does not apply to persons with group health insurance who resigned from employment to avoid termination of employment. This exclusion also does not apply to children who:
 1. Reached their lifetime insurance limit;
 2. Are newborns;
 3. Are transitioning Title XIX members;
 4. Are applicants who are seriously or chronically ill;
 5. Are Title XXI members who lose insurance coverage;
 6. Are enrolled with Children's Rehabilitative Services; or
 7. Are Native American members receiving services from IHS or a 638 Tribal Facility.

4.1.8. X Duration of eligibility:

A child who is determined eligible for KidsCare is guaranteed an initial 12 months of continuous coverage unless the child (or parent or legal guardian if appropriate):

- Fails to cooperate in meeting the requirements of the program;
- Cannot be located;
- Attains the age of 19.
- Is no longer a resident of the state;
- Is an inmate of a public institution;
- Is enrolled in Medicaid;
- Is determined to have been ineligible at the time of approval;
- Obtains private or group health insurance;
- Is adopted and no longer qualifies for KidsCare;

- Is a patient in an institution for mental diseases; or
- Voluntarily withdraws from the program.

KidsCare members are notified on the approval notice of the requirement to report changes that affect eligibility. Ineligibility due to excess income does not affect the initial 12 months of continuous coverage.

4.1.9. X Other standards (identify and describe):

Citizenship or Qualified Alien Status. A child must be a United States citizen or a qualified alien. Unless one of the exceptions listed in P.L. 104-193 is applicable, a child who is a qualified alien who entered the United States on or after August 22, 1996 is not eligible for KidsCare until five years after child became a qualified alien.

Assignment of Rights. Under Arizona law, assignment of payments for medical care from any first or third party occurs when the application is signed. Assignment is explained on the application form.

Social Security Number. The application for KidsCare is a joint application for Medicaid and KidsCare. AHCCCS requests a Social Security Number on the KidsCare application but does not deny eligibility for KidsCare due solely to the failure to provide a Social Security Number or refusal to apply for a Social Security Number. However, if the financial screening determines that the child would be eligible for Medicaid if an application were processed and the child, or responsible party, refuses to apply for a Social Security Number necessary to complete the Medicaid application, AHCCCS denies the KidsCare eligibility. Please see the requirement in Section 4.4.2.

4.2. The state assures that it has made the following findings with respect to the eligibility standards in its plan: (Section 2102)(b)(1)(B)) (42CFR 457.320(b))

4.2.1. X These standards do not discriminate on the basis of diagnosis.

4.2.2. X Within a defined group of covered targeted low-income children, these standards do not cover children of higher income families without covering children with a lower family income.

4.2.3. X These standards do not deny eligibility based on a child having a pre-existing medical condition.

4.3. Describe the methods of establishing eligibility and continuing enrollment. (Section 2102)(b)(2)) (42CFR 457.350)

The following describes the methods of establishing and continuing eligibility and enrollment.

The child, a family member or legal guardian, fills out a simple application form which is submitted to AHCCCS. If assistance with the application is needed, appropriate personnel assist the applicant. The form also serves as an application for Medicaid.

AHCCCS has published the application form and instructions for completing the form in English and Spanish. Based on the demographics in Arizona of other ethnic groups, AHCCCS does not believe that developing the application in other languages is necessary since no other ethnic group exceeds 3% of the population. However, an interpreter is provided, if needed.

AHCCCS completes an eligibility determination for KidsCare applications within 30 days from the date of receipt of a signed, completed application in an AHCCCS eligibility office except in unusual circumstances. One example would be when the agency can not reach a decision because the applicant failed to provide required information or take required action.

When information needed to make an eligibility determination is not submitted with the application, AHCCCS sends a notice to the applicant or the representative outlining the information required and the time frame for providing the information. AHCCCS gives applicants ten calendar days to provide any information necessary to enable AHCCCS to determine the applicant's eligibility.

Applicants must choose a health plan or the IHS before enrollment into the KidsCare Program.

Written materials about the various health plans and their toll-free telephone numbers are available with the application form. In addition, the covered services are outlined in the written materials. If a Native American selects the Indian Health Service or a tribal facility, AHCCCS provides any KidsCare services not provided by these entities on a fee-for-service basis off-reservation.

The KidsCare providers are:

- AHCCCS health plans, which includes Comprehensive Medical and Dental Program (CMDP) for foster care children.
- For Native Americans, any of the above or the Indian Health Service or a 638 tribal facility.

For eligibility determinations completed by the 25th day of the month, KidsCare eligibility begins with the first day of the month following the month in which the child is determined to meet the eligibility criteria for the program. Children who are determined eligible for the program after the 25th day of the month are eligible for the program the first day of the second month following the determination of eligibility.

Once the application is approved, the applicant is enrolled with their chosen provider and AHCCCS sends a notice confirming the choice and a member identification card to the member. Following enrollment, the contractor provides a member handbook to the member, which contains important information about how to access health care for KidsCare eligible children.

AHCCCS approves a newborn of a mother who is eligible for KidsCare on the date the child is born. The newborn's KidsCare eligibility begins with the newborn's date of birth. Once approved for KidsCare, AHCCCS enrolls the newborn with the mother's health plan. AHCCCS notifies the mother by mail of the newborn's enrollment into KidsCare and is given an opportunity to change health plans at that time.

A member is allowed to change contractors on an annual basis and when an individual moves into a new geographic area not served by the current contractor. A member can change PCPs at any time. The option to change contractors is based on the member's anniversary date, which is the first day of the month that the member is enrolled into KidsCare. Ten months following the anniversary date, the member will be sent an annual enrollment notice advising that a different contractor may be selected. A list of contractors, with toll-free numbers and the available services, is included. The member, or parent of the child, has three weeks to change contractors. If a change is requested, the effective date is a year from the anniversary date. Enrollees must notify AHCCCS of a change in address or other circumstances that could affect continued eligibility or enrollment.

American Indian children who elect to enroll with the American Indian Health Program are allowed to disenroll at any time upon request and choose a contractor for all KidsCare services. Similarly, American Indian children enrolled with a contractor or other providers are allowed to disenroll at any time upon request and enroll with the American Indian Health Program.

At State discretion, requirements related to timely processing of applications may be temporarily waived for CHIP applicants who reside and/or work in a State or Federally declared disaster area for the duration of the declared emergency.

At State discretion, it may temporarily provide continuous eligibility to CHIP enrollees who reside and/or work in a State or Federally declared disaster area for the duration of the declared emergency.

At State discretion, requirements related to timely processing of renewals and/or deadlines for families to respond to renewal requests may be temporarily waived for CHIP beneficiaries who reside and/or work in a State or Federally declared disaster area for the duration of the declared emergency.

At State discretion, the State may temporarily delay acting on changes in circumstances for CHIP beneficiaries other than the required changes in circumstances described in 42 CFR 457.342(a) cross-referencing 42 CFR 435.926(d), applicable to beneficiaries who reside and/or work in a State or Federally declared disaster area.

At State discretion, the requirement that a child is ineligible for CHIP for a period of three months from the date of the voluntary discontinuance of employer-sponsored group health insurance or individual insurance coverage may be temporarily waived for CHIP applicants who reside and/or work in a State or Federally declared disaster area for the duration of the declared emergency.

4.3.1 Describe the state's policies governing enrollment caps and waiting lists (if any). (Section 2106(b)(7)) (42CFR 457.305(b))

Arizona does not currently have an enrollment cap or wait list in place. AHCCCS will submit a state plan amendment if the state decides to implement an enrollment cap or waiting list.

4.4. Describe the procedures that assure that:

- 4.4.1. Through the screening procedures used at intake and follow-up eligibility determination, including any periodic redetermination, that only targeted low-income children who are ineligible for Medicaid or not covered under a group health plan or health insurance coverage (including access to a state health benefits plan) are furnished child health assistance under the state child health plan. (Sections 2102(b)(3)(A) and 2110(b)(2)(B)) (42 CFR 457.310(b) (42CFR 457.350(a)(1)) 457.80(c)(3))**

AHCCCS administers both the Medicaid and KidsCare Program. Medicaid screening is part of the KidsCare eligibility determination process. Records of KidsCare eligibility are maintained in a database that is also used for Medicaid eligibility. The database is checked for current Medicaid eligibility before determining KidsCare eligibility. Medicaid eligibility always overrides KidsCare eligibility.

AHCCCS accepts a declaration on the application confirming that there is no other creditable insurance including the state health benefits plan. A family member, legal representative or the child is required to report changes in employer insurance coverage or eligibility for group health insurance or other creditable insurance.

When conducting a renewal (periodic redetermination) of KidsCare eligibility, AHCCCS screens for potential Medicaid eligibility, group health plan, health insurance coverage, or other state health benefits. For review of potential group health plan coverage see section 4.4.4.1.

4.4.2. The Medicaid application and enrollment process is initiated and facilitated for children found through the screening to be potentially eligible for medical assistance under the state Medicaid plan under Title XIX. (Section 2102)(b)(3)(B)) (42CFR 457.350(a)(2))

As stated in subsection 4.4.1, AHCCCS administers both Medicaid and the KidsCare Program and ensures that any child eligible for Medicaid is enrolled in Medicaid. The application form used for KidsCare is the same application for Medicaid, which is determined simultaneously. Medicaid eligibility always overrides KidsCare eligibility.

If the child is approved for Medicaid, AHCCCS claims Medicaid funding, rather than KidsCare funding, back to the date of Medicaid eligibility which generally is prior to the KidsCare eligibility effective date.

If the KidsCare staff screen a child both Medicaid and KidsCare ineligible, they forward the application to the AHCCCS Central Screening Unit (CSU). The CSU reviews the application and makes a full Medicaid eligibility determination. If the child is ineligible for Medicaid due to income, the CSU sends notification of the decision to the family.

4.4.3. The State is taking steps to assist in the enrollment in SCHIP of children determined ineligible for Medicaid. (Sections 2102(a)(1) and (2) and 2102(c)(2)) (42CFR 431.636(b)(4))

In addition to the process described in subsection 4.4.1. the Department of Economic Security sends information daily to AHCCCS on children who lose their Medicaid coverage due to increased income. If eligible, AHCCCS approves the children for KidsCare.

4.4.4 The insurance provided under the state child health plan does not substitute for coverage under group health plans. Check the appropriate box. (Section 2102)(b)(3)(C)) (42CFR 457.805) (42 CFR 457.810(a)-(c))

4.4.4.1. X Coverage provided to children in families at or below 200% FPL: describe the methods of monitoring substitution.

The application requests information about group health plan coverage within the past three months. If a child is covered by group health insurance or was covered and the coverage was voluntarily discontinued, the child is not eligible for KidsCare for a period of three months unless the child has exceeded the lifetime limit to his or her insurance policy. AHCCCS grants exceptions to the three month period of ineligibility as discussed in 4.1.7.

AHCCCS monitors substitution under its Quality Control and Quality Assurance process to analyze the extent to which an applicant drops other health plan coverage. Records are reviewed to ensure that the three month period of ineligibility policy is applied appropriately. Action is taken as needed. Trends are monitored to ensure that the policy is consistently applied throughout the program.

4.4.4.2. Coverage provided to children in families over 200% and up to 250% FPL: describe how substitution is monitored and identify specific strategies to limit substitution if levels become unacceptable.

4.4.4.3. Coverage provided to children in families above 250% FPL: describe how substitution is monitored and identify specific strategies in place to prevent substitution.

4.4.4.4. If the state provides coverage under a premium assistance program, describe:

The minimum period without coverage under a group health plan, including any allowable exceptions to the waiting period.

The minimum employer contribution.

The cost-effectiveness determination.

