ATTACHMENT A – OPIOID TREATMENT PROGRAM REPORTING REQUIREMENTS

Pursuant to ARS 36-2907.14, in addition to all Federal and State licensing and registration requirements, any Opioid Treatment Program (OTP), including new and existing OTP sites, receiving reimbursement from AHCCCS or its Contractor shall develop and submit Plans as specified in statute, and any relevant documentation, for review and approval by AHCCCS. Annual reports are due no later than November 15 of each year. The submitted Plans will be posted to the AHCCCS website for public comment for 30 days. AHCCCS will determine the sufficiency of the submitted documentation within 30 days of the close of the public comment period.

Plans required for submission from the OTPs include:

1. Detailed security plan.

2. Neighborhood engagement plan.

3. Comprehensive plan to demonstrate how the OTP ensures that appropriate medication assisted standards of care are met.

4. Community relations and education plan, including evidence of the program's current provider profile on the AHCCCS Opioid Treatment Services Locator and evidence of community education, outreach, and awareness activities completed by the OTP's staff.

5. Current diversion control plan.

Refer to the Opioid Treatment Program (OTP) Requirements page for detailed information regarding expectations and submission requirements. Hospitals, jails, and OTPs on Tribal lands are exempt from the above reporting requirements.

If AHCCCS determines that there is a deficiency in any of the submitted documentation, the OTP will be provided 30 days, from day of notification, to correct the deficiency or AHCCCS will suspend reimbursement for OTP providers until deficiency is remediated. The Contractor is required to suspend payment to OTPs who do not receive AHCCCS approval.

IMPLEMENTATION DATE 10/01/26
