8. MHBG Funding

This funding can be used for behavioral health services for individuals designated as SMI and children with SED, and Evidence Based Practices for members experiencing FEP for Non-Title XIX/XXI eligible members. This funding can also be used for Title XIX/XXI members for certain services not covered by Title XIX. See AMPM Exhibit 300-2B for additional information on MHBG covered services.

MHBG SED services for outreach activities or positions that are non-encounterable can be an allowable expense, but they shall be tracked, activities monitored, and outcomes collected on how the outreach is getting access to care for those members with SED. Furthermore, the use of MHBG SED funds in schools is allowable as long as the following requirements are met:

- a. Funded positions or interventions cannot be used to fulfill the requirement for the same populations as the funds for *Behavioral Health Services for School-Aged Children* listed in the Title XIX/XXI Contract,
- b. Funded positions cannot be used to bill for services provided,
- c. Funded positions or interventions need to focus on identifying those with SED and getting those who do not qualify for Title XIX/XXI engaged in services through the MHBG, and
- d. This funding shall be utilized for intervention, not Prevention, meaning that members who are displaying behaviors that could be signs of SED can be assisted,

but not for general Prevention efforts to non-identified children who are not showing any risks of having SED.

Grant funding is the payor of last resort for Title XIX/XXI behavioral health covered services which have been exhausted (e.g. respite), Non-Title XIX/XXI covered services, and for Non-Title XIX/XXI eligible members for any services.

Grant funds paid to the Contractor or TRBHA for a state fiscal year shall be available for obligation and expenditures until the end of the state fiscal year for which the funds were paid unless otherwise noted in the Allocation Schedule or AHCCCS Contract/IGA/ISA and/or Allocation Letters. Similarly, funds paid to the Contractor for a contract year shall be available for obligation and expenditures until the end of the contract year for which funds were paid.

F. NON-TITLE XIX/XXI FUNDED CARE COORDINATION REQUIREMENTS

Providers shall make it a priority to work with the RBHA and/or TRBHA to enroll the individual in Non-Title XIX/XXI funded services immediately, while continuing to assist the individual with the processes to determine Title XIX/XXI eligibility. If the individual is deemed eligible for Title XIX/XXI funding, the member can choose a Contractor and American Indian members may choose either a Contractor, or AIHP, or a TRBHA if one is available in their area, and receive covered services through that Contractor or AIHP or a TRBHA. The provider shall work with the Care Coordination teams of all involved Contractors or payers to ensure each member's continuity of care. Members designated as SMI are enrolled with a RBHA. American Indian members designated as SMI have the choice to enroll with a TRBHA for their behavioral health assignment if one is available in their area.

If a Title XIX/XXI member loses Title XIX/XXI eligibility while receiving behavioral health services, the provider shall attempt to prevent an interruption in services. The provider shall work with the care coordinators of the Contractor or RBHA in the GSA where the member is receiving services, for Contractor enrolled or AIHP enrolled members, or the assigned TRBHA, to determine whether the member is eligible to continue services through available Non-Title XIX/XXI funding. If the provider does not receive Non-Title XIX/XXI funding, the provider and member shall work, together to determine where the member can receive services from a provider that does receive Non-Title XIX/XXI funding. The provider shall then facilitate a transfer of the member to the identified provider and work with the Care Coordination teams of all involved Contractors or payors. Contract language and measures stipulate that providers will be paid for treating members while payment details between entities are determined. If a Title XIX/XXI member, whether Contractor or AIHP enrolled, requires Non-Title XIX/XXI services, the provider shall work with the RBHA in the GSA where the member is receiving services, or the assigned TRBHA, to coordinate the Non-Title XIX/XXI services.

Required Title XIX/XXI Eligibility Screening

Behavioral health providers are required to assist individuals with applying for Arizona Public Programs (Title XIX/XXI, Medicare Savings Programs, Nutrition Assistance, and Cash Assistance), and Medicare Prescription Drug Program (Medicare Part D), including the Medicare Part D “Extra Help with Medicare Prescription Drug Plan Costs” low income subsidy program prior to receiving Non-Title XIX/XXI covered behavioral health services, at the time of intake for behavioral health services.