4.4.5 Child health assistance is provided to targeted low-income children in the state who are American Indian and Alaska Native. (Section 2102)(b)(3)(D)) (42 CFR 457.125(a))

Meetings to discuss the KidsCare Program and education strategies have been and continue to be held with representatives from the three area IHS agencies, the Arizona Inter-tribal Council, which represents 20 of Arizona's 21 Indian Tribes, the Navajo Nation, Urban Indian Centers and the Indian Health Advisory Committee. In addition, the Governor's Office convened a meeting to discuss the KidsCare Program and invited representatives from the 21 tribes See Attachment I for a listing of the tribal entities who have participated in the discussions.

As discussed in Section 3, IHS and participating 638 tribal facilities may provide KidsCare services. In addition, Native American children may choose to enroll with a contractor in their geographic area.

Applications and enrollment information are available at IHS and appropriate tribal locations. AHCCCS also uses Native American events, newspapers, and radio stations as a forum for outreach. If IHS or tribal staff are willing to assist applicants in completing the application for AHCCCS health insurance, AHCCCS provides training.

AHCCCS has a Native American Coordinator who is available to the tribes for consultation, information and presentations.

Section 5

Outreach and Coordination

Section 5. Outreach (Section 2102(c))

Describe the procedures used by the state to accomplish:

Outreach to families of children likely to be eligible for child health assistance or other public or private health coverage to inform them of the availability of the programs, and to assist them in enrolling their children in such a program: (Section 2102(c)(1)) (42CFR 457.90)

Arizona has designed a very effective educational program with the community to inform families about the availability of KidsCare and assist children with enrollment in the KidsCare Program. To accomplish these two goals, Arizona has established numerous coordination procedures as required by Title XXI.

Prior to implementation of KidsCare in 1998, the Governor's Outreach Work Group, with representatives from the following agencies/organizations, met several times to develop a comprehensive education plan:

- AHCCCS
- Arizona Association of Community Health Centers
- Arizona Chapter of Academy of Pediatrics
- Arizona Children's Action Alliance
- Arizona Children's Association
- ADHS/Community and Family Health Services
- AHCCCS Contractors
- Arizona Prenatal Care Coalition
- Inter-tribal Council
- Phoenix Children's Hospital
- Participating Indian Tribes

The Governor's Office and AHCCCS worked collaboratively with tribal entities to inform Native American families about the availability of KidsCare and to assist in enrolling children in KidsCare. Please refer to Section 4.4.5 for a description of the Native American activities.

These efforts by AHCCCS have modeled successful methods used by other child-related programs (Maternal Child Health Block Grants and Women, Infants and Children Program [WIC]). The distribution of applications are targeted to those agencies, organizations and other entities who currently serve low income children. These efforts include providers for children with special health care needs and traditional safety net providers such as:

Arizona Chapter of Academy of Pediatrics, including the Medical Home Project
ADHS which administers:

- Children's Rehabilitative Services
- Family Planning
- Healthy Start
- Immunization Sites
- Maternal Child Health
- WIC

Arizona Interagency Farmworkers Coalition

Big Brothers/Big Sisters

AHCCCS, and other interested parties, have developed strategies that are culturally sensitive to Arizona's diverse population, including the translation of materials in English and Spanish. These strategies include, but are not limited to the following:

- Mass media
- Radio
- Television advertisement
- Brochures
- Posters
- Flyers
- Video

A referral hotline and information number (1 877-764-KIDS (5437))

Training community advocacy groups regarding assistance to families in the completion of the universal application (*Application for AHCCCS Health Insurance*)
Statewide community information forums

Information sharing with foundations (The Flinn Foundation and St. Luke's Charitable Trust)

Collaboration with minority health groups

Partnerships with various agencies, municipalities, community organizations and ecumenical groups

In addition to the strategies identified above, informational materials are distributed through:

AHCCCS participating doctors (approximately 89 percent of all physicians in Arizona)

- Faith organizations
- Community centers
- Day care centers
- Grocery stores
- Other medical providers, such as hospitals and pharmacies
- Public health offices
- Schools
- HUD
- Other appropriate locations

Education regarding the KidsCare Program conducted through collaborative arrangements with other state, county and city agencies as well as programs that conduct education in rural and inner-city areas.

Efforts are designed to inform families about the availability of the KidsCare program, provide basic information about eligibility and instruct families about how and where to apply for the program. Information about Medicaid and the state-funded programs is included as part of the overall strategy for enrollment.

Organizations distributing the applications and information about KidsCare are provided training as needed to assist with completing the application form and collecting information as necessary.

An applicant may also receive assistance to complete the application form by calling the KidsCare Office at their statewide toll free number, 1-877-764- KIDS (5437). The applicant is assisted by an AHCCCS staff person who:

- Explain the application process, including those items, which will require verification.
- Explain enrollment and choice.
- Obtain the necessary information to fill out the application.
- Mail the application and enrollment packet to the applicant for review, signature and supply any required verification.

Applications may be mailed to the AHCCCS KidsCare Office for an eligibility determination. Applications are tracked by source and disposition code, and efforts are modified based on this data.

To specifically target low income children of migrant workers, the Arizona Interagency Farmworkers Coalition has agreed to include information about KidsCare in their newsletters. The Coalition has relationships with a number of the prominent growers in the state who employ farmworkers. Through the Coalition, AHCCCS is given the opportunity to distribute KidsCare and Medicaid outreach materials with paychecks issued to the farmworkers.

The farmworkers typically rely on the WIC program, Headstart programs, FQHCs and other community-based clinics. Each of these will be actively involved in the KidsCare education campaign.

In addition, any individual interested in learning about KidsCare may call the main AHCCCS toll-free hotline number 24 hours a day, 7 days a week or the KidsCare hotline number to learn more about the program and how to apply for services

- The state provides coverage of COVID-19 vaccines and their administration, in accordance with the requirements of section 2103(c)(11)(A) of the Act.

COVID-19 Testing:

- The state provides coverage of COVID-19 testing, in accordance with the requirements of section 2103(c)(11)(B) of the Act.
- The state assures that coverage of COVID-19 testing is consistent with the Centers for Disease Control and Prevention (CDC) definitions of diagnostic and screening testing for COVID-19 and its recommendations for who should receive diagnostic and screening tests for COVID-19.
- The state assures that coverage includes all types of FDA authorized COVID-19 tests.

6.2-BH Behavioral Health Coverage Section 2103(c)(5) requires that states provide coverage to prevent, diagnose, and treat a broad range of mental health and substance use disorders in a culturally and linguistically appropriate manner for all CHIP enrollees, including pregnant women and unborn children.

6.2.1- BH Periodicity Schedule The state has adopted the following periodicity schedule for

behavioral health screenings and assessments. Please specify any differences between any covered CHIP populations:

- State-developed schedule
- American Academy of Pediatrics/ Bright Futures
- Other Nationally recognized periodicity schedule (please specify: _____)
- Other: The AHCCCS EPSDT Periodicity Schedule is state developed to mirror the AAP/Bright Future EPSDT Periodicity Schedule. The one significant deviation alignment is that AHCCCS currently does not cover a thirty (30) month EPSDT Well Child Visit. To address this, the agency is undertaking an internal discussion and fiscal review to determine the feasibility of adding this visit to the schedule thus aligning with Bright Futures.

6.3- BH Covered Benefits Please check off the behavioral health services that are provided to the state's CHIP populations, and provide a description of the amount, duration, and scope of each benefit. For each benefit, please also indicate whether the benefit is available for mental health and/or substance use disorders. If there are differences in benefits based on the population or type of condition being treated, please specify those differences.

If EPSDT is provided, as described at Section 6.2.26 and 6.2.26.1, the state should only check off the applicable benefits. It does not have to provide additional information regarding the amount, duration, and scope of each covered behavioral health benefit.

6.3.1- BH Behavioral health screenings and assessments. (Section 2103(c)(6)(A))

6.3.1.1- BH The state assures that all developmental and behavioral health recommendations outlined in the AAP Bright Futures periodicity schedule and United States Public Preventive Services Task Force (USPSTF) recommendations graded as A and B are covered as a part of the CHIP benefit package, as appropriate for the covered populations.

6.3.1.2- BH The state assures that it will implement a strategy to facilitate the use of age-appropriate validated behavioral health screening tools in primary care settings. Please describe how the state will facilitate the use of validated screening tools:

AHCCCS has policies and procedures that outline use of standardized, age-appropriate, and validated behavioral health screening tools in both primary care settings as well as behavioral health care settings. These requirements are also outlined in Contract with MCOs. The MCOs are tasked with educating providers on the screening tool requirements as well as care coordination and service referrals if member needs cannot fully be met by the attending provider. The MCOs have provider relations teams that make contact with providers on at least a quarterly basis as well as make themselves available any time providers have questions regarding service delivery. MCOs also send out mass notifications as warranted as well as utilize their websites and/or provider newsletters to provide timely updates on programmatic requirements.

6.3.2- BH Outpatient services (Sections 2110(a)(11) and 2110(a)(19))

AHCCCS contract requires validated assessment tools be utilized for EPSDT aged members, as well as for adult members. AHCCCS required tool is limited to CALOCUS (formerly CASII). MCG criteria is for both SUD and MH.

No specific criteria or tools are required
 Mental Health Substance Use Disorders

6.4.2- BH Please describe the state's strategy to facilitate the use of validated assessment tools for the treatment of behavioral health conditions.

The state requires the use of the CALOCUS for all child members aged 6 through 18. The ECSII, is currently required for the 0-5 population only through the Targeted Investments Program. This is not an exhaustive list, and may differ by provider agency and population served by each.

The state requires contractors to implement validated behavioral health screening tools by Primary Care Providers (PCPs) to determine if further assessment for behavioral health services is necessary. The state requires that providers serving EPSDT-aged members utilize AHCCCS approved EPSDT tracking forms and standardized developmental screening tools and that these providers are trained in the use of these tools.

For the children's population, Contractors are required to ensure provision of Trauma Informed Care (TIC) services, including routine trauma screenings and development of a network of TIC-certified therapists, as well as to promote service delivery for children age birth through five, including screening and high need identification as directed by AHCCCS through the use of validated assessment tools. AHCCCS currently requires the use of the Child and Adolescent

Level Of Care Utilization System (CALOCUS) (Formerly Child and Adolescent Service Intensity Instrument (CASII) tool for children 6-18 years of age, and requires the use of the Early Childhood Service Intensity Instrument (ECSII) through the Targeted Investments Program for the 0-5 population.

Contractors are required to promote expansion of services for children age birth through five through training and monitoring of specialists as directed by AHCCCS and in alignment with Evidence Based Practices for this population (i.e. Infant Toddler Mental Health Coalition of Arizona (ITMHCA) standards) and to utilize Substance Use Disorders (SUD) screening tools to identify youth with substance use disorders and refer to SUD specialty services as appropriate.

The American Society of Addiction Medicine (ASAM) Criteria is required for adults receiving behavioral health services, who have been identified as having a substance use disorder.

6.2.5- BH Covered Benefits The State assures the following related to the provision of behavioral health benefits in CHIP:

All behavioral health benefits are provided in a culturally and linguistically appropriate manner consistent with the requirements of section 2103(c)(6), regardless of delivery system.

The state will provide all behavioral health benefits consistent with 42 CFR 457.495 to ensure there are procedures in place to access covered services as well as appropriate and timely treatment and monitoring of children with chronic, complex or serious conditions

6.2- MHPAEA Section 2103(c)(6)(A) of the Social Security Act requires that, to the extent that it provides both medical/surgical benefits and mental health or substance use disorder benefits, a State child health plan ensures that financial requirements and treatment limitations applicable to mental health and substance use disorder benefits comply with the mental health parity requirements of section 2705(a) of the Public Health Service Act in the same manner that such requirements apply to a group health plan. If the state child health plan provides for delivery of services through a managed care arrangement, this requirement applies to both the state and managed care plans. These requirements are also applicable to any additional benefits provided voluntarily to the child health plan population by managed care entities and will be considered as part of CMS's contract review process at 42 CFR 457.1201(l).

