The development of a Crisis and Safety Plan shall be completed in alignment with the member’s service and treatment plan, and any existing behavior plan if applicable. It shall be
considered, when clinically indicated. Clinical indicators may include, but are not limited to needs identified in a member’s treatment, service, or behavior plan in addition to any one or a combination of the following:

A copy of the Crisis and Safety Plan shall be distributed to the team members that assisted with development of the Crisis and Safety Plan.

A Crisis and Safety Plan does not replace or supplant a Mental Health Power of Attorney or behavior plan, but rather serves as a compliment to these existing documents.

2. Essential Elements

A Crisis and Safety Plan shall establish goals to prevent or ameliorate the effects of a crisis and shall specifically address:

- Techniques for establishing safety, as identified by the member and/or healthcare decision maker, as well as members of the Child and Family Team (CFT) or Adult Recovery Team (ART),