An individual who is found not eligible for Title XIX/XXI covered services may still be eligible for Non-Title XIX/XXI services, including services through the Substance Abuse Block Grant (SABG), the Mental Health Block Grant (MHBG), or the Projects for Assistance in Transition from Homelessness (PATH) Program. An individual may also be covered under another health insurance plan, including Medicare.

Individuals who refuse to participate in the AHCCCS screening/application process are ineligible for state funded behavioral health services. See A.R.S. §36-3408 and AMPM Policy 650. The following conditions do not constitute an individual’s refusal to participate:

1. An individual’s inability to obtain documentation required for the eligibility determination, and/or
2. An individual is incapable of participating as a result of their mental illness and does not have a legal guardian.

Pursuant to the Attorney General’s Order No. 2049–96.3.(a), individuals presenting for and receiving crisis, mental health or SUD treatment services are not required to provide documentation of Title XIX/XXI eligibility nor are they required to verify U.S. citizenship/lawful presence prior to or in order to receive crisis services as specified in A.R.S. §36-3408.

Members can be served through Non-Title XIX funding while awaiting a determination of Title XIX/XXI eligibility. However, upon Title XIX eligibility determination the covered services billed to Non-Title XIX, that are Title XIX covered, shall be reversed by the Contractor and charged to Title XIX funding for the retro covered dates of Title XIX eligibility. This does not apply to Title XXI members, as there is no PPC for these members.

RBHAs, TRBHAs, and other entities who have a direct contractual relationship with AHCCCS are responsible for managing Non-TXIX funding to ensure that funding is available for the fiscal period and if all Non-Title XIX/XXI funding is expended, RBHAs, TRBHAs, and other entities who have a direct Non-Title XIX/XXI funded contractual relationship with AHCCCS shall provide coordination services to address the needs through other community-based options. Members shall be placed on waitlists, as necessary, for services as funding comes available. Members placed on a waitlist will have interim services accessible to them while awaiting services.

The RBHAs, TRBHAs, and other entities who have a direct Non-Title XIX/XXI funded contractual relationship with AHCCCS are responsible for managing and prioritizing Non-Title XIX/XXI funds to ensure services are available for all individuals, prioritizing those with the highest level of need and Priority Population members.

In addition, Contractors are responsible for ensuring a comprehensive system of care for Non-Title XIX/XXI eligible members, and members shifting in and out of Title XIX/XXI eligibility. Refer to policy AMPM 100 for information on the Nine Guiding Principles for the Adult System of Care, and on the Twelve Guiding Principles for the Children’s System of Care. System development efforts, programs, service provision, and stakeholder collaboration shall be guided by the principles therein.

If there are any barriers to care, the provider shall work with the Care Coordination teams of all involved health plans or payers. If the provider is unable to resolve the issues in a timely manner to ensure the health and safety of the member, the provider shall contact AHCCCS/DHCM, Clinical Resolutions Unit (CRU). If the provider believes that there are systemic problems, rather than an isolated concern, the provider shall notify AHCCCS/DHCM, CRU of the potential barrier and/or send an email to GrantsManagement@azahcccs.gov. AHCCCS will conduct research and work with the Contractors and responsible entities to address or remove the potential barriers.

G. NON-TITLE XIX/XXI FUNDING SOURCES

All Non-Title XIX/XXI funding shall be used for medically necessary behavioral health services only.

RBHAs, TRBHAs, and other entities who have a direct Non-Title XIX/XXI funded contractual relationship shall report each Non-Title XIX/XXI funding source and services separately and provide information related to Non-Title XIX/XXI expenditures to AHCCCS upon request and/or in accordance with AHCCCS Contract/ISA/IGA or as specified in the Allocation Letter.

Services provided under Non-Title XIX/XXI funds are to be encounterable. Outreach activities or positions that are non-encounterable can be allowable expenses, but they shall be pre-approved by AHCCCS, tracked, activities monitored, and outcomes collected on how the activities or funded positions are facilitating access to care for Non-Title XIX/XXI eligible populations.

Additionally, positions funded exclusively through the Non-Title XIX/XXI funding shall not bill for services to receive additional funding from any fund source. Positions partially funded through the Non-Title XIX/XXI funding may only bill for services during periods when they are not being paid with Non-Title XIX/XXI funds.