6.2.1- MHPAEA Before completing a parity analysis, the State must determine whether each covered benefit is a medical/surgical, mental health, or substance use disorder benefit based on a standard that is consistent with state and federal law and generally recognized independent standards of medical practice. (42 CFR 457.496(f)(1)(i))

6.2.1.1- MHPAEA Please choose the standard(s) the state uses to determine whether a covered benefit is a medical/surgical benefit, mental health benefit, or substance use disorder benefit. The most current version of the standard elected must be used. If different standards are used for different benefit types, please specify the benefit type(s) to which each standard is applied. If "Other" is selected, please provide a description of that standard.

6.2.1.2- MHPAEA Does the State provide mental health and/or substance use disorder benefits?

Yes

No

6.2.2- MHPAEA Section 2103(c)(6)(B) of the Social Security Act (the Act) provides that to the extent a State child health plan includes coverage of early and periodic screening, diagnostic, and treatment services (EPSDT) defined in section 1905(r) of the Act and provided in accordance with section 1902(a)(43) of the Act, the plan shall be deemed to satisfy the parity requirements of section 2103(c)(6)(A) of the Act.

6.2.2.1- MHPAEA Does the State child health plan provide coverage of EPSDT? The State must provide for coverage of EPSDT benefits, consistent with Medicaid statutory requirements, as indicated in section 6.2.26 of the State child health plan in order to answer “yes.”

Yes

No

6.2.2.2- MHPAEA EPSDT benefits are provided to the following:

All children covered under the State child health plan.

A subset of children covered under the State child health plan.

Please describe the different populations (if applicable) covered under the State child health plan that are provided EPSDT benefits consistent with Medicaid statutory requirements.

6.2.2.3- MHPAEA To be deemed compliant with the MHPAEA parity requirements, States must provide EPSDT in accordance with sections 1902(a)(43) and 1905(r) of the Act (42 CFR 457.496(b)). The State assures each of the following for children eligible for EPSDT under the separate State child health plan:

All screening services, including screenings for mental health and substance use disorder conditions, are provided at intervals that align with a periodicity schedule that meets reasonable standards of medical or dental practice as well as when medically necessary to determine the existence of suspected illness or conditions. (Section 1905(r))

All diagnostic services described in 1905(a) of the Act are provided as needed to

diagnose suspected conditions or illnesses discovered through screening services, whether or not those services are covered under the Medicaid state plan. (Section 1905(r))

All items and services described in section 1905(a) of the Act are provided when needed to correct or ameliorate a defect or any physical or mental illnesses and conditions discovered by the screening services, whether or not such services are covered under the Medicaid State plan. (Section 1905(r)(5))

Treatment limitations applied to services provided under the EPSDT benefit are not limited based on a monetary cap or budgetary constraints and may be exceeded as medically necessary to correct or ameliorate a medical or physical condition or illness. (Section 1905(r)(5))

Non-quantitative treatment limitations, such as definitions of medical necessity or criteria for medical necessity, are applied in an individualized manner that does not preclude coverage of any items or services necessary to correct or ameliorate any medical or physical condition or illness. (Section 1905(r)(5))

EPSDT benefits are not excluded on the basis of any condition, disorder, or diagnosis. (Section 1905(r)(5))

The provision of all requested EPSDT screening services, as well as any corrective treatments needed based on those screening services, are provided or arranged for as necessary. (Section 1902(a)(43))

All families with children eligible for the EPSDT benefit under the separate State child health plan are provided information and informed about the full range of services available to them. (Section 1902(a)(43)(A))

6.3 The state assures that, with respect to pre-existing medical conditions, one of the following two statements applies to its plan: (42CFR 457.480)

6.3.1. X The state shall not permit the imposition of any pre-existing medical condition exclusion for covered services (Section 2102(b)(1)(B)(ii));
OR

6.3.2. The state contracts with a group health plan or group health insurance coverage, or contracts with a group health plan to provide family coverage under a waiver (see Section 6.4.2. of the template). Pre-existing medical conditions are permitted to the extent allowed by HIPAA/ERISA (Section 2103(f)). Please describe: *Previously 8.6*

6.4 Additional Purchase Options. If the state wishes to provide services under the plan through cost effective alternatives or the purchase of family coverage, it must request the appropriate option. To be approved, the state must address the following: (Section 2105(c)(2) and(3)) (42 CFR 457.1005 and 457.1010)

6.4.1. Cost Effective Coverage. Payment may be made to a state in excess of the 10% limitation on use of funds for payments for: 1) other child health assistance for targeted low-income children; 2) expenditures for health services initiatives under the plan for improving the health of children (including targeted low-income children and other low-income children); 3) expenditures for outreach activities as provided in section 2102(c)(1) under the plan; and 4) other reasonable costs incurred by the state to administer the plan, if it demonstrates the following (42CFR 457.1005(a)):

6.4.1.1. Coverage provided to targeted low-income children through such expenditures must meet the coverage requirements above; Describe the coverage provided by the alternative delivery system. The state may cross reference section 6.2.1 - 6.2.28. (Section 2105(c)(2)(B)(i)) (42CFR 457.1005(b))

Describe the community based delivery system. (Section 2105(c)(2)(B)(iii)) (42CFR 457.1005(a))

6.4.2. Purchase of Family Coverage. Describe the plan to purchase family coverage. 6.4.2.1. Purchase of family coverage is cost-effective relative to the amounts that the state would have paid to obtain

comparable coverage only of the targeted low-income children involved; and (Describe the associated costs for purchasing the family coverage relative to the coverage for the low income children.) (Section 2105(c)(3)(A)) (42CFR 457.1010(a))

6.4.2.2. The state assures that the family coverage would not otherwise substitute for health insurance coverage that would be provided to such children but for the purchase of family coverage. (Section 2105(c)(3)(B)) (42CFR 457.1010(b))

6.4.2.3. The state assures that the coverage for the family otherwise meets title XXI requirements. (42CFR 457.1010(c))

Section 7

Quality and Appropriateness of Care

Section 7. Quality and Appropriateness of Care

Check here if the state elects to use funds provided under Title XXI only to provide expanded eligibility under the state's Medicaid plan, and continue on to Section 8.

7.1. Describe the methods (including external and internal monitoring) used to assure the quality and appropriateness of care, particularly with respect to well-baby care, well-child care, and immunizations provided under the plan. (2102(a)(7)(A)) (42CFR 457.495(a))

The KidsCare Program uses performance measures, quality standards, information strategies and quality improvement studies to assure high quality care for members. The tools include:

- Quality standards defined in policy and contract
- Annual on-site operational and financial reviews
- Performance indicator and utilization measurement studies
- Compliance with national quality measures

**Will the state utilize any of the following tools to assure quality?
(Check all that apply and describe the activities for any categories utilized.)**

7.1.1. X Quality standards

Each contractor adheres to specific quality/utilization standards established by AHCCCS for the KidsCare Program. A comprehensive plan prepared by the contractor includes the following components:

- Program monitoring
- Program evaluation
- Member education
- Provider education
- Compliance with mandatory components of preventive care visits.

Contractors participate in an annual review of the KidsCare program which includes on-site visits by AHCCCS staff to contractors and medical record audits.

AHCCCS monitors compliance with quality assurance standards through an established process of operational and financial reviews for the Medicaid program. The reviews are conducted by a review team comprised of AHCCCS staff. The reviews are performed on-site through interviews with appropriate personnel and through review of documentation in the following areas:

- Administration and Management
- Provider Services/Network Management
- Grievance and Appeals
- Medical Management

- Quality/Utilization Management
- Dental Services
- Maternal Health/Family Planning
- Behavioral Health
- Delivery System and Access to Care Standards
- Member Services
- Financial

The review tool contains standards from the review areas identified above and provides the basis for assessing contractor performance, as well as identifying areas where improvements can be made or where there are areas of noteworthy performance and accomplishment.

7.1.2. X Performance measurement

AHCCCS requires contractors to meet the AHCCCS performance measures which are defined using HEDIS methodology as a guide. In particular, performance measurement will focus on the following areas:

- Age appropriate childhood immunizations
- Dental visits
- Well child visits in the first 15 months of life
- Well child visits in the third, fourth, fifth, and sixth year of life
- Access to a regular source of primary care

Indicator	Summary Description
1. Childhood Immunization Rate	The percent of members age two who were continuously enrolled for 12 months and received recommended immunizations.
2. Annual Dental Visit	The percent of members age 3-19 with at least one dental visit in the reporting year.
3. Well Child Visits Under 15 Months	The percent of children age 15 months who received all recommended well child visits during the reporting year.
4. Well Child Visits for 3, 4, 5 and 6 Year Olds	The percent of children 3-6 who received a well child visit during the last year.

7.1.3. X Information strategies

All contractors must inform new members about services within ten days of enrollment. Information includes:

- Benefits of preventive care
- A complete description of services available
- How to obtain these services and assistance with scheduling of appointments

- A statement regarding copayments which may be required

In addition, both eligibility workers and contractors are required to educate KidsCare Program enrollees about their benefits, rights and responsibilities. This education focuses on the importance of preventive services, such as immunizations and dental visits, health promotion activities and the importance of regular visits to their primary care provider instead of using the emergency room for primary care.

7.1.4. X Quality improvement strategies

AHCCCS began a Quality Improvement Initiative in 1995 designed to use encounter data to monitor quality and to test new concepts of quality of care based on many of the recommendations for measurement from the Quality Assurance Reform Initiative (QARI) and the National Committee for Quality Assurance. The major components of the Initiative include:

Performance Measures as listed in subsection 7.1.2.

Financial Measures of health plan fiscal viability, management of care, timely payment of claims and documentation of medical expenses.

Member Satisfaction Surveys conducted to provide information on access to care, communication between members and providers, and quality of care.

Provider Satisfaction Surveys designed to assess primary care practitioners' satisfaction with the KidsCare Program.

In the future, the Consumer Assessment of Health Plans Survey (CAHPS) data may be incorporated into AHCCCS' Quality Improvement Initiative, as well as any new reporting requirements which may be developed.

7.2. Describe the methods used, including monitoring, to assure: (2102(a)(7)(B)) (42CFR 457.495)

7.2.1 Access to well-baby care, well-child care, well-adolescent care and childhood and adolescent immunizations. (Section 2102(a)(7)) (42CFR 457.495(a))

Effective October 1, 2001 KidsCare members are eligible for the same services covered for members under the Title XIX program, as specified in the acute-care renewal contract.

The AHCCCS Medical Policy Manual further specifies that KidsCare services must be provided according to community standards and standards under Title XIX for Early and Periodic Screening, Diagnosis and Treatment (EPSDT)

enrolled members. This ensures access to well-baby care, well-child care, well-adolescent care and childhood and adolescent immunizations.

The AHCCCS Medical Policy Manual also states that, "Contractors must comply with all Quality Management and Quality Improvement requirements." Acute-care contractors are encouraged to include in their EPSDT annual plans and quarterly progress reports activities that will ensure access to services by KidsCare members and/or acknowledge that EPSDT activities apply to both Title XIX and Title XXI members. These reports include monitoring and evaluation of utilization of services.

Members enrolled under the KidsCare Program are included in analysis of the AHCCCS acute-care Performance Indicators for well-child and dental visits. Title XXI members are reported separately for immunizations and children's access to PCPs. The KidsCare population also is included in medical audits, as appropriate.

Additional monitoring is accomplished through the OFR process.

7.2.2 Access to covered services, including emergency services as defined in 42 CFR 457.10. (Section 2102(a)(7)) 42CFR 457.495(b))

AHCCCS requires all contractors to have sufficient provider capacity to absorb the additional KidsCare enrollment. Currently, all AHCCCS members have a choice of at least two contractors.

Contractors are required to meet the AHCCCS contractual standards for network capacity for primary care providers (PCPs). These standards include appointment availability, geographic accessibility, quality and utilization. AHCCCSA informs all health plans when a PCP, contracted with more than one contractor, exceeds 1800 AHCCCS members in their panel. This allows the health plans to more closely monitor these PCPs' adherence to the standards. All Contractors have a system in place to monitor and ensure that each member is assigned to an individual PCP and that PCP assignment data is current. Members are allowed to choose their initial PCP from the health plan network and change the assignment should they wish to do so.

In addition, KidsCare enrollees are assured access through existing AHCCCS standards for appointment standards for emergency, urgent and routine care, specialty providers, and dentists.

Contractors provide emergency services facilities adequately staffed by qualified medical professionals to provide emergency care on a 24-hour per day, 7-day per week basis for treatment of medically emergent conditions. Contractors must educate members about the appropriate utilization of emergency room services and monitor utilization by both members and providers.

AHCCCS, through its operational and financial reviews, monitors contractor compliance with these standards. The health plans are also required to submit a description of their networks to the Agency on a quarterly basis.

.2.3 Appropriate and timely procedures to monitor and treat enrollees with chronic, complex, or serious medical conditions, including access to an adequate number of visits to specialists experienced in treating the specific medical condition and access to out-of-network providers when the network is not adequate for the enrollee's medical condition. (Section 2102(a)(7)) (42CFR 457.495(c))

Contractors must follow care coordination policies set forth in of the AHCCCS Medical Policy Manual. These requirements include policies and procedures for identifying members with complex, serious and/or at-risk medical conditions, assessing those conditions, identifying medical procedures to address and/or monitor the conditions, ensuring adequate care coordination among providers, and developing a plan of care appropriate to those conditions. The care plan must eliminate barriers to direct access to specialists, provide adequate access to support services, be time-specific, and be updated periodically.

Children with certain chronic, complex, or serious medical conditions receive services related to those conditions through the Children's Rehabilitative Services (CRS) program administered by the Arizona Department of Health Services. Contractors refer members who are potentially eligible for CRS services to the program for evaluation and enrollment if eligible. Contractors are required to monitor referrals to CRS and ensure that CRS-covered services are provided in a timely manner to eligible children. PCPs are required to coordinate care with CRS and to include those services in the member's medical record.

PCPs are accountable for maintaining a medical record which incorporates documentation of all health care services provided to assigned members, including PCP services, specialty medical and/or behavioral health services, all medications prescribed by the PCP and/or other providers, authorized durable medical equipment, dental services, emergency care, and hospitalizations, as required in the AHCCCS Medical Policy Manual. Contractors monitor PCP compliance with medical record keeping requirements through regular chart audits.

Contractors must ensure that appointments standards are met for specialty referrals within the following timeframes: emergency, within 24 hours of referral; urgent, within three days of referral; and routine, within 45 days of referral. Contractors monitor provider compliance with appointment standards through "secret shopper phone calls or regular/periodic on-site visits."

Indian Health Services and 638 Tribal Facilities are responsible for maintaining continuity of care and maintaining a complete medical record for each assigned member, as well as providing necessary referrals for specialty care.

AHCCCS monitors and assesses contractors' care coordination and case management processes, including referral to Children's Rehabilitative Services (CRS) and behavioral health services, through the Operational Financial Reviews (OFRs). Contractor compliance with appointment availability standards and QM/QI requirements also are evaluated in the OFRs.

7.2.4 Decisions related to the prior authorization of health services are completed in accordance with state law or, in accordance with the medical needs of the patient, within 14 days after the receipt of a request for services. (Section 2102(a)(7)) (42CFR 457.495(d))

The state complies with this requirement of decisions related to the prior authorization of health services. The timeframe for prior authorization of decisions is the same in SCHIP as in the Medicaid program.

Section 8

Cost Sharing and Payment

Section 8. Cost Sharing and Payment (Section 2103(e))

Check here if the state elects to use funds provided under Title XXI only to provide expanded eligibility under the state's Medicaid plan, and continue on to Section 9.

8.1. Is cost-sharing imposed on any of the children covered under the plan? (42CFR 457.505)

- 8.1.1. X YES
- 8.1.2. NO, skip to question 8.8.

8.2. Describe the amount of cost-sharing, any sliding scale based on income, the group or groups of enrollees that may be subject to the charge and the service for which the charge is imposed or time period for the charge, as appropriate. (Section 2103(e)(1)(A)) (42CFR 457.505(a), 457.510(b) &(c), 457.515(a)&(c))

At State discretion, premiums may be temporarily waived for CHIP applicants and/or existing beneficiaries who reside and/or work in a State or Federally declared disaster area for the duration of the declared emergency.

8.2.1. Premiums:

On October 1, 1999, AHCCCS began imposing monthly premiums on families whose income exceeded 150 percent of the FPL.

AHCCCS worked collaboratively with KidsCare stakeholders to develop the premium billing proposal based on these goals:

- Insure more children.
- Promote accountability and responsibility.
- Notify KidsCare members of their premium rights and responsibilities.
- Reduce administrative costs and implement a simplified system.
- Have a process that is clear and understandable to the members.

The following is the premium billing and collection process:

- Payments are accepted on a monthly basis.
- The cost sharing methodology does not favor children from families with higher incomes over families with lower incomes.
- AHCCCS ensures that premiums are not assessed on Native American or Alaska Native populations.
- AHCCCS monitors the number of persons who are disenrolled due to nonpayment of premiums and notifies KidsCare members about their premium rights and responsibilities.
- The first monthly premium is not required prior to initial enrollment in the program.
- All premium payments are due by the 15th day of each month of enrollment.
- If the payment is not made by the due date, a past due notice will be sent with a request for payment no later than the last day of the month.

Effective May 1, 2009, the premium amounts for children when parents are not enrolled are as follows:

PREMIUM AMOUNTS

Federal Poverty Levels (FPL)	1st Child	More than 1 Child
100% to 150%	\$10.00	\$15.00
151% - 175%	\$40.00	\$60.00 Total
176% - 200%	\$50.00	\$70.00 Total

8.2.2. Deductibles: Not Applicable

8.2.3. Coinsurance or copayments: No copayments are charged.

8.2.4. Other: N/A

8.3. Describe how the public will be notified, including the public schedule, of this cost-sharing (including the cumulative maximum) and changes to these amounts and any differences based on income. (Section 2103(e)(1)(B)) (42CFR 457.505(b))

Information about cost sharing is included in the following:

- Member notices will be sent prior to implementation
- Education and application materials.
- Member handbooks provided by KidsCare contractors.
- *Arizona Administrative Register* and other rulemaking activities conducted by the AHCCCS Administration.
- Native American newsletters and meetings make it clear that the Native American and Alaska Native populations are exempt from paying any cost sharing.
- Posted on the AHCCCS public website
- Presented to the State Medicaid Advisory Committee

8.4. The state assures that it has made the following findings with respect to the cost sharing in its plan: (Section 2103(e))

8.4.1. X Cost-sharing does not favor children from higher income families over lower income families. (Section 2103(e)(1)(B)) (42CFR 457.530)

8.4.2. X No cost-sharing applies to well-baby and well-child care, including age-appropriate immunizations. (Section 2103(e)(2)) (42CFR 457.520)

Effective Date: 05-01-09

Approval Date: 04/13/09

Implementation date: June 1, 2009

8.4.3 X No additional cost-sharing applies to the costs of emergency medical services delivered outside the network. (Section 2103(e)(1)(A)) (42CFR 457.515(f))
The state assures enrollees will not be held liable for cost-sharing amounts for emergency services that are provided at a facility that does not participate in the enrollee's managed care network.

8.5. Describe how the state will ensure that the annual aggregate cost-sharing for a family does not exceed 5 percent of such family's income for the length of the child's eligibility period in the State. Include a description of the procedures that do not primarily rely on a refund given by the state for overpayment by an enrollee: (Section 2103(e)(3)(B)) (42CFR 457.560(b) and 457.505(e))

Premiums will not exceed the five percent cumulative maximum. Families are advised on the notice of approval that the total cost sharing under KidsCare can not exceed five percent of the families' income. Families are advised to contact AHCCCS if the total cost sharing exceeds the five percent limit. Upon notification, AHCCCS makes changes to the system to stop the imposition of monthly premiums.

8.6 Describe the procedures the state will use to ensure American Indian (as defined by the Indian Health Care Improvement Act of 1976) and Alaska Native children will be excluded from cost-sharing. (Section 2103(b)(3)(D)) (42CFR 457.535)

The Application for AHCCCS Health Insurance requests information about the child's race. If the child is American Indian or Alaska Native, AHCCCS does not assess a premium or copayment.

8.7 Please provide a description of the consequences for an enrollee or applicant who does not pay a charge. (42CFR 457.570 and 457.505(c))

Exception to Disenrollment for Failure to Pay Premiums—At State discretion, premiums may be waived for CHIP applicants and/or beneficiaries who meet income and other eligibility requirements and who reside and/or work in Governor or FEMA declared disaster areas for the duration of the declared emergency. The premium balance will be waived if the family is determined to have been living or working in FEMA or Governor declared disaster areas based on self-declared application information or other documentation provided by the family.

A. The consequences for non payment of premium are as follows:

1. If the payment is not made by the due date, AHCCCS sends a past due notice with a request for payment no later than the last day of the month.
2. If the payment is not received by the 15th day of the second month, AHCCCS mails a ten-day discontinuance letter. Services are terminated if the delinquent payment is not received the end of the second month. If AHCCCS receives the delinquent payment prior to the end of the second month, there is no break in coverage.
3. Persons may be re-enrolled if all outstanding balances are paid and an updated application is submitted.

B. The following is the hardship exemption to the disenrollment process:

1. The following definitions apply to this Section:
 - a. "Major expense" means the expense is more than 10 percent of the household's countable income
 - b. "Medically necessary" means as defined in 9 A.A.C. R9-22-101.
2. Whenever a monthly statement includes a past due amount and the benefits are at risk of being terminated, AHCCCS sends a separate notice with information about and instructions for requesting a hardship exemption.

- C. The Administration grants a hardship exemption to the disenrollment requirements under A.R.S. § 36-2982 for a household who:
 - 1. Is no longer able to pay the premium due to one of the hardship criteria listed below, and
 - 2. Requests and provides all necessary written verification at the time of request.
- D. The Administration considers the following hardship criteria:
 - 1. Medically necessary expenses or health insurance premiums that:
 - a. Are not covered under Medicaid or other insurance and
 - b. Exceed 10 percent of the household's countable income;
 - 2. Unanticipated major expense, related to the maintenance of shelter or transportation for work;
 - 3. A combination of medically necessary and unanticipated major expenses in this section that exceed 10% of the household's countable income; or
 - 4. Death of a household member.
- E. The Administration must receive the written request and verification of exemption eligible criteria by the 10th day of the month in which the household receives the billing statement containing the current and past due premium notice.
- F. The Administration notifies the head of household concerning the approval or denial of the request for exemption and discontinuance 10 days prior to the end of the month in which the request was received.

8.7.1 Please provide an assurance that the following disenrollment protections are being applied:

X State has established a process that gives enrollees reasonable notice of and an opportunity to pay past due premiums, copayments, coinsurance, deductibles or similar fees prior to disenrollment. (42CFR 457.570(a))

Medicaid rules regarding opportunities for impartial reviews prior to disenrollment apply to SCHIP. The premium payment is due by the 15th day of each month. If the payment is not made by the due date, AHCCCS sends a past due notice with a request for payment no later than the last day of the month. If the payment is not received by the 15th day of the second month, AHCCCS mails a ten-day discontinuance letter. Enrollees are ensured the opportunity to continue benefits pending the outcome of the hearing.

X The disenrollment process affords the enrollee an opportunity to show that the enrollee's family income has declined prior to disenrollment for non payment of cost-sharing charges. (42CFR 457.570(b))

KidsCare members may report a change at any time. If a change in income is reported, AHCCCS reevaluates KidsCare and Medicaid eligibility and the premium amount.

In the instance mentioned above, that the state will facilitate enrolling the child in Medicaid or adjust the child's cost-sharing category as appropriate. (42CFR 457.570(b))

If a change in income results in a lower premium amount, AHCCCS adjusts the premium amount the next prospective month after the change is reported. If the child appears to be Medicaid eligible, AHCCCS refers the application and documentation to the Department of Economic Security for a Medicaid determination.

X The state provides the enrollee with an opportunity for an impartial review to address disenrollment from the program. (42CFR 457.570(c))

AHCCCS sends a notice to the household at least 10 days before benefits are discontinued due to non-payment. The notice includes information about the right to request a hearing and how to request a hearing. If AHCCCS receives the hearing request prior to the discontinuance effective date, AHCCCS may continue benefits pending the outcome of the hearing. Prior to the hearing date, AHCCCS discusses all information with the household to determine if the premium was calculated correctly. If the premium amount is correct, AHCCCS informs the household that the premium amount is correct and that the household has the right to request a hearing. If the premium amount is not correct, AHCCCS corrects the premium amount and the hearing is not necessary.

8.8 The state assures that it has made the following findings with respect to the payment aspects of its plan: (Section 2103(e))

8.8.1. X No Federal funds will be used toward state matching requirements. (Section 2105(c)(4)) (42CFR 457.220)

8.8.2. X No cost-sharing (including premiums, deductibles, copays, coinsurance and all other types) will be used toward state matching requirements. (Section 2105(c)(5) (42CFR 457.224) (Previously 8.4.5)

8.8.3. X No funds under this title will be used for coverage if a private insurer would have been obligated to provide such assistance except for a provision limiting this obligation because the child is eligible under the this title. (Section 2105(c)(6)(A)) (42CFR 457.626(a)(1))

8.8.4. X Income and resource standards and methodologies for determining Medicaid eligibility are not more restrictive than those applied as of June 1, 1997. (Section 2105(d)(1)) (42CFR 457.622(b)(5))

8.8.5. X No funds provided under this title or coverage funded by this title will include coverage of abortion except if necessary to save the life of the mother or if the pregnancy is the result of an act of rape or incest. (Section 2105(c)(7)(B)) (42CFR 457.475)

8.8.6. X No funds provided under this title will be used to pay for any abortion or to assist in the purchase, in whole or in part, for coverage that includes abortion (except as described above). (Section 2105)(c)(7)(A)) (42CFR 457.475)

Section 9

Strategic Objectives and Performance Goals & Plan Administration

Section 9. Strategic Objectives and Performance Goals and Plan Administration (Section 2107)

9.1. Describe strategic objectives for increasing the extent of creditable health coverage among targeted low-income children and other low-income children: (Section 2107(a)(2)) (42CFR 457.710(b))

Arizona has established the following strategic objectives for the KidsCare Program:

- Decrease the percentage of children in Arizona who are uninsured or who do not have a regular source of health care.
- Improve the health status of children enrolled in KidsCare in Arizona through a focus on early preventive and primary care.
- Ensure that KidsCare eligible children in Arizona have access to a regular source of care and ensure utilization of health care by enrolled children.
- Avoid “crowd out” of employer coverage.
- Coordinate with other health care programs providing services to children to ensure a seamless system of coverage.

9.2. Specify one or more performance goals for each strategic objective identified: (Section 2107(a)(3)) (42CFR 457.710(c))

- Decrease the percentage of children in Arizona who are uninsured. (In the first year of the KidsCare Program, decrease the percentage of children with income under 150% of FPL who are uninsured and, in subsequent years, decrease the number of children with income under 200% of FPL who are uninsured.)
- Screen 100 percent of applications to determine if the child was covered by employer sponsored insurance within the last three months. If however, a child has exceeded the lifetime limit to his or her employer sponsored insurance policy; the child will not be required to go bare for three months.
- Improve the number of KidsCare eligible children who receive preventive and primary care by meeting goals according to Health People 2010:
 1. 90 percent of children under two will receive age appropriate immunizations;
 2. 90 percent of children under 15 months will receive the recommended number of well child visits;
 3. 90 percent of three, four, five, and six year olds will have at least one well-child visit during the year;
 4. 90 percent of children will have at least one dental visit during the year; and
- Ensure that KidsCare enrolled children receive access to a regular source of care:

1. 100 percent of enrolled children will be assigned a PCP; and
2. 90 percent of KidsCare children will see a PCP at least once during the first 12 months of enrollment.

9.3. Describe how performance under the plan will be measured through objective, independently verifiable means and compared against performance goals in order to determine the state's performance, taking into account suggested performance indicators as specified below or other indicators the state develops: (Section 2107(a)(4)(A),(B)) (42CFR 457.710(d))

Check the applicable suggested performance measurements listed below that the state plans to use: (Section 2107(a)(4))

- 9.3.1. X The increase in the percentage of Medicaid-eligible children enrolled in Medicaid.**
- 9.3.2. X The reduction in the percentage of uninsured children.**
- 9.3.3. X The increase in the percentage of children with a usual source of care.**
- 9.3.4. X The extent to which outcome measures show progress on one or more of the health problems identified by the state.**
- 9.3.5. HEDIS Measurement Set relevant to children and adolescents younger than 19.**
- 9.3.6. Other child appropriate measurement set. List or describe the set used.**
- 9.3.7. X If not utilizing the entire HEDIS Measurement Set, specify which measures will be collected, such as:**
 - 9.3.7.1. X Immunizations**
 - 9.3.7.2. X Well child care**
 - 9.3.7.3. Adolescent well visits**
 - 9.3.7.4. X Satisfaction with care**
 - 9.3.7.5. Mental health**
 - 9.3.7.6. X Dental care**
 - 9.3.7.7. Other, please list:**
- 9.3.8. Performance measures for special targeted populations.**

- 9.4. X The state assures it will collect all data, maintain records and furnish reports to the Secretary at the times and in the standardized format that the Secretary requires. (Section 2107(b)(1)) (42CFR 457.720)**
- 9.5. X The state assures it will comply with the annual assessment and evaluation required under Section 10. Briefly describe the state's plan for these annual assessments and reports. (Section 2107(b)(2)) (42CFR 457.750)**
 AHCCCS will perform the annual assessments and evaluations required in Section 10. The annual report will include an assessment and update on the operation of the KidsCare Program, including the increase in the percentage of Medicaid eligible children enrolled in Medicaid and the reduction in the percentage of uninsured children will be calculated from CPS data.
- As addressed in Section 7, AHCCCS will measure the KidsCare Program's progress toward meeting its strategic objectives and performance goals through an evaluation of the contractors using encounter data and medical chart audits, with particular emphasis on preventive and primary care measures.
- In addition, annual Operational and Financial Reviews of the KidsCare contractors and reviews of the Quality Management Plans addressing quality standards and how contractors propose to meet those standards will assist AHCCCS in ensuring the quality of health coverage.
- 9.6. X The state assures it will provide the Secretary with access to any records or information relating to the plan for purposes of review of audit. (Section 2107(b)(3)) (42CFR 457.720)**
- 9.7. X The state assures that, in developing performance measures, it will modify those measures to meet national requirements when such requirements are developed. (42CFR 457.710(e))**
- 9.8. The state assures, to the extent they apply, that the following provisions of the Social Security Act will apply under Title XXI, to the same extent they apply to a state under Title XIX: (Section 2107(e)) (42CFR 457.135)**
- 9.8.1. X Section 1902(a)(4)(C) (relating to conflict of interest standards)**
 - 9.8.2. X Paragraphs (2), (16) and (17) of Section 1903(i) (relating to limitations on payment)**
 - 9.8.3. X Section 1903(w) (relating to limitations on provider donations and taxes)**
 - 9.8.4. X Section 1132 (relating to periods within which claims must be filed)**

9.9. Describe the process used by the state to accomplish involvement of the public in the design and implementation of the plan and the method for insuring ongoing public involvement. (Section 2107(c)) (42CFR 457.120(a) and (b))

Arizona has developed a collaborative process with many interested parties in the design, implementation and evaluation of the KidsCare State Plan. The state has a process for conducting a statewide collaborative effort to provide the community with awareness, education and an opportunity to shape the KidsCare Program (see Attachment N). The Children's Action Alliance also held public forums to discuss the parameters of the KidsCare Program.

In December 1997, the Governor convened a KidsCare Task Force consisting of state legislators, state agencies, representatives from the hospital and medical industry, advocacy organizations and tribal organization to develop recommendations about how targeted, low-income children could best be served by the funds available under Title XXI. The members of this task force are identified in Attachment O. The Governor's Office also convened a special meeting for the 21 Arizona tribes to discuss tribal issues.

The Governor worked with key legislators and other interested parties to introduce legislation on KidsCare. This legislation and the public hearings provided significant opportunities for state legislators and the public to comment and participate in the development of the KidsCare Program. In these legislative hearings, there has been overwhelming support from the community as evidenced by the testimony in support of the program. In addition to the legislative hearings, the community has endorsed this KidsCare Program as shown in Attachment P.

AHCCCS convened two public hearings to discuss the proposed State Plan. Over 275 persons were sent a copy of the State Plan and invited to the hearings. Over 70 persons attended the hearings which included an overview of the State Plan and an open forum for comments, questions and answers. The majority of the discussion involved questions about the operation of the program or the potential for state legislative changes which were answered at the hearing. The suggestions for changes to the State Plan and comments from AHCCCS are summarized in Attachment Q.

As part of Senate Bill 1008, the legislature requires annual reports beginning January 1, 2000, containing the following information:

1. The number of children served by the program.
2. The state and federal expenditures for the program for the previous fiscal year.
3. A comparison of the expenditures for the previous fiscal year with the expected federal funding for the next fiscal year.
4. Whether the federal funding for the next fiscal years will be sufficient to provide services at the current percentage of the FPL or whether an enrollment cap may be needed.
5. Any recommendations for changes to the program will be submitted to the Governor, the President of the Senate, Speaker of the House of Representatives, Secretary of State, the Director of the Department of Library,

As part of the public process, AHCCCS held two public hearings on the proposed State Plan to provide the public with an opportunity to comment and will also hold public hearings on all proposed rules for this program.

AHCCCS has included KidsCare as a regular agenda item for discussion with the State Medicaid Advisory Committee and is working closely with health plans who will be responsible for the delivery of services through the following forums:

- AHCCCS Health Plan meetings
- Medical Directors' meetings
- Quality Management and Maternal Child Health meetings
- Other types of meetings (e.g., one-on-one meetings, rule meetings and State Plan meetings).

Please see sections 9.9.1 and 9.9.2 for a description of ongoing public involvement opportunities.

9.9.1 Describe the process used by the state to ensure interaction with Indian Tribes and organizations in the state on the development and implementation of the procedures required in 42 CFR 457.125. (Section 2107(c)) (42CFR 457.120(c))

AHCCCS has an ongoing communication with the tribal communities. (See section 2.2.1. and 4.4.5. and 8.3.) An article was written in the KidsCare News to communicate to the communities that no cost sharing is required. The Application for AHCCCS Health Insurance requests information about the child's race. If the child is American Indian or Alaska Native, this information is input into the KEDS automated system which reads the race code and assigns a premium amount of zero.

9.9.2 For an amendment relating to eligibility or benefits (including cost sharing and enrollment procedures), please describe how and when prior public notice was provided as required in 457.65(b) through (d).

The public has the ability to be involved through the legislative and/or rulemaking process. During the Legislative session, there are many opportunities that the public can make comment to the House of Representatives or Senate. (See section 9.9)

AHCCCS ensures the public has the opportunity to be involved in the rulemaking process from the beginning to end. Initially, AHCCCS opens a docket and files a notice with the Secretary of State in the *Arizona Administrative Register*. Next, AHCCCS files proposed rules and notice with the Secretary of State in the *Arizona Administrative Register*. After that, AHCCCS receives written and oral comments from the public. The next step, involves a public hearing. The agency then reviews public comments and makes necessary changes to the proposed rules. In conclusion, the agency

submits rules to the Governor's Regulatory Review Council for approval. The agency appears before the Council to answer questions regarding the rules. At this time, the public has one more opportunity to express their opinion (approval or disapproval) of the rule. After the Council approves the rules, the rule package is then filed with the Secretary of State.

Public notice for enrollment cap

Prior public notice of the enrollment cap, effective January 1, 2010, will be communicated to the public by publication in the Arizona Administrative Register by the Secretary of State, posting on the AHCCCS Administration's internet website, written communication to the Legislature and Governor, the State Medicaid Advisory Committee, and other interested stakeholders. Notice to the public was also provided on October 9, 2009, when AHCCCS posted information about the potential impact of implementing a 15% reduction which identified elimination of the KidsCare program as a discretionary program that would not jeopardize federal stimulus dollars or voter protected programs. Finally, a public hearing with the opportunity to present public comments will be held on December 29, 2009 and tribal consultation will be held on December 28, 2009.

Public notice for cost-sharing

AHCCCS provided many avenues for public involvement in the Cost Sharing implementation.

The Office of Community Relations provided Community and Provider Forums in which participants and AHCCCS staff discussed the cost-sharing changes, as well as additional information on other AHCCCS program changes and future updates. These forums were held in: Flagstaff, Tucson, Phoenix (2), and Yuma from August 26, 2003 to September 23, 2003. 404 providers, 356 community members, advocates, interested individuals, etc attended the forums. The Arizona Republic published a two-paragraph description of the Forums under the Health Briefs.

The Public Information Office had a brief description of the Forums in the Arizona Republic, which is Arizona's statewide newspaper.

The Office of Legal Assistance conducted Public Hearings in Phoenix, Tucson, and Flagstaff to reach individuals in the Northern, Central or Southern areas of Arizona. Information about date, time, and place of the Public Hearings as well as the proposed rule language were posted September 4, 2003 on the AHCCCS website (www.ahcccs.state.az.us). AHCCCS accepted comments from the public on the rules from September 4, 2003 until close of business on September 24, 2003.

Seventeen individuals attended the public hearings held in Phoenix, Flagstaff, and Tucson. Prior to the hearings the agency received 7 written comments and, during the hearings, received public testimony from another 6 individuals. The majority of comments were from pharmacists or pharmaceutical companies concerned about the actual implementation of copays at the pharmacy counter. Comments were reviewed and merits discussed with executive management. On September 29, 2003 the final rules were filed with the Secretary of State's office and subsequently published in the Arizona Administrative Register on October 24, 2003. The following is a summary of the principle comments received at the public hearing and the agency's response.

PRINCIPLE COMMENTS

Does pharmacy co-pays suggest that consumers will have a choice between a branded or generic product? Almost all of the health plans that serve TXIX population have a mandatory generic policy in place, therefore branded products that have generic equivalents will generally reject at the pharmacy level with a message to use the generic product. Can you please clarify the proposed changes for prescription copayments.

R 9-22-711 E identifies the individuals who are subject to specific brand and generic co-payments and that the provider may deny a service if the member does not pay the required co-payment. What are the implications to the pharmacy if they deny service?

Federal Regulations prohibit pharmacies from collecting co-payments from Medicaid population when the individual refuses or is unable to pay the co-payment. Does A.R.S.36-2903.01 meet the federal standard? Has it been waived? If an individual refuses or is unable to pay the co-payment what actions may the pharmacy take regarding prescription services? Can they deny services

AHCCCS RESPONSE

The health plan practice regarding pharmacy management has not changed. A member is not allowed to pay the higher amount to have brand name medication. However, most health plans have brand name medication available as off formulary which would require prior authorization.

The implications for the pharmacy are the same as if any other person with another type of insurance would not have the money to pay the copay.

Federal law prohibits services to be denied for the categorical "entitled" groups. However, services can be denied if copayments are not made by the non-categorical groups.

A Public Hearing was held in Phoenix on January 12, 2004 regarding the February 1, 2004 premium increase. No testimony was received either verbally or in writing.

One of the areas targeted by the Arizona legislature in various legislative hearings was an increase in the monthly premiums that would be paid by families who had children or adults enrolled in a SCHIP program. The February 2004 increase is the result of the legislative mandate to enhance cost sharing. Interested parties had an opportunity to testify in the several public hearings and during the public hearings on the changes to AHCCCS' rules. In addition, the attached notice was sent to all who had children enrolled with KidsCare who would be affected by the increase in monthly premiums.

Public notice for the July 1, 2004 premium implementation for families with income between 100% and 150% of the FPL is scheduled for May 7, 2004. The Public Hearing will be held on June 9, 2004 to hear testimony on this premium change.

9.10 Provide a one year projected budget. A suggested financial form for the budget is attached. The budget must describe: (Section 2107(d)) (42CFR 457.140)

Planned use of funds, including --

Projected amount to be spent on health services;

Projected amount to be spent on administrative costs, such as outreach, child health initiatives, and evaluation; and

Assumptions on which the budget is based, including cost per child and expected enrollment.

Projected sources of non-Federal plan expenditures, including any requirements for cost-sharing by enrollees.

See Attachment S for the KidsCare Budget. The state share of the program is funded with monies from the Tobacco Tax Fund. The removal of the enrollment cap has no state budget impact because no state match is required. However, the overall CHIP allotment shortfall has a negative state budget impact because CHIP funding for the M-CHIP child expansion population is contingent on availability of funds. Since the CHIP allotment is insufficient, there is a state general fund cost to cover this population at the regular FMAP when CHIP is not available.

Currently, in each GSA, the member may choose between at least two MCOs.

All capitation rates, paid to the MCOs for KidsCare members, have been certified as actuarially sound by the Agency's consultant actuary firm.

Eligibility and Enrollment Matters

12.1 Please describe the review process for eligibility and enrollment matters that complies with 42 CFR 457.1120.

AHCCCS provides the opportunity for an external review (a hearing) with an Administrative Law Judge who works for the Office of Administrative Hearings. The Office of Administrative Hearings is a separate State agency. The right to a hearing is explained on the agency's decision notices which are sent to the primary informant when any action is taken to approve or deny eligibility, stop enrollment or increase the premium amount. The notice provides an explanation of the hearing rights and gives the date by which a hearing must be requested, including the date to request a hearing if the person wants benefits to continue pending the hearing decision.

Health Services Matters

12.2 Please describe the review process for health services matters that complies with 42 CFR 457.1120.

The Administration provides both an informal and a formal review process to resolve health service matters presented by enrollees. The formal review process includes the opportunity for an expedited hearing which includes a formal evidentiary hearing. The hearing is conducted by an impartial third party, an Administrative Law Judge (ALJ), employed by an independent state agency, the Office of Administrative Hearings (OAH).

Enrollees are afforded due process. They may represent themselves or choose to be represented during the process. Additionally, they may fully participate in the process, having the opportunity to review all relevant information and to file supplemental information. If an expedited hearing is requested, it is held within 20-40 days of receipt of the request. State Law requires that the ALJ issue a recommended decision within 20 days from the date of the hearing, and that the Administration issue a decision adopting, modifying, or rejecting the ALJ recommended decision within 30 days. On average, this process is completed in less than 90 days.

If the dispute pertains to a reduction, suspension, or termination of services and the enrollee files the request for expedited hearing within 15 business days of the postmark date of the notice, services will be continued until a final decision is rendered. State regulations and contract additionally authorize a hearing to be conducted on a more abbreviated timeframe if the enrollee establishes cause. Enrollees also have the option of challenging health services matters through an informal grievance process. Once a

grievance determination is issued, the parties may request a formal evidentiary hearing which is conducted by OAH as generally outlined above

Premium Assistance Programs

- 12.3 If providing coverage through a group health plan that does not meet the requirements of 42 CFR 457.1120, please describe how the state will assure that applicants and enrollees have the option to obtain health benefits coverage other than through the group health plan at initial enrollment and at each redetermination of eligibility.**

6 coverage for uninsured, low income children who are under nineteen years of
7 age. Subject to an appropriation by the legislature, tobacco tax monies will
8 be used as the state matching monies. The program will operate within the
9 funding allocated by the legislature, and a cap may be imposed on enrollment
10 if it appears the program will exceed the available funding. If federal
11 monies become unavailable, the program is repealed and services will be
12 terminated.

13 Sec. 13. Additional employees: authorization

14 The Arizona health care cost containment system administration is
15 authorized to hire up to fifty-nine additional full-time equivalent employees
16 to perform eligibility determinations and other requirements of this act.

17 Sec. 14. Conditional effective date

18 This act is effective from and after September 30, 1997 but only if the
19 Arizona health care cost containment system administration's application for
20 a title XXI state children's health insurance program is approved by the
21 federal health care financing administration. If the federal health care
22 financing administration does not approve this act as of October 1, 1998,
23 this act is effective on the date that agency notifies the administration of
24 its approval. The administration shall notify the director of the Arizona
25 legislative council of the date of this notification.

26 Sec. 15. Delayed repeal

27 Section 8 of this act, relating to the joint legislative study
28 committee on the integration of health care services, is repealed from and
29 after December 31, 2001.

30 Sec. 16. Conditional repeal

31 This act is repealed on the date the Arizona health care cost
32 containment system administration determines that federal monies are not
33 available for the program pursuant to section 36-2984, Arizona Revised
34 Statutes, as added by this act. The director of the administration shall
35 notify the director of the Arizona legislative council of this date. The
36 legislature shall submit legislation to restore any statutory sections
37 affected by this conditional repeal.

38 Sec. 17. Appropriation

39 The sum of \$38,400,000 is appropriated from the children's health
40 insurance program fund established pursuant to section 36-2995, Arizona
41 Revised Statutes, as added by this act, to the Arizona health care cost
42 containment system for fiscal year 1998-1999 for the purpose of implementing
43 the children's health insurance program established pursuant to title 36,
44 chapter 29, article 4, Arizona Revised Statutes, as added by this act. All

1 monies remaining unexpended and unencumbered on October 1, 1999 revert to the
2 children's health insurance program fund.

3 Sec. 18. Reimbursement for contractors

4 Before the implementation of the children's health insurance program
5 authorized in title 36, chapter 29, article 4, Arizona Revised Statutes, as
6 added by this act, the Arizona health care cost containment system shall
7 develop actuarially sound rates that shall be used to reimburse the
8 contractors as defined in section 36-2981, Arizona Revised Statutes, as added
9 by this act.

10 Sec. 19. Medical savings accounts; direct service contracts

12 state plan submitted to the federal health care financing administration, the
13 Arizona health care cost containment system administration shall submit a
14 medical savings account amendment to the joint legislative study committee
15 on the integration of health care services. The committee shall review the
16 amendment and provide input on the amendment. Once the joint legislative
17 study committee on the integration of health care services reviews the
18 amendment, the Arizona health care cost containment system administration
19 shall submit the amendment to the federal health care financing
20 administration requesting approval to offer medical savings accounts as an
21 option to the services that are provided to eligible children under title 36,
22 chapter 29, article 4, Arizona Revised Statutes, as added by this act.

23 B. On or before July 1, 1999, the Arizona health care cost containment
24 system administration shall submit a direct service contracts amendment to
25 the title XXI state plan to the joint legislative study committee on the
26 integration of health care services. The study committee shall review the
27 amendment and provide input on the amendment. Once the study committee
28 reviews the amendment, the Arizona health care cost containment system
29 administration shall submit the amendment to the federal health care
30 financing administration to secure title XXI funding to reimburse qualifying
31 health centers and hospitals that contract with the department of health
32 services pursuant to sections 36-2907.06 and 36-2907.08, Arizona Revised

35 system administration shall submit a direct service contracts amendment for
36 waiver authorization to spend more than ten per cent of the monies for
37 administration, outreach and direct services to the joint legislative study

39 shall review the amendment and provide input on the amendment. Once the
40 study committee reviews the amendment, the Arizona health care cost
41 containment system administration shall submit the amendment to the federal
42 health care financing administration requesting waiver authorization to offer
43 services through direct service contracts as an option to the services that

1 are provided to eligible children under title 36, chapter 29, article 4,
2 Arizona Revised Statutes, as added by this act.

3 Sec. 20. Qualifying plans

4 A. A qualifying plan, as defined in section 36-2981, Arizona Revised
5 Statutes, as added by this act, may elect to participate in the children's
6 health insurance program established pursuant to title 36, chapter 29,
7 article 4, Arizona Revised Statutes, as added by this act, subject to all
8 requirements established in that article and in accordance with section
9 36-2989, subsection A, Arizona Revised Statutes, as added by this act.

10 B. The director of the Arizona health care cost containment system

16 companies, related parties, less litigation related expenses, shall be used
17 to maintain existing proven health care programs.

18 Sec. 22. Appropriations; purpose; exemption

23 B. The sum of \$3,000,000 is appropriated from the tobacco tax and
24 health care fund medically needy account to the department of health services
25 for fiscal year 1998-1999 for grants to contracting hospitals pursuant to
26 section 36-2907.08, subsection H, Arizona Revised Statutes.

27 C. The appropriations made in subsections A and B of this section
28 shall be used for medical and health care services to children who are under
29 nineteen years of age and have income at or below one hundred fifty per cent
30 of the federal poverty level.

31 D. The appropriations made in subsections A and B of this section are
32 exempt from the provisions of section 35-190, Arizona Revised Statutes,
33 relating to lapsing of appropriations.

34 Sec. 23. Direct service contracts; reporting

35 The director of the department of health services shall provide to the

Demographic Chart

ATTACHMENT B DESCRIPTION OF DEMOGRAPHIC TABLES

Each table in Attachment B is based on March Current Population Survey (CPS) data. Different years of CPS data are used; however, the methodology for obtaining the estimates contained in the tables is the same. This methodology has been used by Arizona in the population estimates for the 100% of FPL waiver submission and differs from that used by the Census Bureau as described in the next paragraph.

CPS Estimation Methodology

Arizona has made changes in the methodology used to construct the CPS sample on which estimates are based. These changes were instigated by research conducted by the Rand Corporation on problems in using the CPS data to produce state level estimates. The changes in the methodology address concerns raised by Rand researchers, as well as other issues identified through internal conversations after the Rand article was published.

The following changes will make the numbers used in estimating the population eligible for KidsCare and other health coverage expansions as precise and accurate as possible:

The family unit is redefined so it more closely resembles AHCCCS eligibility.

The U.S. Department of Health and Human Services (DHHS) poverty guidelines are used to determine poverty level rather than the Census Bureau poverty thresholds used in the CPS.

Three years of CPS data are pooled, excluding re-interviews, rather than taking the average of three years of CPS estimates.

Estimates of low-income and uninsured populations, however defined, are consistently higher by a couple of percentage points than the Census Bureau's estimates. The main difference is attributable to the redefinition of family units. By redefining "family", many family units are separated into several individual families. This often reduces some family's income and thus increases the poverty estimate.

Attachment Tables

Attachment B includes four tables:

- B-1: Insurance Coverage of Children in Arizona by Selected Demographic Characteristics, 1994 - 1996 Merged CPS, Weighted Percent Applied to 1998 Census Bureau Population Projection for Arizona
- B-2: Insurance Coverage of Children in Arizona by Selected Demographic Characteristics, 1994-1996 Merged CPS, Unweighted Cell Counts
- B-3: Insurance Coverage of Children in Arizona by Eligibility Status, 1994 - 1996 Merged CPS, Weighted Percent Applied to 1998 Census Bureau Population Projection for Arizona
- B-4: Insurance Coverage of Children in Arizona by Eligibility Status, 1994 1996 Merged CPS, Unweighted Cell Counts

The tables that give unweighted cell counts are for information purposes. They illustrate the small size of the sample for many of the category estimates. Categories were broken out based on two criteria: resulting cell size and importance of the breakout for policy considerations. Under coverage type "other public" was included with Medicaid because the cell size for "other public" was so small as to be meaningless. It is also our understanding that after KidsCare implementation, it is not clear that the CPS data will be able to distinguish between KidsCare enrollees and Medicaid enrollees.

Arizona considers the Native American population important from a policy perspective. Therefore, in order to ensure a large enough cell size for a reliable estimate, anyone in the Native American category who also reported their ethnicity as Hispanic were included. If the Native American who reported Hispanic ethnicity were included with all other Hispanics, it would have reduced the Native American cell size by approximately one-third. Some of the cells still have quite small unweighted counts. Caution should be used in comparing across years when cell sizes are so small - what appears to be a large change may in fact be meaningless.

Because the tables by demographic characteristics only look at one dimension, they do not discern the eligible population, which is defined by age and FPL level. The tables by eligibility status distinguish between those who are currently eligible and those who will be eligible under KidsCare, so that coverage may be tracked across time.

There are some discrepancies in the data with respect to coverage. First, there are a large number of children whose ages and incomes would suggest they are Medicaid eligible, yet they report having no insurance coverage. Secondly, there are large numbers of children whose family income exceeds, 175% of FPL, yet they report having Medicaid coverage. Some of this is undoubtedly Medicare, CHAMPUS, MI/MN (or other state coverage) or IHS. However, some of it is reported Medicaid. There is not a good explanation for these discrepancies except interviewer error or respondent misreporting due to recall problems, confusion over question or deceit.

Family and Income Overview

ATTACHMENT G

FAMILY & INCOME OVERVIEW

AHCCCS determines the family's total gross monthly income at the time of application and redetermination.

FAMILY

Family includes the following categories of persons when residing together:

- A married couple and children of either one or both
- An unmarried couple with a common child and other children of either one or both
- A single parent and his or her children
- A child under age 19 who does not live with a parent
- A child and an unborn of the child is included in its parent's household
- Grandparent or other non-parent relatives of a child are not considered part of the household, unless the parent of the child is a minor and lives in the household with the child and grandparent. A child living with a grandparent or other relative instead of a parent is its own household.

INCOME

- AHCCCS counts the families' total gross monthly income after excluding any payments and grants, as specified in 20 CFR Part 416, the Appendix to Subpart K,. No other income deductions or disregards are applied when determining gross income.
- In determining the eligibility for a qualified alien, AHCCCS counts income of any person who executed an affidavit of support on behalf of the qualified alien and the income of the spouse, of the sponsoring individual, as family household income.
- The agency accepts the declaration of income provided on the application. The agency does not perform additional verification, unless there are inconsistencies with information already available to the agency or obtained through data matching or the income is from self-employment.
- For income from self-employment, the agency accepts the self-employed person's income tax records accompanied by the person's statement that current income is consistent with the tax records. In the absence of income tax records, the agency accepts the self-employed person's itemized accounts. When itemized accounts are

not available the agency accepts the self-employed person's declaration of proceeds and subtracts expenses that are verified by vendors or other creditors.

DETERMINING MONTHLY INCOME

AHCCCS projects monthly income based on a reasonable expectation and knowledge of the family's current, past, and future circumstances. AHCCCS converts income received more frequently than monthly by multiplying:

- Weekly amounts by 4.3;
- Bi-weekly amounts by 2.15; and
- Semi-monthly amounts by 2.

AHCCCS converts income received less frequently than monthly as follows:

- If the amount is received quarterly, divide by 4.
- If the amount is received semi-annually, divide by 6.
- If the amount is received annually, divide by 12.
- If the amount is received to cover a specific period of time, such as educational benefits, prorate the amount over the period intended to cover.

Attachment Q

Public Comments and AHCCCS Responses

**ATTACHMENT Q
COMMENTS FROM THE PUBLIC
AND AHCCCS' RESPONSES**

The following are the major comments that AHCCCS received in the two public hearings on the State Plan and in letters received by the agency. Following the comments are AHCCCS' responses. Please note that these comments do not include questions which were asked and answered in the public hearings.

Some of the persons commenting did not believe that they had sufficient time for public comments. AHCCCS acknowledges that the time for comment on the State Plan was compressed in order to submit the State Plan as quickly as possible. However, the State Plan is a reflection of the federal enactment of the Child Health Insurance Plan, and the state legislation which had significant discussion in the past seven months.

Comment - Under Strategic Goals and Objectives, AHCCCS should include an evaluation of special needs of children and assess the adequacy of the provider networks for this population.

Response - AHCCCS will evaluate all children through the indicators rather than by a diagnosis. AHCCCS contractors must meet the needs of each child and ensure that specialty providers are available. The ' network is a critical component in the evaluation of a contractor's ability to deliver services and will be evaluated by AHCCCS before the KidsCare Program begins and during the annual operational reviews.

Comment - AHCCCS may have problems attaining the goal of immunizing 80 percent of the children since there are many locations where a child can be immunized. How will AHCCCS work with the county health departments?

Response: The 80 percent goal is one that AHCCCS believes is attainable. Currently, AHCCCS health plans immunize 75% of Medicaid eligible children. Regarding coordination with other entities who immunize children, AHCCCS is part of a group working on an automated system to track immunizations. This ability will improve the reporting of immunizations.

Comment - The state Plan states that it will decrease the number of uninsured children in the state. This goal does not take into account that some children may receive clinic services as needed but are not considered uninsured.

Response: Added this comment to the State Plan.

Comment - The proposal to add Medical Savings Accounts in the future may be confusing for the parents and not really an option that makes sense for children.

Response - If HCFA approves this proposal, AHCCCS will try to make this option as clear as possible.

Comment. Concerned that prior authorization requirements will hinder special needs children from accessing specialty care.

Response All KidsCare children must have accessible specialty care. By contract, the AHCCCS health plans must meet strict appointment standards. For example, if specialty care is needed on an emergency basis, care must be available within 24-hours of referral. For routine, the care must be available within 30 days of referral.

Comment - Special needs children should be able to disenroll from a health plan during the first three months of enrollment.

Response - AHCCCS will provide 12 months of guaranteed enrollment in the first year of enrollment, allow a family to choose the health plan, commercial carrier, the IHS or 638 tribal facilities and choose an available primary care practitioner. All children will remain enrolled with their chosen provider until the next 12 month anniversary date. AHCCCS does have special circumstances that allow disenrollment before the anniversary date, such as continuity of care, which will be applied to the KidsCare Program.

Comment - Families may not want their child screened for Medicaid.

Response - AHCCCS must ensure that children who are enrolled with KidsCare are not eligible for Medicaid. The family will not be required to enroll a child in Medicaid but KidsCare coverage will not be available for a Medicaid eligible child.

Comment - The immunization package is not as comprehensive as Vaccines for Children coverage. Hepatitis A immunizations should be required for children entering day care.

Response - AHCCCS will use the same vaccine schedule that is required under Medicaid. This schedule is more comprehensive than the Intergroup coverage contained in Attachment K. The Hepatitis A vaccine will be provided.

Comment - Requiring a social security number may be a barrier for some families, including tribal members.

Response - AHCCCS will request a social security number from KidsCare applicants but will not deny eligibility if the family does not provide the social security number and the child is not Medicaid eligible. However, if the child is eligible for Medicaid, a social security number is required and will be requested. If the family does not provide a social security number, AHCCCS cannot enroll a child into KidsCare who is Medicaid eligible.

Comment - An adequate number of applications must be available throughout the state. Please consider allowing sites to duplicate the applications and be sure that the literacy level is appropriate.

Response - AHCCCS will ensure that sufficient applications are available throughout the state, including tribal lands, in a literacy level that makes the application easy to complete. Duplication of the application will be allowed.

Comment - There were many comments expressing concern about the limitations on behavioral health services of 30 inpatient days and 30 outpatient days per year.

Response - This was a legislative decision that AHCCCS must follow. It is more generous than the benchmark coverage under Intergroup. The only way to change this limitation is by an amendment to the KidsCare legislation.

Comment - Would like to see an indicator for well-child visits.

Response - Well child visits are two performance measures -that AHCCCS will use. Please refer to Section 7.

Comment - The 5.0% performance goal for dental visits and 70% for visiting a PCP are too low.

Response - The percentages are higher than most other states can attain through Medicaid. AHCCCS understands that it is not optimum and will work with the contractors and community to improve the percentages.

Comment Cost sharing should be kept at a minimum.

Response AHCCCS will develop the premium levels and share that information with the community before implementation of the premium schedule. The legislature clearly intended that families share in the cost of care based on income. AHCCCS is mindful that copayments and premiums cannot exceed 5% of gross household income.

Comment - Native American children should have an equal opportunity to enroll in the KidsCare Program. How will the eligibility cap impact rural areas if the state is running out of YjdsCare money?

Response - AHCCCS intends to conduct outreach in all areas of , the state, including onreservation, to maximize the opportunity for all persons in the state to apply for the program. Secondly, AHCCCS does not believe that the cap will be reached for'several years, if at all.

Comment - IRS is not allowed to impose cost sharing for tribal members. Several members commented that premiums and copayments should not be assessed on Native Americans whoreceive services from the IHS or 638 tribal facilities.

Response - The legislature established copayments and premiums for all KidsCare enrollees. The Inter Tribal Council did testify before the House Health Committee opposing cost sharing for Native Americans. The Committee did not waive Native Americans from this requirement.

AHCCCS has posed the question to HCFA whether cost sharing is allowed under KidsCare for Native Americans who receive services from an IHS or 638 facility. HCFA has verbally said cost sharing was allowed. AHCCCS will request a written response from HCFA on this issue.

Comment - The Inter Tribal Council of Arizona sent a written comment which stated that minimal tribal consultation has taken place and statements in the State Plan about consultation activities are misleading.

Response - AHCCCS is completely perplexed about this comment. As a member of the Governor's Task Force, the ITCA agreed to facilitate communication, ensure the tribes were informed about the KidsCare Program and encourage tribes to participate in the many meetings. AHCCCS views ITCA as a key partner in this process and, prior to this letter, neither AHCCCS nor the Governor's Office had been advised that the ITCA believed that communication and consultation with the-tribes was lacking.

The Governor's Office convened a Task Force with Indian representation and established subcommittees to discuss eligibility, outreach and cost sharing for KidsCare. All interested parties were invited. AHCCCS did not ask ITCA if they invited representatives from the tribes to these meetings. Although ITCA did attend some of these meetings, tribes did not participate in these subcommittees.

AHCCCS has provided information about KidsCare in many different forums: a newsletter which was mailed to all tribes describing KidsCare with an offer to meet or answer questions, a letter to all tribes offering a presentation on KidsCare and an opportunity for them to comment and meetings with various tribal organizations. AHCCCS then met with any tribe who requested a presentation. AHCCCS also invited all tribes to participate in meetings and outreach strategies and convened a meeting with the Urban Indian Health Care Directors to discuss their issues. The Governor's Office also invited all tribes to attend a special meeting to discuss the KidsCare proposal and any tribal issues. All tribes were sent a copy of the State Plan and were invited to the two public meetings on the State Plan.

In addition, AHCCCS was contacted by the ITCA to help with legislation to include 638 tribal facilities in the KidsCare legislation. AHCCCS drafted this legislation for the ITCA and requested that it be included in the final bill, which it was.

Comment - Children should be allowed to disenroll from a contractor and enroll with IHS or a 638 tribal facility.

Response - Agree. Native American children will be allowed to disenroll from a contractor upon request and enroll with the IHS or 638 tribal facility.

Comment- IHS and the tribes cannot provide services under the Premium Sharing Program or Baby Arizona. IHS and the tribes have problems getting Medicaid reimbursement

Response - The Baby Arizona Program does not provide services. It is a program that allows staff in physician offices to accept Medicaid applications from pregnant women and assist applicants in providing required verification. This facilitates DES in expediting eligibility for pregnant women. There is no reimbursement to the physicians for this assistance. The Premium Sharing Program is a 100% state flanded program established by the legislature as a pilot in four counties. If ITCA believes that IHS or tribal facilities should be allowed to provide the services offered under the Premium Sharing Program, they should approach the legislature for an amendment.

Comment - The existing Medicaid enrollment structure will be used and will have a negative impact on enrollment for Native American children.

Response - The existing Medicaid enrollment structure **will** not be used. Rather, AHCCCS, for the first time, will be performing eligibility for an acute care program. -- The application **will** be streamlined, mail-in applications **will** be accepted and outreach efforts throughout the state, including tribal lands, will be significant. Native American children have all the enrollment options of all other children plus IHS and 638 entities, plus they are allowed to disenroll from a contractor and enroll with IHS a 63 8 tribal entity.

Comment - The cap on the program will be reached before eligible Native American children can be enrolled into KidsCare.

Response - AHCCCS does not believe the cap will be reached for several years, if at all. All children in the state will have an equal opportunity to enroll in the KidsCare Program in the first few years. If a cap is imposed at a later date, it will affect all children in the same manner in the state.. AHCCCS understands the need to ensure that Native Americans are informed early about the program, which is why the agency has been working with the tribes on outreach strategies.

Comment - . AHCCCS needs to provide a portion of the 10% administrative funds to tribal governments to intensify outreach and coordination efforts.

Response - AHCCCS is meeting with tribal representatives to develop strategies that are culturally sensitive and that will be effective for tribal lands and urban Indians. The administrative and outreach funds are extremely tight in the first year of the program. Although no decision has been made to pay for outreach services in any part of the state, AHCCCS is cognizant about tribal resources and will work with the tribes to maximize resources.

Comment -children in Arizona.

The demographic information may underestimate the number of Native American

Response - Agree. However, this is the CPS data provided by the federal government and the best tool we have for estimates.

Comment - Native American children in rural areas do not have access to transportation.

Response - AHCCCS understands that it is difficult in rural areas to access services when non-emergency transportation is not provided. Since the legislature decided that the KidsCare Program would not provide non-emergency transportation, AHCCCS cannot pay for this service for any KidsCare eligible child.

Comment - The state must include all state agencies and external agencies who are responsible for children in the outreach activities for Native American children.

Response - AHCCCS agrees that outreach efforts should be as inclusive as possible.

Comment - Initial outreach efforts must be expanded to Indian and rural communities.

Response - *Strongly* agree that outreach is important to Indian communities and rural communities. This is part of the outreach strategy.

Comment - State must continue to work with the tribes, Indian organizations and three IHS offices in disseminating relevant information.

Response - *Agree*. AHCCCS has every intention of continuing to work not only with the entities listed above but Urban Indian Centers and other appropriate parties.

Comment - The state must ensure the participation of 638 tribal facilities which provide behavioral health services. Prior approval and *referral process* should not hinder services to children.

Response AHCCCS has mailed a letter to each tribe and the 638 Urban Indian Centers advising them about the program and the option for them to use 638 tribal facilities or the Centers to provide care. It will be up to each tribe whether they want to participate. AHCCCS will do all possible to streamline prior approval and referral processes.

General Eligibility – Continuous Eligibility

CHIP Eligibility

State Name:

OMB Control Number: 0938-1148

Transmittal Number: AZ - 22 - 0017

Separate Child Health Insurance Program General Eligibility - Continuous Eligibility

CS27

2107(e)(1)(K) of the SSA and 42 CFR 457.342 and 435.926; 2107(e)(1)(J) and 1902(e)(16) of the SSA

Mandatory 12-Month Postpartum Continuous Eligibility in CHIP for States Electing This Option in Medicaid

At state option in Medicaid, states may elect to provide continuous eligibility for an individual's 12-month postpartum period consistent with section 1902(e)(16) of the SSA. If elected under Medicaid, states are required to provide the same continuous eligibility and extended postpartum period for pregnant individuals in its separate CHIP. A separate CHIP cannot implement this option if not also elected under the Medicaid state plan.

State elected the Medicaid option to provide continuous eligibility through the 12- month postpartum period

The state assures the extended postpartum period available to pregnant targeted low-income children or targeted low-income pregnant women under section 2107(e)(1)(J) of the SSA is provided consistent with the following provisions:

- Individuals who, while pregnant, were eligible and received services under the state child health plan or waiver shall remain eligible throughout the duration of the pregnancy (including any period of retroactive eligibility) and the 12-month postpartum period, beginning on the day the pregnancy ends and ending on the last day of the 12th month consistent with paragraphs (5) and (16) of section 1902(e) of the SSA

Continuous eligibility is provided to targeted low-income children who are pregnant or targeted low-income pregnant women (if applicable) who are eligible for and enrolled under the state child health plan through the end of the 12-month postpartum period who would otherwise lose eligibility because of a change in circumstances, unless:

- The individual or representative requests voluntary disenrollment.
- The individual is no longer a resident of the state.
- The Agency determines that eligibility was erroneously granted at the most recent determination or renewal of eligibility because of Agency error or fraud, abuse, or perjury attributed to the individual.
- The individual dies.

Unlike continuous eligibility for children, states providing the 12-month postpartum period may not end an individual's continuous eligibility due to becoming eligible for Medicaid.

Consistent with section 2107(e)(1)(J) of the SSA, the state assures that continuous eligibility is provided through an individual's pregnancy and 12-month postpartum period regardless of an individual becoming eligible for Medicaid.

Benefits provided during the 12-month postpartum period must be the same scope of comprehensive services consistent with the benefit package elected by the state under section 2103(a) of the SSA that is available to targeted low-income children and/or targeted low-income pregnant women and may include additional benefits as described in Section 6 of the CHIP state plan.

CHIP Eligibility

Mandatory Continuous Eligibility for Children

The CHIP Agency must provide that children who have been determined eligible under the state plan shall remain eligible, regardless of any changes in the family's circumstances, for a 12-month continuous eligibility period.

Consistent with section 2107(e)(1)(K) of the SSA, the state assures that continuous eligibility is provided to its targeted low-income children for a duration of 12 months, regardless of any changes in circumstances, unless:

- The child attains age 19.
- The child or child's representative requests voluntary disenrollment.
- The child is no longer a resident of the state.
- The Agency determines that eligibility was erroneously granted at the most recent determination or renewal of eligibility because of Agency error or fraud, abuse, or perjury attributed to child or child's representative.
- The child dies.
- The child becomes eligible for Medicaid.

The state elects to provide coverage to the from-conception-to-end-of-pregnancy (FCEP) population (otherwise known as the "unborn").
